Email: bob.xy.chen@gmail.com

## PERSONAL STATEMENT

I am problem-solving focused student with a keen interest to have a career into robotic and software engineering. I love making things that benefit the lives of everyday people through software and robotics. I have had a range of leadership experience from leading extra-curricular school activities such as ZeroRobotics to work experience, where I helped the team I led to achieve its potential by employing effective time management and communication. I am highly motivated and always looking for new opportunities to learn and grow as a person and as a leader.

## EDUCATION

### 2016-Present

#### James Ruse Agricultural High School

- First in 2018 Preliminary Physics
- First in 2016 Preliminary IPT (Information Processes and Technology)

#### Extra-Curricular:

- 2018 Zero Robotics Team Lead
- 2018 – Present Programming Club Lead
- Amnesty International
- Silver Medal at NSW Young Scientist
- Physics and Informatics Olympiad
- Organiser of Peer Teaching

### 2014-2015

#### Normanhurst Boys High School

- Grade Dux of 2015
- First in Mathematics 2015
- First in French 2015
- First in Mathematics 2014

## EXTRA-CURRICULAR

### Zero Robotics Team Leader (2018)

#### Responsibilities

- Managed a team of 12 students, from Year 7 to 11 and delegated roles and scheduled tasks
- Organised meetings to discuss
- Liaised with Head Teacher of Science (school organiser) and USyd organisers

#### Achievements

- Our team came Top 10 within Australia and then Top 15 again in the International Virtual Competition
- Launched successful campaign to increase members by 15% from previous years to increase team flexibility and strength

### **Programming Club Lead (2018 – Present)**

#### Responsibilities

- Lead a group of ~20 of students passionate about programming and maintain an environment to facilitate their learning

#### Achievements

- Helped launch an advertisement campaign to encourage girls to take on programming

### **Co-Leader of Peer Teaching (2018-Present)**

- Leading a student run initiative that matches people with skill (teachers of subjects) with people who needed help with subjects
- By mid-2018 we had over 20 people involved with regular classes

### **Amnesty International (2016- Present)**

#### Responsibilities

- Part of the Event Design Stream and helped to create engaging multi-cultural day activities

#### Achievements

- Helped raise over \$1000 in the multicultural day to donate towards Freedom House
- Over 400 students engaged in our activities

## **WORK EXPERIENCE**

### **December 2017-February 2018**

#### **Tech Century Pty Ltd (Paid)**

#### PC Assembler

#### Responsibilities included:

- > Assembling components into PC
- > Testing assembled and returned PC's
- > Picking and Packing goods for sending
- > Reporting to manager

### **Family Markets and Trade Fairs (2014 – Present)**

- > Looked after family fashion jewellery market stall (weekly) and trade fair exhibition, often by myself
- > Responsible for much of setup, pack up and handling sales with customers

### ► Important Information

- **Changes to family assistance**

There are changes that affect family assistance payments. For more information about the changes and how they affect you, please go to **humanservices.gov.au** and search for 'families changes'.

**Please read the back of this letter**

If you have any questions about this letter please call:

**136 150**

Monday to Friday, 8.00 am — 8.00 pm

OR

**131 202** for Multilingual Services

Monday to Friday, 8.00 am — 5.00 pm

(Please quote reference number **207 205 269C**)

Visit one of our Service Centres.

**Note:** Local business hours of operation may apply.

**Your reference number is 207 205 269C**

### **Your child's immunisation requirements**

A fortnightly reduction of up to \$28.84 per fortnight is applied to the rate of Family Tax Benefit Part A for children that do not meet the immunisation requirements.

For financial years before 2018-2019, immunisation requirements must be met to be eligible for the Family Tax Benefit Part A supplement.

We will check if a child meets the immunisation requirements using the details held on the Australian Immunisation Register.

For more information about immunisation requirements including how to check your child's status and links to the Australian Immunisation Register, please go to **[humanservices.gov.au/immunisation](http://humanservices.gov.au/immunisation)**

### **When to contact us**

Under family assistance law, you must tell us about events that may affect your payments as soon as possible after any of these things happen or you become aware that they are likely to happen.

