

Asquith Girls High School

Year 12

Semester 1 Report 2021

Alison CARR

Subjects Studied

English (Advanced) - HSC

Mathematics Extension 1 - HSC

Mathematics Extension 2 - HSC

Chemistry - HSC

Physics - HSC

Music 2 - HSC

Attendance Period: 29/1/21- 13/5/21

Whole Days Absent 0

Partial Days Absent 0

Explained Whole Days Absent 0

Explained Partial Days Absent 0

Unexplained Whole Days Absent 0

Unexplained Partial Days Absent 0

Year Adviser

OUTCOMES ASSESSED

A - Outstanding:	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B - High:	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C - Sound:	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D - Basic:	The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
E - Limited:	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.
N/A - Not Applicable:	The student has not been assessed in this outcome.

VOCATIONAL EDUCATION AND TRAINING COMPETENCIES

A - Achieved:	Competency has been attained.
C - Continuing:	Competency is not yet attained but the allocated timeframe is not yet complete. Student may still be able to demonstrate competency.
N/A - Not Achieved:	Competency was not attained within the allocated timeframe.
RPL - Recognition of Prior Learning:	Student has been awarded achievement of the competency based on previous other experience, usually from working in industry.
W - Withdrawn:	Student started working towards this competency but is no longer pursuing it and will not attain it.

Our school reports your child's progress with written reports twice a year and provides ongoing detail through interviews or meetings. Parents/Caregivers are encouraged to contact the school if they wish to discuss this report further.

Indicative Cumulative Rank 3/29

Personal profile for responsible learning	Consistently	Usually	Sometimes	Rarely
Completes set work including meeting deadlines	✓			
Is well organised and prepared for all tasks and activities	✓			
Works cooperatively and collaboratively, demonstrating respect for others	✓			
Works independently, showing initiative and motivation	✓			

Outcomes Assessed	Outstanding	High	Sound	Basic	Limited	Not Applicable
Independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure	✓					
Critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning	✓					
Thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments	✓					
Explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning	✓					

Teacher Comment

Alison is a conscientious and determined student who has demonstrated an extensive knowledge of the texts studied including the 'A Doll's House' and 'The Merchant of Venice'. Her critical essay proved a sophisticated use of language with strong threads of arguments. With continued evaluation of language devices, she will refine her analytical skills. Moreover, her outstanding multimodal presentation showed creativity through her chosen character for the podcast. With her dedication towards her studies, Alison should further build on her strengths in the English Advanced course.

Indicative Cumulative Rank 4/13

Personal profile for responsible learning	Consistently	Usually	Sometimes	Rarely
Completes set work including meeting deadlines	✓			
Is well organised and prepared for all tasks and activities	✓			
Works cooperatively and collaboratively, demonstrating respect for others	✓			
Works independently, showing initiative and motivation	✓			

Outcomes Assessed	Outstanding	High	Sound	Basic	Limited	Not Applicable
Applies concepts and techniques involving vectors and projectiles to solve problems	✓					
Applies techniques involving proof or calculus to model and solve problems	✓					
Chooses and uses appropriate technology to solve problems in a range of contexts	✓					
Evaluates and justifies conclusions, communicating a position clearly in appropriate mathematical forms	✓					
Uses concepts of permutations and combinations to solve problems involving counting or ordering	✓					

Teacher Comment

Alison is a self-directed student with a strong work ethic, who has achieved at an outstanding level this semester. She demonstrates a solid and thorough understanding of concepts in class and translates this effectively into her course work. Alison is very capable of comprehending technical terminology and constantly refines her worked solution strategies so that she successfully reflects all the components required within the more complex and challenging concepts. Greater experience with these types of HSC style questions may assist her to demonstrate her knowledge at the highest level possible in this course.

Indicative Cumulative Rank 1/6

Personal profile for responsible learning	Consistently	Usually	Sometimes	Rarely
Completes set work including meeting deadlines	✓			
Is well organised and prepared for all tasks and activities	✓			
Works cooperatively and collaboratively, demonstrating respect for others	✓			
Works independently, showing initiative and motivation	✓			

Outcomes Assessed	Outstanding	High	Sound	Basic	Limited	Not Applicable
Understands and uses different representations of numbers and functions to model, prove results and find solutions to problems in a variety of contexts	✓					
Chooses appropriate strategies to construct arguments and proofs in both practical and abstract settings	✓					
Uses vectors to model and solve problems in two and three dimensions	✓					
Uses the relationship between algebraic and geometric representations of complex numbers and complex number techniques to prove results, model and solve problems	✓					
Applies various mathematical techniques and concepts to model and solve structured, unstructured and multi-step problems	✓					
Communicates and justifies abstract ideas and relationships using appropriate language, notation and logical argument	✓					

Teacher Comment

Alison's commitment to ensuring that she achieves at her potential in this course has been rewarded by this set of impressive results. She is to be commended on the outstanding quality of her assessment task where she demonstrated the application of the higher order thinking skills that the demands of this course require. She can effectively build greater complexity into her current strategies with a greater focus on understanding the key ideas apparent within the more challenging and complex higher band HSC style questions in all areas.

