ABOUT ME

I am a dedicated full time student at Fort Street High School who enjoys leadership roles and works well in a team, taking on the role of Primary School Captain in 2013 and managing a State-finalist 'F1 In Schools' Team. I am a fast learner with a problem-solving mentality, having completed mathematics work at a level expected of a student five years older between 2011 and 2016 at the Kumon education centre. Working in a café since 2017, my communication skills are also very well developed and I find myself comfortable in social situations.

Outside of my work life I enjoy water-sports and attending my local gym, while maintaining strong connections with friends and family and an interest in cars and watches. In the next five years I hope to graduate from university with a civil engineering degree to equip me with the tools I need to contribute my part in Australia's growth.

EMPLOYABILITY ATTRIBUTES

- * Fast learner
- * Great communication skills
- * Punctual
- * Honest
- * Very meticulous
- * Ability to handle stressful situations
- * Confident and assertive

ACHIEVEMENTS (Chronological Order)

- * 2017, 2018 and 2019 Fort Street Speech Day Award for Engineering Studies
- * Team Manager/ Head Engineer of State Finalist 'F1 In Schools' Team, 'Innovation Award' and 2nd quickest Grand Prix time in NSW
- * Gained qualification in First Aid with Allen's Training
- * Fort Street High School Science Fair 2017 2nd Place
- * Duke Of Edinburgh Bronze Award Program 2016
- * Fort Street High School SRC member 2014
- * Commonwealth Parliamentarian's Distinguished Achievement Award 2013
- * St Luke's School Captain 2013

WORK EXPERIENCE

- Pharmacy 4 Less - Great North Road, Five Dock (April 2019 - Present)

At Pharmacy 4 Less my main role is restocking shelves and general store maintenance, however I also serve as a cashier on both the pharmacy and news agency (incl. NSW Lotteries) sides of the store.

- Peanut Butter Bar, Leichhardt NSW (December 2017 - March 2019)

Main responsibilities included customer service, dealing with money, preparing dishes (incl. shakes, gelato, cakes), cleaning duties, etc. Before working in the café, I delivered promotional pamphlets to letterboxes in the surrounding suburbs by bicycle.

- Kumon Australia PTY. LTD. Centre Assistant (September 2017 - June 2018)

My main responsibility at Kumon was to assist any students who need help with their Mathematics or English work and to make sure the pupils stayed focused and on task. Students ranged in age from 5-16, so adapting my teaching style to an individual's capabilities was an integral skill learnt.

EDUCATION

As a Year 12 student I have completed all years K-11, and I am currently studying Mathematics Extension 2, English Advanced, Physics, Engineering at Fort Street Selective High School. In 2018 I completed Mathematics (2 and 3 unit), scoring 96/100 and 48/50 for each subject, respectively.

Overall, I'm a dedicated, honest individual who loves solving problems both in and out of the classroom, enjoying challenges wherever I meet them. Having been in the workforce since 2017, I have well developed social skills, possessing confidence and a can-do attitude as well as a passion for working efficiently in a team.

Christian has demonstrated a strong understanding of the course. He has consistently engaged with the prescribed texts and is actively trying to develop his sophistication of writing through structure and language. He consistently contributes to class discussions and asks relevant questions to improve his understanding. This positive application has seen him make some marked improvements in both his ability to conceptualise and respond to a variety of text types. Christian needs to focus more on ideas and motifs to develop his creative writing. His analytical writing would benefit from developing his evaluative language.

Christian has produced a video presentation of the in-depth study that shows and describes the experimental method clearly. He needs to improve his understanding of relative motion and how to analyse various components of motion. He should also remember to consider the direction of vector quantities. Christian must remain engaged in all aspects of Physics lessons including theory and maintain a complete record of all practical tasks.

Christian has demonstrated a good level of technical ability in darkroom practices in wet photography. He has produced a sound portfolio of images representing the sensitivity of light using photogram and pinhole camera techniques. Christian's written evaluations show his understanding of darkroom and digital processes; however, in order to improve his practical work, he should spend more time planning and evaluating his images using his photographic journal.

Christian is very a passionate Engineering Studies student and this passion shows through his work on projects involving engineering principles. He loses focus on tasks if they require sustained concentration over a period of time. He is one of the most capable students in the class and should capitalise on this by ensuring all efforts are made to follow all learning tasks through to completion without delay.

Christian has demonstrated a strong understanding of the course. When engaged he is a consistent contributor to class discussions and helps foster a communicative and collaborative cohort. However, when Christian is not as interested in the prescribed text his contributions and quality of work decreases. He has made a conscious effort to improve his evaluative writing and this has led to strong results in his essay and multimedia tasks. However, he needs to ensure that his arguments are supported with relevant evidence and that he responds critically to the question. Christian also made some positive inroads with his creative writing this year.

Christian has made a concerted approach to increase his understanding of the concepts studied in PDHPE and this has seen an impressive improvement in his results. He has worked hard to complete home tasks and submit responses to practice examination questions. In class, Christian actively contributes to group tasks and shares his ideas in discussions. These efforts have assisted Christian to gain greater knowledge of current health priorities in Australia and bio-mechanical analysis of specific sporting skills. He needs to continue to practise writing responses without referring to notes to help improve his ability to use syllabus terms correctly and recall his knowledge in examination conditions.

Christian has demonstrated a strong understanding of the course. His effort in Term 4 was terrific and saw him develop a deep understanding of the poetry of Rosemary Dobson allowing him to engage critically with the demands of the Texts and Human Experiences Module. When engaging consistently at this level Christian becomes a positive contributor to class discussions often asking relevant questions that benefit himself and his peers. His effort towards the Textual Conversations Module was not as consistent and resulted in him having a less thorough understanding of the two prescribed texts leading to a less sophisticated response for his comparative essay.

Christian has demonstrated a strong understanding of the course. He has proven himself a capable writer who can create quality imaginative pieces in a variety of settings. He has also shown that he can write strong evaluative responses that outline his understanding of the prescribed texts. However, Christian's inconsistent application to class and homework and his disengagement with the course content has him performing at a level that is below where he should be at this stage of the course. Christian is a highly capable student who has achieved consistent improvements throughout the semester. He asks insightful questions in class, but is often lacking motivation to complete set tasks. To ensure his HSC examination performance is an accurate reflection of his ability, Christian is encouraged to adopt a more proactive and rigorous work ethic over the next few weeks and attempt past papers under examination conditions to minimise careless errors.

Christian has performed very well in all assessment tasks throughout the HSC course. He has an extensive understanding of the physics concepts but he needs to ensure that he addresses all aspects of an examination question. Christian is strongly encouraged to practise answering extended response questions.