### **About your family's income**

You need to tell us about any changes to your and/or your partner's income as soon as possible. This is important because your and/or your partner's income will be checked with the Australian Taxation Office at the end of each financial year to make sure you have been paid the right amount.

Your Family Tax Benefit may be automatically adjusted when your income changes, helping to avoid or reduce overpayments.

The income details you must tell us about include changes to your or your partner's:

- taxable income including income from salary and wages, lump sum payments, business or self employment, investments and real estate, taxable government pensions and benefits and other taxable income
- reportable fringe benefits
- reportable superannuation contributions
- total net investment losses
- tax free government pensions and benefits
- foreign income
- child support you pay
- tax exempt foreign income.

**Important Note:** if your salary or wage is paid weekly or fortnightly, the number of individual paydays in a financial year can vary. You need to know this when you estimate your income to avoid being overpaid and should check with your employer if you are unsure.

If you receive **Family Tax Benefit Part B** and you are a member of a couple, you must tell us if the primary earner's annual income goes over \$100,000.00 or the lower earner's annual income changes. This includes any income support payments such as Parenting Payment Partnered or Newstart Allowance.

There are different notification requirements for income support payments. If you or your partner receive an income support payment and you have a change in income, you will need to update your income details for that payment too.

If you are a sole parent and your income is \$100,000.00 or less, you will automatically be paid at the full rate of **Family Tax Benefit Part B**. If your income is more than this amount, you will not receive any **Family Tax Benefit Part B**.

### **Your payments may stop**

If you receive Family Tax Benefit fortnightly your payments will be stopped if you and/or your partner:

- do not lodge your tax return/s or advise us that you are not required to, and
- have an outstanding non-lodger debt as a result.

This will apply to any tax returns you and/or your partner have not lodged for financial years during which you received Family Tax Benefit. If you have repaid outstanding non-lodger debts for these particular financial years your payments will not be affected.

Should you and/or your partner receive further non-lodger debts, your family assistance payments may be stopped. You and/or your partner will not be eligible for family assistance payments until these debts have been repaid or the outstanding tax returns are lodged with the Australian Taxation Office.

If you underestimate your income, you may have been paid too much, and you will be asked to repay excess amounts after the end of the financial year. If you underestimate your income for two consecutive financial years and have no entitlement when your payments are balanced, you will no longer be able to receive Family Tax Benefit as fortnightly instalments.

### **You must also tell us if you:**

- start to receive child support or the amount of child support that you receive changes
- cannot collect the full amount of child support that you are entitled to receive - you should also call us on 131 272 to discuss your collection options
- become or stop being an Australian resident
- leave Australia, even for a short time or return to Australia
- become partnered, separate from your partner or your partner passes away. For more information, go to **[humanservices.gov.au/moc](http://humanservices.gov.au/moc)**
- stop paying rent or the amount you pay changes
- move into Government housing
- change address
- change the account your payment is sent to
- have a dependent child aged 16 years of age or over who stops full-time secondary study
- start to share the care of any of your children with another adult
- or your partner returns to work after having a baby or caring for a child, as you may be entitled to the maximum rate of Family Tax Benefit Part B for the period of the current financial year before returning to work.

### **You must tell us if a child for whom you are receiving Family Tax Benefit:**

- stops living with you, can no longer be considered your dependant or passes away
- is planning to leave Australia (tell us as soon as you know)
- returns to Australia
- becomes or stops being an Australian resident
- is not an Australian resident and no longer lives with you
- receives an income support payment or a Prescribed

- Educational Scheme payment such as ABSTUDY stops full-time secondary study and is 16 years of age or over, or
- is prevented from being in your care without your consent.

You must also tell us if the level of shared care you provide for this child changes.

