Semester 2 Report, 2022

Subject: English Advanced Stage 6

Teacher: Mr D. Bray

In semester two, students explored the critical ideas uncovered in the poetry of David Malouf in Module B and developed an appreciation of the aesthetic nature of our world, as well as an understanding of the poet's creative processes. Students responded critically as individuals and in a range of group tasks to inform a growing sophisticated understanding of texts and their essential ideas. The Craft of Writing module, allowed students to develop a range of writing skills, including creative, reflective, discursive, and persuasive writing. The Module C texts, Tennyson's Lady of Shallot and Harwood's Barn Owl, connected students to the technical nature of writing, as well as ideas that informed their own personal imaginative responses

Teacher Comment

Anna has enjoyed a very successful year in Advanced English, producing work of a consistently high standard. Her responses to complex and challenging texts demonstrate keen critical awareness and judgement. Her interpretive findings were sensitive and nuanced and revealed a powerful command of the analytic and evaluative skills necessary for such meaningful engagement. Her critical judgement will continue to serve Anna well into her tertiary and professional life.

Subject: Mathematics Advanced

Teacher: Mr R. Fantasia, Mr A. Unal

Throughout this semester in the Mathematics Advanced course students have applied techniques from the study of calculus, geometry and series. Students have used the derivative to determine the features of the graph of a function and used graphs to deduce information about the derivative.

Teacher Comment

Anna has demonstrated overall competence in her engagement with the course content of HSC Mathematics Advanced. She is a very capable student who works very well with others to engage in problem-solving. She can differentiate and integrate a variety of routine functions in Calculus as well as engage in routine problem solving related to these functions with acceptable accuracy. She can use spreadsheets to model and make meaning out of a variety of mathematical problems. She has a superior knowledge of bi-variate data analysis and is able to perform regression analysis and draw sophisticated conclusions. She has an all-round knowledge of the strands and is well placed for tertiary Mathematical pathways.

Subject: Chemistry

Teacher: Mrs K. Juriansz

This semester students built on knowledge about particular classes of chemicals, processes and a variety of chemical reactions which incorporate acid/base equilibrium reactions. They also analysed the structures of and predict reactions involving carbon compounds. In module 8, they evaluated chemical systems used to design and analyse chemical processes.

Anna is a highly capable student who has worked consistently throughout the Chemistry course and achieved a well deserved fourth place in the course. Her results in the trial examination reflect her good understanding of the course content. In order to improve her achievement for the upcoming HSC examination, Anna should spend time revising course material and practise responding to short answer questions. I wish Anna all the best for her future endeavours.

Teacher Comment

Anna is a hard working Physics student. In the secondary source analysis, Anna demonstrated that she can process the provided information to a high level, calculating the mean and graphing the results, but should work on her time management during examination settings, as she missed out on marks by not having time to consider all questions. She also could analyse data to a high level, showing that she can calculate the uncertainty and identify sources of error as well as discuss the accuracy of experimental results. In the trial examination, she demonstrated an excellent knowledge and understanding of the Module 7 and Module 8 content areas. I wish her all the best with her revision for the HSC examination and in all her future endeavours.

Semester 2 Report, 2022

Subject: Society and Culture

Teacher: Ms N. Saab

This semester in Society and Culture saw students continue their exploration of Popular Culture. Students focused on the case study of Comic Book Films and explored how this once sub-culture emerged into a global popular culture. They developed an understanding of how key processes such as commercialisation and globalisation have fostered the growth of popular cultures. Students have also explored a further Depth Study, that of Belief Systems and Ideologies. Students gained an understanding of the nature of religious and non-religious belief systems and ideologies. Students have also explored Buddhism as a focus study during this unit. Students were able to explore the key changes and continuities Buddhism as a belief system has experienced throughout time.

She can readily apply her extensive knowledge of contemporary issues to the questions being asked, as evidenced by her mark in the Trials and her hard work in the PIP. Anna has been a delight to teach and has been consistent with her outstanding results throughout the entire year. She is encouraged to maintain this momentum through to the HSC to produce thorough and comprehensive work for her final result. I wish her all the best with her future endeavours.

Subject: Economics

Teacher: Ms S. Lee

Discussion of economic issues dominates the media and politics. By understanding economics, students can make informed judgements about issues and policies and participate responsibly in decision making. Economics has a theoretical basis and economists often debate the relative merits of different theories when assessing economic issues and proposing solutions to economic problems, including economic modelling.

Anna is a gentle, thoughtful young person who is an asset to our Homeroom. Her quiet dignity and reserved manner should be no barrier to Anna participating more fulsomely in Homeroom discussions, for she has much to offer. Anna's attendance at most College events and her involvement in a co-curricular activity are commendable. Anna is also encouraged to consider broadening her co-curricular involvement to help her develop her interests and new skills.

Co-negotiated Reflection

My learning goals so far have been to develop better time management skills, study more effectively and achieve learning growth. The action I undertook to achieve my goals was to regularly enforce stricter self-discipline so that I began tasks promptly and completed everything in a timely manner. My progress towards achieving my goals has been mostly positive, however, the change in routine to Continuous Learning at home was challenging. I am conscious that this is a learning challenge and I will make this a focus in Semester Two.

Comment

Anna is a considerate and courteous member of Doyle 7. She possesses an inquisitive mind that offers insightful views into Homeroom discussions. Anna is encouraged to independently involve herself in Homeroom activities more regularly, which should allow her to expand her collaboration and teamwork skills. Being a Mercy Action Representative and engaging in co-curricular activities have enabled Anna to develop stronger interpersonal skills and provided her with a sense of empowerment which she enjoys. She has been challenged to commit herself to the Mercy Engaged Program and is yet to complete the program requirements, while Anna must also improve her punctuality to school, especially Homeroom. With a keen interest in History and Science, Anna takes pride in her desire to explore ideas and concepts in depth, which has helped to develop strong critical thinking skills. Anna should be commended on her independent approach to studying and has acknowledged the need to use her College Diary effectively and to create a study timetable, allowing time to complete homework tasks to the best of her ability.
