2022 Semester 2 Report - Year 12

Level of Achievement

Achievement Achievement Description

Outstanding	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved very high levels of competence in the processes and skills and can apply these skills to new situations.
High	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills and can apply these skills to most situations.
Sound	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
Basic	The student has a basic knowledge and understanding of the main areas of content and has achieved a limited level of competence in the processes and skills.
Limited	The student has an elementary knowledge and understanding in a few areas of content and has achieved a very limited level of competence in some of the processes and skills.

NBSC Manly Campus can provide written information, following parent application, showing your child's achievement compared to his or her peer group at our school. This information shows the number of students in each of the five achievement levels based on the "Overall Level of Achievement" for each subject.

2022 Semester 2 Report - Year 12

English Advanced

Name: Lucas HARVEY
Class: 12ENAD1
Teacher: Elizabeth Lindsay

Comment on Progress

Lucas is an exemplary English Advanced student who continues to achieve at the highest levels across all tasks. His analytical responses are lexically dense and thoughtful while his creative compositions reflect engaging concepts and skillful use of language. With sustained study and practice, Lucas has the ability to achieve excellent results in the final examination. I wish him well in his Higher School Certificate and beyond.

Learning Outcomes

Outcomes	O	H	S	B	L
A student independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure.	✓				
A student uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies.	✓				
A student thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments.	✓				
A student investigates and evaluates the relationships between texts.	✓				
A student evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2022 Semester 2 Report - Year 12

Economics

Name: Lucas HARVEY

Class: 12ECOB4

Teacher: Scott Sinclair

Comment on Progress

Lucas should be congratulated on his outstanding approach to Economics. He has maintained an exemplary standard of achievement, demonstrating a sophisticated understanding of contemporary economic issues. In particular, his ability to analyse and interpret economic data, trends and relationships is evidence of the depth of his content knowledge. With sustained focus, Lucas has the ability to achieve at the highest level in the Higher School Certificate Examination.

Learning Outcomes

Outcomes	O	H	S	B	L
Applies economic terms, concepts and relationships in appropriate contexts.	✓				
Analyses the impact of contemporary economic issues on the Australian and global economies.	✓				
Evaluates policy options for dealing with contemporary and hypothetical issues.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2022 Semester 2 Report - Year 12

Mathematics Extension 1

Name: Lucas HARVEY

Class: 12MAX1A2

Teacher: Kerrienne Lee

Comment on Progress

Lucas has maintained working independently and conscientiously through the course. It is evident from his application that he is always striving for deep understanding of the concepts and the methods used in solving problems. As a result of his efforts, Lucas has developed and grown as a mathematical thinker who is capable of communicating his ideas in a logical manner.

Learning Outcomes

Outcomes	O	H	S	B	L
Applies advanced concepts and techniques in simplifying expressions involving compound angles and solving trigonometric equations.	✓				
Uses calculus in the solution of applied problems, including differential equations and volumes of solids of revolution.	✓				
Applies appropriate statistical processes to present, analyse and interpret data.	✓				
Uses calculus in the solution of applied problems, including integration and inverse trigonometry.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2022 Semester 2 Report - Year 12

Mathematics Extension 2

Name: Lucas HARVEY

Class: 12MAX2A8

Teacher: Robert Harris

Comment on Progress

Lucas is a capable student who has taken on the challenges presented by this course in a very determined manner. He has consistently sought to ensure he has a good understanding of the concepts presented and has been willing to put in the effort to overcome any concerns he may have had. As a result, he has achieved significant success for which he is to be congratulated. With care to maintain his focus, Lucas should expect to achieve considerable success in his final HSC Examination.