### Family Tax Benefit child over 16 years of age

A young person **16 years of age and over** is a dependant if they are in your care at least 35 per cent of the time, does not receive an income support payment and is:

- **for Family Tax Benefit Part A;** studying full-time towards a Year 12 or equivalent qualification up until the end of the calendar year in which they turn 19 years of age.
- **for Family Tax Benefit Part B if you are a single parent or grandparent carer;** in full-time secondary study up until the end of the calendar year in which they turn 18 years of age.

### What to do if you think this decision is wrong

#### If you do not agree with a decision we have made

- Contact us so we can check the details and explain the decision.
- Contact us and ask for a review of the decision. We will change it if it is wrong.
- Contact the Administrative Appeals Tribunal (AAT) if you do not agree with the review officer's decision.
- If you do not agree with the decision of the AAT you may be able to appeal further. For more information about the AAT, please go to [aat.gov.au](http://aat.gov.au)

All of the above are free of charge.

If you do not agree with a decision we have made, contact us as soon as possible. It is important to ask for a review **within 52 weeks** of being notified about the decision. If your request for a review is more than 52 weeks after being notified and the decision can be changed, you may only receive your entitlement from the date you requested the review.

There is no time limit for a review of a decision about money you owe us. However you may have to pay back the money while the decision is being reviewed.

### Privacy and your personal information

Your personal information is protected by law (including the *Privacy Act 1988*) and is collected by the Australian Government Department of Human Services for the assessment and administration of payments and services. This information is required to process your application or claim.

Your information may be used by the department, or given to other parties where you have agreed to that, or where it is required or authorised by law (including for the purposes of research or conducting investigations).

You can get more information about the way in which the department will manage your personal information, including our privacy policy at [humanservices.gov.au/privacy](http://humanservices.gov.au/privacy)

### To make a complaint or give us feedback

We aim to resolve your concerns as quickly as possible. If you want to make a complaint or give us feedback you can:

- call our feedback and complaints line on **1800 132 468**
- go to [humanservices.gov.au/feedback](http://humanservices.gov.au/feedback) for other options.

If we are not able to resolve your complaint to your satisfaction, you can contact the Commonwealth Ombudsman by going to their website [ombudsman.gov.au](http://ombudsman.gov.au) or calling them on **1300 362 072**.

### Data matching

Information provided by you to us may be used for data matching with other government agencies to detect and prevent incorrect payments and fraud.

## James Ruse Agricultural High School

James Ruse Agricultural High School is a selective public school that strives for academic, physical, social and emotional well-being of students. The school offers differentiated curricula with a wide range of enrichment, extension and extra curricular programs for gifted and profoundly gifted students. Each course report contains an academic as well as a personal profile of the student outlining academic achievement, socio-emotional development and commitment to learning.

# Year 11 Report Semester 1 2018

**Student:** Bob Chen

**Roll Class:** 11A

### Attendance record

Explained absences: 0

Unexplained absences: 0

Partial unexplained: 0

### Reports for the following subjects are included:

English Advanced

English Extension 1

Mathematics

Mathematics Extension 1

Chemistry

Physics

Economics

### Focus Outcome Achievement Levels

#### Outstanding

Student has an extensive knowledge and understanding of the content and can readily apply this knowledge. Student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.

#### Highly developed

Student has thorough knowledge and understanding of the content and a high level of competence in the processes and skills and can apply these skills to most situations.

#### Developing

Student has adequate knowledge and understanding of the main areas of content. Student demonstrates progress towards the required standard.

#### Basic

Student has basic knowledge and understanding of content and has achieved a basic level of competence in the processes and skills.

#### Experiencing Difficulty

Student has elementary knowledge and understanding of content and has achieved very little competence in some of the processes and skills.

### School Participation and Representation

Competitions

Amnesty International

Zone Cross Country

### Year Adviser's comment:

Bob's semester one report is very pleasing. He has demonstrated a dedication to his studies which has been rewarded with some excellent results. Bob's report also reveals his strength in planning, preparing and researching assignments. He has also been commended for participating in extracurricular school activities. He is to be very proud of his efforts this semester.

