Manly Campus

Academic Excellence - Personal Best - Giving Back to the Community

Semester 2 Report 2019

Benjamin CRIMP

Year 12

List of Subjects

English (Advanced) - HSC
Chemistry - HSC
Engineering Studies - HSC
Mathematics Extension 1 - HSC
Mathematics Extension 2 - HSC
Physics - HSC

Year Advisor: Lina Izossimova

Principal: Cath Whalan

2019 Semester 2 Report - Year 12

Level of Achievement

Achievement Achievement Description

Outstanding	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved very high levels of competence in the processes and skills and can apply these skills to new situations.
High	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills and can apply these skills to most situations.
Sound	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
Basic	The student has a basic knowledge and understanding of the main areas of content and has achieved a limited level of competence in the processes and skills.
Limited	The student has an elementary knowledge and understanding in a few areas of content and has achieved a very limited level of competence in some of the processes and skills.

NBSC Manly Campus can provide written information, following parent application, showing your child's achievement compared to his or her peer group at our school. This information shows the number of students in each of the five achievement levels based on the "Overall Level of Achievement" for each subject.

Additional Programs and Activities

Sydney North Athletics Carnival

2019 Semester 2 Report - Year 12

English (Advanced) - HSC

Name: Benjamin CRIMP

Class: 12ENAE2

Teacher: Adriana Franic

Comment on Progress

Benjamin is a committed and articulate student who has achieved excellent results in his Trial HSC Examination and in a variety of assessment tasks. His participation in class, individually as well as in group contexts, is commendable. Benjamin's sustained approach, especially his understanding of the conceptual and contextual elements required to achieve well in expositions and language tasks, underpins his very good preparation for the Higher School Certificate. I wish him every success for his future.

Learning Outcomes

Outcomes	O	H	S	B	L
Critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning.	✓				
Strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts.	✓				
Thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments.	✓				
Investigates and evaluates the relationships between texts.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2019 Semester 2 Report - Year 12

Chemistry - HSC

Name: Benjamin CRIMP

Class: 12CHEMC4

Teacher: Anna Molnar

Comment on Progress

Benjamin is a very capable student who has worked diligently to achieve these outstanding grades. He has demonstrated extensive understanding of a wide range of chemical concepts and is able to apply his knowledge to solve complex problems in a variety of situations. His sustained focus and willingness to seek clarification of complex concepts is indicative of his motivation to achieve his personal best. Benjamin is to be commended on the high quality work he produced in both the Depth Study and Trial HSC Examination.

Learning Outcomes

Outcomes	O	H	S	B	L
Conducts investigations to collect valid and reliable primary and secondary data and information.	✓				
Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media.	✓				
Explains the characteristics of equilibrium systems, and the factors that affect these systems.	✓				
Describes, explains and quantitatively analyses acids and bases using contemporary models.	✓				
Analyses the structure of, and predicts reactions involving carbon compounds.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2019 Semester 2 Report - Year 12

Engineering Studies - HSC

Name: Benjamin CRIMP

Class: 12ENGSTA1

Teacher: Joanne Drew

Comment on Progress

Benjamin is a highly motivated and perceptive student who has achieved outstanding results. He demonstrated strong design skills in the construction of a high quality hydraulic lifting device, applying many course principles in this practical assessment task. Benjamin also submitted a comprehensive engineering report with detailed research and analysis sections. Benjamin's HSC Trial Examination mark was most impressive and showed a high level of preparation. Benjamin is encouraged to continue this tenacious approach and is wished well for his future endeavours.

Learning Outcomes

Outcomes	O	H	S	B	L
Justifies the selection of materials and components in engineering.	✓				
Analyses engineering applications in specific fields.	✓				
Demonstrates proficiency in the use of mathematical, scientific and graphical methods of analysis.	✓				
Demonstrates an understanding of engineering drawing and drawing standards.	✓				
Demonstrates skill in research and problem solving related to engineering.	✓				
Uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2019 Semester 2 Report - Year 12

Mathematics Extension 1 - HSC

Name: Benjamin CRIMP

Class: 12MAX1A7

Teacher: Mark Harrison

Comment on Progress

Benjamin has shown himself to be a highly motivated student of Mathematics. He engages with learning experiences provided to him and actively seeks further challenges to extend his knowledge, understanding and ability to solve problems. As a result of his efforts and consistent dedication to completion of all set tasks, he has become a highly competent mathematical thinker and has achieved at outstanding levels. Benjamin is encouraged to maintain his work ethic and learning practices in the lead up to his HSC Examination.

Learning Outcomes

Outcomes	O	H	S	B	L
Uses a variety of strategies to investigate mathematical models of situations involving projectiles, velocity and acceleration as functions of displacement and exponential growth and decay.		✓			
Uses the relationship between functions, inverse functions and their derivatives.	✓				
Determines integrals by reduction to a standard form through a given substitution.	✓				
Uses a variety of strategies to investigate mathematical models of situations involving binomial probability and binomial theorem.	✓				
Uses inductive reasoning in the construction of proofs for problems involving circle geometry, parametrics, inequalities and mathematical induction.	✓				
Applies the chain rule to problems involving rates of change.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2019 Semester 2 Report - Year 12

Mathematics Extension 2 - HSC

Name: Benjamin CRIMP

Class: 12MAX2B9

Teacher: Robert Harris

Comment on Progress

Benjamin is a thoughtful and well-mannered student who makes a significant effort to ensure he has understood the topics presented in this course. His careful and logical approach has ensured he has achieved considerable success and he is to be congratulated on this. Given his focus, ability and desire to achieve, Benjamin should expect to gain continued success his final HSC Examination.

Learning Outcomes

Outcomes	O	H	S	B	L
Uses the relationship between algebraic and geometric representations of complex numbers.		✓			
Uses efficient techniques for the algebraic manipulation required in dealing with questions such as those involving conic sections and polynomials.		✓			
Uses ideas and techniques from calculus to solve problems in mechanics involving resolution of forces, resisted motion and circular motion.	✓				
Combines the ideas of algebra and calculus to determine the important features of the graphs of a wide variety of functions.	✓				
Uses the techniques of slicing and cylindrical shells to determine volumes.	✓				
Applies further techniques of integration, including partial fractions, integration by parts and recurrence formulae, to problems.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2019 Semester 2 Report - Year 12

Physics - HSC

Name: Benjamin CRIMP
Class: 12PHYSA5
Teacher: Meredith Koovarjee

Comment on Progress

Benjamin is an extremely capable and conscientious student who has consistently achieved outstanding results this semester. His extended analysis of ideas demonstrate a willingness to explore both the scope and depth of the material covered in the syllabus. Benjamin effectively communicates extensive understanding of the concepts in the Physics course using appropriate terminology and examples and he can apply these ideas to unfamiliar situations. He is able to effectively plan, execute and interpret laboratory investigations, report on his findings and analyse data. Benjamin's mature and systematic approach to his learning has underpinned his success in Physics.

Learning Outcomes

Outcomes	O	H	S	B	L
Processes, analyses and evaluates qualitative and quantitative data and information, from both primary and secondary sources, using a range of appropriate media.	✓				
Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes.	✓				
Communicates scientific understanding using suitable language and terminology for a specific audience or purpose.	✓				
Describes, explains and analyses qualitatively and quantitatively, circular, gravitational and projectile motion.	✓				
Explains and analyses qualitatively and quantitatively electric and magnetic interactions due to charged particles and currents.	✓				
Describes, explains and analyses evidence for the properties of light, and evaluates the implications of this for modern theories of physics including astronomical events.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------