Indicative Cumulative Rank 2/11

Personal profile for responsible learning	Consistently	Usually	Sometimes	Rarely
Completes set work including meeting deadlines	✓			
Is well organised and prepared for all tasks and activities	✓			
Works cooperatively and collaboratively, demonstrating respect for others	✓			
Works independently, showing initiative and motivation	✓			

Outcomes Assessed	Outstanding	High	Sound	Basic	Limited	Not Applicable
Students analyse and evaluate primary and secondary data and information to solve scientific problems	✓					
Students conduct investigations to collect valid and reliable primary and secondary data and information	✓					
Students explain the characteristics of equilibrium systems, and the factors that affect these systems	✓					
Students describe, explain and quantitatively analyse acids and bases using contemporary models		✓				

Teacher Comment

Alison has shown an exceptional work ethic in Chemistry. She achieved an excellent outcome in her depth study assessment task by accurately assessing the importance of solubility and its associated chemical equilibria in industry. Alison has outstanding skills in conducting accurate titrations and her competence in selecting and applying appropriate strategies to solve unfamiliar calculation problems is commendable. Alison's ability to deliver logical explanations in extended responses is steadily improving, but regular practice is needed to ensure this improvement is consolidated.

Indicative Cumulative Rank 1/10

Personal profile for responsible learning	Consistently	Usually	Sometimes	Rarely
Completes set work including meeting deadlines	✓			
Is well organised and prepared for all tasks and activities	✓			
Works cooperatively and collaboratively, demonstrating respect for others	✓			
Works independently, showing initiative and motivation	✓			

Outcomes Assessed	Outstanding	High	Sound	Basic	Limited	Not Applicable
Students design and conduct an first-hand investigations	✓					
Students analyse and evaluate primary and secondary data and information		✓				
Students solve scientific problems using critical thinking skills and scientific processes		✓				
Students describe and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles	✓					
Students explain and analyse the electric and magnetic interactions due to charged particles and currents, and evaluate their effect both qualitatively and quantitatively		✓				

Teacher Comment

Alison excels at applying critical thinking to make links between different concepts. She has demonstrated excellent skills in calculations and she can apply abstract mathematical models to represent an unfamiliar situation. There is scope for Alison to be more precise in her use of terminology and rigorously accurate when wording her explanations. She is encouraged to use her upcoming depth study as an opportunity to research a broad range of first hand investigations and improve her ability to predict and evaluate the effect of various factors.

Indicative Cumulative Rank 1/1

Personal profile for responsible learning	Consistently	Usually	Sometimes	Rarely
Completes set work including meeting deadlines	✓			
Is well organised and prepared for all tasks and activities	✓			
Works cooperatively and collaboratively, demonstrating respect for others	✓			
Works independently, showing initiative and motivation	✓			

Outcomes Assessed	Outstanding	High	Sound	Basic	Limited	Not Applicable
Performs repertoire that reflects the mandatory and additional topics and addresses the stylistic and technical demands of the music as a soloist and as a member of an ensemble		✓				
Composes works focusing on a range of concepts, for familiar and unfamiliar sound sources, solo, small and large ensembles, or using a variety of musical structures	✓					
Analyses, discusses, evaluates and clearly articulates compositional processes with stylistic, historical, cultural, social and musical considerations	✓					
Critically evaluates and discusses in detail the concepts of music in works representative of the mandatory and additional topics	✓					
Identifies, recognises, experiments with, and discusses the uses and effects of technology in music	✓					

Teacher Comment

Alison is a highly motivated and dedicated musician. She has displayed excellent performance skills on the flute, working cohesively and communicating well with her accompanist for her core performance task. Alison needs to improve her sight singing and melodic dictation skills by completing more aural interval training and past paper examples. Her core composition also requires more attention to ensure all her portfolio ideas are realised in the notated composition.

TO WHOM IT MAY CONCERN

Alison Carr has attended Asquith Girls High School since the beginning of Year 7. During this time she has earned a reputation as an exemplary young scientist and student leader. Her attendance is excellent, she is punctual to lessons and set work is presented on time. She is currently excelling in both HSC Physics and HSC Chemistry, as well as her other HSC subjects which are Mathematics Extension 1, Mathematics Advanced, Music 2, English Advanced and Geography. Her commitment to a future career in STEM is well-known.

Throughout her time in high school, Alison has consistently demonstrated outstanding abilities in Science. In the classroom, she applies a high level of critical thinking to all new ideas, and often makes intuitive connections to authentic applications she has learnt through her own initiative. Alison's first-hand investigations are immediately recognisable for their characteristic crisp and accurate methodology. In 2019 she was awarded the Young Scientist of the Year award in the school's Science Expo, in recognition of her student-designed first-hand investigation. In 2019 the school was pleased to recommend her for the Futures Project, and immensely proud when she was awarded first prize in 2020. In 2020, Alison achieved equal first place in Preliminary Physics, and a close second in Preliminary Chemistry. Her early results in 2021 follow a similar pattern of exemplary achievement.

Alison shows great responsibility and resilience in her learning. Her written communication is highly skilled, and she is a clear and confident public speaker. She has involved herself in many leadership roles while at Asquith Girls High School, such as the Prefect Team, and she has fulfilled these roles seriously and effectively. Within the classroom environment, Alison is committed to the highest standard of academic rigour, whilst always maintaining respectful relationships with peers and teachers. We recommend her unreservedly as an excellent candidate for the International Science School.

to Angie, me, Kim

Dear Students,

Once again congratulations for your outstanding achievements in the Quest competition and for qualifying in the National Final!
We are in the midst of planning for the event and designing Challenge activities that are fun, exciting, and likely to extend the knowledge and skills that you gained at the Quest even more.
In order to achieve that, in addition to revising the material that was covered in the Quest Preparation Day, it would be beneficial if you could watch the following videos, in order to best equip you. (Please find the links below). The videos will be available on the competition day also, for your reference.
After watching the videos, please complete a three way compare and contrast diagram between matter, anti-matter and dark matter, to help consolidate your knowledge.
We are looking very much forward to your outstanding contributions in the Quest National Final.

All the best with your preparation,

The BRAINways Team