  
Sandra Fernandez  
Year Adviser

  
Megan Connors  
Principal

# English Advanced

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11EN1**

Teacher: **Ms A Korch**

## Context

In the Common Module - Reading to Write, students develop the skills and knowledge to appreciate, understand, analyse and evaluate texts. Students study and reflect on a variety of texts relating to the dynamic nature of the relationships between people and places.

## Student Achievement

The average mark for the 155 students in this course is 23.

Bob achieved a task mark of 30 out of 30 and an overall grade of A.

Percentage of the cohort awarded each grade:

| E | D | C | B  | A  |
|---|---|---|----|----|
| 0 | 1 | 5 | 48 | 46 |

## Focus Outcomes

**Performance Scale:**

E = Experiencing Difficulty; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                             | E | D | C | B | A |
|------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Responds to, composes and evaluates complex texts for understanding, interpretation, critical analysis, imagination and pleasure.                    |   |   |   |   | ✓ |
| Thinks imaginatively, creatively, and critically to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments. |   |   |   |   | ✓ |
| Reflects on, evaluates and monitors own learning and adjusts individual and collaborative processes to develop as an independent learner.            |   |   |   |   | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a polite and hardworking student who has achieved an outstanding result in English Advanced this semester. He often makes perceptive contributions to class discussion, works well both collaboratively and independently, and is overall a pleasure to teach. He has shown an impressive ability to listen and respond to feedback, which has been reflected in his original and highly engaging creative narrative. In his Reading to Write assessment, he created authentic characters and skilfully employed setting to explore the dynamic relationship between people and place.

# English Extension 1

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11X1ENF**

Teacher: **Ms J Bowie**

## Context

Students explore the ways in which aspects and concerns of texts from the past have been carried forward, borrowed from and/or appropriated into more recent culture. This module develops students' understanding of how and why cultural values are maintained and changed.

## Student Achievement

The average mark for the 112 students in this course is 13.

Bob achieved a task mark of 12 out of 15 and an overall grade of B.

Percentage of the cohort awarded each grade:

| E | D | C | B  | A  |
|---|---|---|----|----|
| 1 | 0 | 0 | 43 | 56 |

## Focus Outcomes

**Performance Scale:**

E = Experiencing Difficulty; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                                                    | E | D | C | B | A |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates and applies considered understanding of the dynamic relationship between text, purpose, audience and context, across a range of modes, media and technologies. |   |   |   | ✓ |   |
| Develops skills in research methodology to undertake independent investigation.                                                                                             |   |   |   | ✓ |   |
| Articulates understanding of how and why texts are echoed, appropriated and valued in a range of contexts.                                                                  |   |   |   | ✓ |   |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a talented and mature student who is to be commended on his strong work ethic and dedication to his studies. He is achieving well in Extension English, although his recent assessment mark was disappointing. Bob demonstrates insightful understanding of the complexities of literature which he articulates well in class discussions. More rigorous drafting and editing of his work would assist Bob to always perform at his best.

# Mathematics

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11MT3**

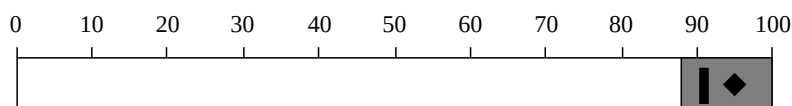

Teacher: **Mr S Guest**

## Context

Students develop knowledge and skills in: Algebra; Absolute value; Graphs & Locus and Quadratic Polynomials; Coordinate Geometry and Plane Geometry proofs; Trigonometry (in degrees) and its applications; Limits; First principles; and the basic rules of Differentiation in Calculus.

## Student Achievement

The top 80% of the 155 students in this course have marks ranging from 88 to 100.

Bob achieved a scaled assessment mark of 95 and is placed 33 in the course.