Learning Outcomes

Outcomes	O	H	S	B	L
Chooses appropriate strategies to construct arguments and proofs in both practical and abstract settings.		✓			
Uses vectors to model and solve problems in two and three dimensions.		✓			
Uses the relationship between algebraic and geometric representations of complex numbers and complex number techniques to prove results, model and solve problems.			✓		
Applies techniques of integration to structured and unstructured problems	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2022 Semester 2 Report - Year 12

Software Design and Development

Name: Lucas HARVEY
Class: 12SDDA3
Teacher: Branko Goykovic

Comment on Progress

Lucas has demonstrated an exceptional talent for all aspects of this subject. He is able to apply advanced principles of this course in a concise and appropriate manor to achieve the required result. Lucas has the ability to achieve top marks in this subject if he maintains his current level of study and revision. Lucas' major project was of the highest standard and he can be congratulated on a fine effort.

Learning Outcomes

Outcomes	O	H	S	B	L
Describes various methods used to construct software solutions and how a computer system stores data.	✓				
Describes the development of different language types and their relationship to emerging technologies.	✓				
Identifies and evaluates legal, social and ethical issues in a range of contexts.	✓				
Identifies, applies and evaluates various modular approaches to software problems.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited

2021 Semester 2 Report - Year 11

English Advanced

Name: Lucas HARVEY
Class: 11ENAD1
Teacher: Lisa-Maree Newton

Comment on Progress

Lucas is an exemplary English student who continues to achieve at the highest levels across all tasks. Both his narrative assessment and Yearly Examination were excellent, with fluency in both creative and analytical writing demonstrated through various text types. Further wide reading should ensure that Lucas' vocabulary and expression continue to grow in sophistication and maturity. He is to be commended for his hard work and positive attitude.

Learning Outcomes

Outcomes	O	H	S	B	L
A student analyses and uses language forms, features and structures of texts considering appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning.	✓				
A student thinks imaginatively, creatively, interpretively and critically to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments.	✓				
A student reflects on, evaluates and monitors own learning and adjusts individual and collaborative processes to develop as an independent learner.	✓				
A student responds to, composes and evaluates complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2021 Semester 2 Report - Year 11

Economics

Name: Lucas HARVEY

Class: 11ECOB4

Teacher: Ranald Leung

Comment on Progress

Lucas has shown enthusiasm towards Economics and has maintained a consistent effort throughout the course. His assessment results indicate a strong overall understanding of economic concepts. Lucas can improve by practising the use of relevant economic terms, concepts and contemporary examples in his extended responses. He could also show more detailed understanding by exploring economic processes more thoroughly.

Learning Outcomes

Outcomes	O	H	S	B	L
Explains the economic role of individuals, firms and government in an economy.		✓			
Analyses the relationship between individuals, firms, institutions and government in the Australian economy.		✓			
Applies economic terms, concepts and relationships in appropriate contexts.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2021 Semester 2 Report - Year 11

Engineering Studies

Name: Lucas HARVEY

Class: 11ENGSTA5

Teacher: Joanne Drew

Comment on Progress

Lucas produced an outstanding report on the design and construction of a biomedical arm, demonstrating an excellent ability to research and problem solve engineering applications. In particular his team took exceptional care in drawing, laser cutting and assembling a well functioning product. Lucas achieved a strong Year 11 Examination result, which demonstrated his knowledge of engineering applications and understanding of the societal impacts of engineering. It is recommended he revise analytical questions in past papers in order to further improve this result. Overall, Lucas is to be commended for his consistently outstanding effort and dedication to learning in Engineering Studies.

Learning Outcomes

Outcomes	O	H	S	B	L
Justifies the selection of materials and components in engineering.	✓				
Analysis engineering applications in specific fields.	✓				
Demonstrates proficiency in the use of mathematical, scientific and graphical methods of analysis.		✓			
Demonstrates an understanding of engineering drawing and drawing standards.	✓				
Demonstrates skill in research and problem solving related to engineering.	✓				
Uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2021 Semester 2 Report - Year 11

HSC Mathematics Advanced

Name: Lucas HARVEY

Class: 11MAHA2

Teacher: Kerrienne Lee

Comment on Progress

Lucas has been an independent learner throughout this course. He has been able to take the theory given by the teacher and complete problems with minimal assistance. Lucas has shown a positive attitude towards learning and an impressive commitment to achieve his personal best.