◆ Assessment result      ■ Course average      ■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                                                                                          | ED | B | D | HD | O |
|---------------------------------------------------------------------------------------------------------------------------------------------------|----|---|---|----|---|
| Chooses and applies appropriate arithmetic and algebraic techniques.                                                                              |    |   |   |    | ✓ |
| Chooses and applies appropriate trigonometrical techniques.                                                                                       |    |   |   | ✓  |   |
| Chooses and applies appropriate geometric techniques.                                                                                             |    |   |   | ✓  |   |
| Understands the concept of a function and the relationship between a function and its graph.                                                      |    |   |   |    | ✓ |
| Chooses and applies appropriate coordinate geometry techniques.                                                                                   |    |   |   |    | ✓ |
| Understands and uses the language and notation of Mathematics and provides reasoning to support conclusions which are appropriate to the context. |    |   |   |    | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob has made an excellent start to his senior studies. He possesses a natural ability for Mathematics, evidenced in both his formal assessment performance and class participation. Bob acquires and synthesises concepts readily, and will often ask questions that indicate that he is extending those concepts internally. He is diligent in all his undertakings, extremely respectful and completes all that is asked of him. At this point, I encourage Bob to continue to revise all course theorems, focusing as much attention on theory as well as practice.

# Mathematics Extension 1

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11X1MT3**

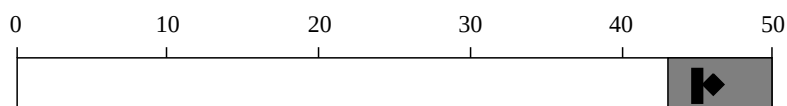

Teacher: **Mr S Guest**

## Context

Students further develop knowledge and skills in: Algebra, Absolute value, Graphs, Logarithms, and Quadratic Polynomials; Coordinate geometry and Plane Geometry proofs; Trigonometry, Trig. Expansions (compound angles), Identities and Equations, and Radian measure; Limits, Differentiation and Rules of Differentiation; Geometrical applications to Differentiation, Curve sketching of Polynomials and Rational polynomials.

## Student Achievement

The top 80% of the 154 students in this course have marks ranging from 43 to 50.

Bob achieved a scaled assessment mark of 46 and is placed 75 in the course.

◆ Assessment result

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                                                                       | ED | B | D | HD | O |
|--------------------------------------------------------------------------------------------------------------------------------|----|---|---|----|---|
| Understands and is able to apply the concepts of limits and the rules of differentiation.                                      |    |   |   |    | ✓ |
| Solves problems involving three dimensional trigonometry and trigonometry equations.                                           |    |   |   |    | ✓ |
| Solves problems involving circle geometry.                                                                                     |    |   | ✓ |    |   |
| Solves problems involving polynomials.                                                                                         |    |   | ✓ |    |   |
| Chooses and applies appropriate techniques to the study of the solving of more challenging problems in the Mathematics course. |    |   | ✓ |    |   |
| Makes comprehensive use of mathematical language, diagrams and notation for communicating in a wide variety of situations.     |    |   |   |    | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob's performance in the Extension 1 course has been excellent thus far. Further to the comments made for Mathematics, Bob should seek to focus some additional study in the areas of circle geometry and polynomials. Also, if he commits himself to a plan of consistent revision of theorems, their proofs as well as their practice, and applies these ideas to harder question types, Bob has every chance of being one of the top-performers in the subject. I have every confidence that Bob will take these comments on board, and do whatever is necessary to ensure his success.

# Chemistry

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11CHD**

Teacher: **Ms M Jayanthi**

## Context

Students develop their knowledge and understanding about the fundamentals of chemistry through the study of the modules 'Properties and structure of matter' and 'Introduction to Quantitative Chemistry'. Students have a conceptual understanding of the models and theories associated with motion and the effect of forces on objects.

## Student Achievement

Bob achieved an overall grade of A.