Learning Outcomes

Outcomes	O	H	S	B	L
Applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs.	✓				
Solves problems using appropriate statistical processes.	✓				
Constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context.		✓			
Applies calculus techniques to model and solve problems and applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems.		✓			

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2021 Semester 2 Report - Year 11

Mathematics Extension 1

Name: Lucas HARVEY

Class: 11MAX1C7

Teacher: Chris Dendle

Comment on Progress

Lucas is an intelligent and motivated student who has applied himself consistently this semester. He works solidly during lessons to complete the assigned exercises and asks questions frequently to consolidate his understanding. Lucas has obtained excellent results across all assessments, for which he should be congratulated. With continued effort, Lucas has the ability to achieve all outcomes at the highest level in his HSC studies in this subject.

Learning Outcomes

Outcomes	O	H	S	B	L
Manipulates algebraic expressions and graphical functions to solve problems.	✓				
Uses appropriate technology to investigate, organise and interpret information to solve problems in a range of contexts.	✓				
Uses algebraic and graphical concepts in the modelling and solving of problems involving functions and their inverses, applies concepts and techniques of inverse trigonometric functions and simplifying expressions involving compound angles in the solution of problems.	✓				
Applies understanding of the concept of a derivative in the solution of problems, including rates of change, exponential growth and decay and related rates of change and uses concepts of permutations and combinations to solve problems involving counting or ordering.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2021 Semester 2 Report - Year 11

Physics

Name: Lucas HARVEY

Class: 11PHYSB6

Teacher: Jamie Wan

Comment on Progress

Lucas is a highly capable and diligent student who has steadily applied himself this semester to attain these excellent grades. His overall performance confirms that he has extensive knowledge and understanding of scientific concepts, including complex and abstract ideas and is able to apply critical thinking to solve unfamiliar problems. Lucas' detailed notes demonstrate a willingness to explore the scope and depth of the syllabus and he actively seeks feedback and purposefully uses it to improve his work. In class, Lucas works well individually and in group settings but would benefit from asking more questions to clarify difficult concepts. With effort in these areas, maintenance of syllabus summaries as well as practice of HSC style questions, Lucas should improve even further to achieve consistently outstanding results.

Learning Outcomes

Outcomes	O	H	S	B	L
Analyses and evaluates primary and secondary data and information.	✓				
Communicates scientific understanding of thermodynamics using suitable language and terminology for a specific audience or purpose.	✓				
Describes and explains events in terms of Newton's Laws of Motion, the law of conservation of momentum and the law of conservation of energy.	✓				
Solves scientific problems using Laws of Physics and critical thinking skills.		✓			
Explains and quantitatively analyses waves, electric fields, circuitry and magnetism.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------

2021 Semester 2 Report - Year 11

Software Design and Development

Name: Lucas HARVEY
Class: 11SDDA3
Teacher: Branko Goykovic

Comment on Progress

Lucas is an exceptional student who has worked extremely hard to achieve his impressive level of success in Software Design and Development. His recent Yearly Examination results are a clear indication of his dedication and sustained work ethic towards improving his performance. To even further improve upon his excellent results, Lucas should practice question deconstruction and developing appropriate responses in examinations.

Learning Outcomes

Outcomes	O	H	S	B	L
Develops knowledge and understanding about how software solutions utilise and interact with other elements of computer systems.	✓				
Describes developments in the levels of programming languages and the effects on current practice.	✓				
Identifies the issues relating to the use of software solutions.	✓				
Analyses a given problem and investigates structured approaches in order to generate a computer based solution.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited

Overall Achievement

Outstanding	High	Sound	Basic	Limited
-------------	------	-------	-------	---------