Percentage of the class awarded each grade:

| E | D | C | B  | A  |
|---|---|---|----|----|
| 0 | 0 | 0 | 12 | 88 |

## Focus Outcomes

**Performance Scale:**

E = Experiencing Difficulty; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                                              | E | D | C | B | A |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates detailed knowledge of complex scientific concepts involving the trends and patterns while developing their understanding of chemistry to solve problems. |   |   |   | ✓ |   |
| Demonstrates the scientific skills needed to successfully plan and conduct investigations, including in the area of a Depth Study.                                    |   |   |   | ✓ |   |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is an attentive and talented student who consistently attains sound results in Chemistry. He has a very good understanding of the concepts encountered in The Properties and Structure of Matter and he is developing strength in the manipulation of calculations in quantitative chemistry. Bob's Depth Study on water analysis was well researched and showed his true potential.

# Physics

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11PHYD**

Teacher: **Mrs S Pooviah**

## Context

Students develop their knowledge and understanding about the nature, laws and practice of Physics through the study of the modules 'Kinematics' and 'Dynamics'. Students have a conceptual understanding of the models and theories associated with motion and the effect of forces on objects.

## Student Achievement

Bob achieved an overall grade of A.

Percentage of the class awarded each grade:

| E | D | C | B  | A  |
|---|---|---|----|----|
| 0 | 0 | 4 | 17 | 79 |

## Focus Outcomes

**Performance Scale:**

E = Experiencing Difficulty; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                           | E | D | C | B | A |
|------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates detailed knowledge of complex scientific concepts involving the laws of motion and forces.                            |   |   |   |   | ✓ |
| Demonstrates the scientific skills needed to successfully plan and conduct investigations, including in the area of a Depth Study. |   |   |   |   | ✓ |

| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob has demonstrated an extensive understanding of concepts encountered in Physics and has consistently exceeded expectations. Bob is highly accomplished at analysing data and communicates with depth and insight using a variety of scientific formats. He is inquisitive, listens attentively and is an active learner at all times. Bob conducts himself with maturity and always works to his full potential. His most recent Depth Study inquiry questions are extraordinary and a true reflection of Bob's exceptional organisational skills and maturity in dealing with his studies. He is a highly gifted Physics student and a true pleasure to teach.

# Economics

Student: **Bob Chen**

Reporting Period: **Semester 1 2018**

Class: **11ECOC**

Teacher: **Mr T Flood**

## Context

In the first introductory topic students learn about key features and concepts of Economics. Students then investigate the roles of consumers and businesses in an economy.

## Student Achievement

The average mark for the 58 students in this course is 25.

Bob achieved a task mark of 28 out of 30 and an overall grade of A.

Percentage of the cohort awarded each grade:

| E | D | C  | B  | A  |
|---|---|----|----|----|
| 0 | 0 | 21 | 40 | 39 |

## Focus Outcomes

**Performance Scale:**

E = Experiencing Difficulty; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                       | E | D | C | B | A |
|--------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates deep understanding of economic terms, concepts and relationships. |   |   |   |   | ✓ |
| Explains the role of individuals, firms and government in an economy.          |   |   |   |   | ✓ |

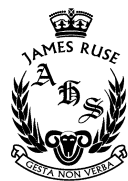

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

This is an excellent result for a hard-working student. Bob has shown that he has an extremely high understanding of Economics. He has achieved at the highest level of the course and should be very proud of his efforts.

## James Ruse Agricultural High School

James Ruse Agricultural High School is a selective public school that strives for academic, physical, social and emotional well-being of students. The school offers differentiated curricula with a wide range of enrichment, extension and extra curricular programs for gifted and profoundly gifted students. Each course report contains an academic as well as a personal profile of the student outlining academic achievement, socio-emotional development and commitment to learning.

# Year 11 Report Semester 2 2018

**Student:** Bob Chen

**Roll Class:** 11A

### Attendance Record

Explained absences: 0

Unexplained absences: 0

Partial unexplained: 0

### Reports for the following subjects are included:

English Advanced

English Extension 1

Mathematics

Mathematics Extension 1

Chemistry

Physics

Economics

### Focus Outcome Achievement Levels

#### **Outstanding**

Student has an extensive knowledge and understanding of the content and can readily apply this knowledge. Student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.

#### **Highly developed**

Student has thorough knowledge and understanding of the content and a high level of competence in the processes and skills and can apply these skills to most situations.

#### **Developing**

Student has adequate knowledge and understanding of the main areas of content. Student demonstrates progress towards the required standard.

#### **Basic**

Student has basic knowledge and understanding of content and has achieved a basic level of competence in the processes and skills.

#### **Experiencing Difficulty**

Student has elementary knowledge and understanding of content and has achieved very little competence in some of the processes and skills.

### School Participation and Representation

Competitions

Informatics

Amnesty International

Programming Club

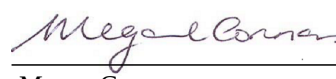

Zero Robotics

Peer Tutor

### Year Adviser's comment:

Bob is to be congratulated on a very fine report. He is working very well across all his subject areas and he is obtaining results to match. Bob takes a very positive interest in many extracurricular activities and is a very valuable member of the school community.

  
Sandra Fernandez  
Year Adviser

  
Megan Connors  
Principal

# English Advanced

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11EN1**

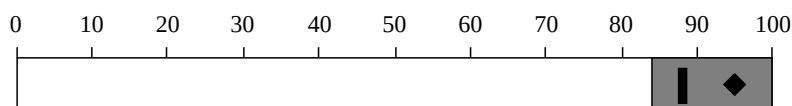

Teacher: **Ms A Korch**

## Context

Year 11 study Module A: Narratives that Shape our World where students learn that point of view is central to narrative. In examining the processes of characterisation and point of view, students evaluate how narratives shape texts and influence responses. Students develop a multimodal presentation to present their understanding of Tragic downfalls in literature. In Module B: The Critical Study of Texts, students develop analytical and critical knowledge and in their Yearly Examination, students write an analytical response about the distinctive qualities of their text.

## Student Achievement

The top 80% of the 153 students in this course have marks ranging from 84 to 100.

Bob achieved a scaled assessment mark of 95 and is placed 17 in the course.

◆ Assessment result      ■ Course average      ■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                                                                                                                             | ED | B | D | HD | O |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|---|---|----|---|
| Uses and evaluates processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies.                                  |    |   |   |    | ✓ |
| Thinks imaginatively, creatively, interpretively and critically to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments.                  |    |   |   |    | ✓ |
| Analyses and uses language forms, features and structures of texts considering appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning. |    |   |   | ✓  |   |
| Explains and evaluates cultural assumptions and values in texts and their effects on meaning.                                                                                        |    |   |   |    | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is an extremely diligent student who is to be commended on both his outstanding work ethic and pleasing results. His multimodal presentation on the Tragic Hero was highly engaging and creative, demonstrating a sophisticated understanding of both texts. To further improve his writing skills, Bob needs to analyse how language shapes meaning in more detail and include more specific and factual contextual evidence to support his arguments.

# English Extension 1

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11X1ENF**

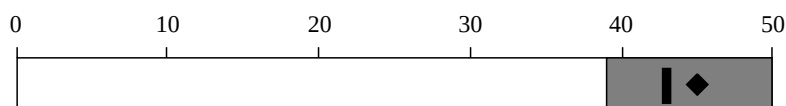

Teacher: **Ms J Bowie**

## Context

Students explore the ways in which aspects and concerns of texts from the past have been appropriated into more recent culture. Through their study of Reactionary Texts, students develop their understanding of how and why cultural values are maintained and changed. Students examine a key text from the past and its manifestations and present a multimodal presentation with a creative appropriation. Students also complete a creative composition. Finally, students complete a critical response for the Yearly Examination.

## Student Achievement

The top 80% of the 110 students in this course have marks ranging from 39 to 50.

Bob achieved a scaled assessment mark of 45 and is placed 30 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                                                                                                                      | ED | B | D | HD | O |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|---|---|----|---|
| Demonstrates and applies considered understanding of the dynamic relationship between text, purpose, audience and context, across a range of modes, media and technologies.   |    |   |   |    | ✓ |
| Articulates understanding of how and why texts are echoed, appropriated and valued in a range of contexts.                                                                    |    |   |   | ✓  |   |
| Thinks deeply, broadly and flexibly in imaginative, creative, interpretive and critical ways to respond to, compose and explore the relationship between sophisticated texts. |    |   |   |    | ✓ |
| Reflects on and assesses the development of independent learning gained through the processes of research, writing and creativity.                                            |    |   |   |    | ✓ |

| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a talented and well motivated student who demonstrates perceptive insight into texts and concepts. He is to be commended on his strong work ethic and increasing success in Extension English. With his mature outlook, respectful courtesy and friendly sense of humour, Bob has been an absolute pleasure to teach and I wish him every success in his future studies.

# Mathematics

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11MT3**

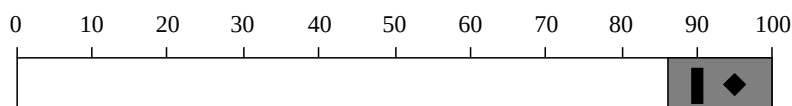

Teacher: **Mr S Guest**

## Context

The Mathematics Course in Semester 2 develops the body of knowledge and skills in: Algebra; Absolute value; Logarithms, Graphs, Locus and Quadratic Polynomials; Coordinate Geometry and Plane Geometry proofs; Trigonometry and its applications; Limits, First principles and the rules of Differentiation in Calculus; Geometrical applications to Differentiation.

## Student Achievement

The top 80% of the 154 students in this course have marks ranging from 86 to 100.

Bob achieved a scaled assessment mark of 95 and is placed 35 in the course.

◆ Assessment result      ■ Course average      ■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

## Teacher's Comment

Bob has performed exceptionally well this year to finish Preliminary Mathematics in fine form. Bob has demonstrated an excellent understanding of all course concepts and is to be thoroughly commended on his diligence and effort.

# Mathematics Extension 1

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11X1MT3**

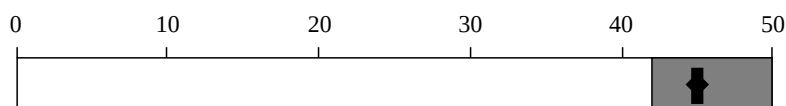

Teacher: **Mr S Guest**

## Context

The Mathematics Extension 1 Course further develops the students' body of knowledge and skills in: Algebra; Absolute value; Logarithms, further Graphs & Polynomials; Counting techniques involving Permutations & Combinations; Coordinate geometry, Plane & Circle geometry proofs; Trigonometry; Identities, 3D trigonometry, Equations, Radian measure & compound angle expansions, Locus and the Parametrics of the Parabola; Limits & the rules of Differentiation; Geometrical applications to Differentiation: Curve sketching and Max-Min applications.

## Student Achievement

The top 80% of the 151 students in this course have marks ranging from 42 to 50.

Bob achieved a scaled assessment mark of 45 and is placed 74 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                                                    | ED | B | D | HD | O |
|-------------------------------------------------------------------------------------------------------------|----|---|---|----|---|
| Solves problems involving permutations and combinations.                                                    |    |   |   | ✓  |   |
| Solves problems involving circle geometry.                                                                  |    |   |   | ✓  |   |
| Solves problems involving inequalities and polynomials.                                                     |    |   |   |    | ✓ |
| Uses parametric representation together with differentiation to identify geometric properties of parabolas. |    |   |   |    | ✓ |
| Solves problems involving three dimensional trigonometry, trigonometry identities and equations.            |    |   |   |    | ✓ |
| Applies appropriate techniques to the study of harder problems in the Mathematics course.                   |    |   | ✓ |    |   |

## Personal Profile

|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob has demonstrated a clear ability to cope with the more abstract components of this subject. He is a diligent student, and is to be commended on his performance in the Preliminary Extension 1 course. I have every confidence that Bob will progress well into Extension 2.

# Chemistry

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11CHD**

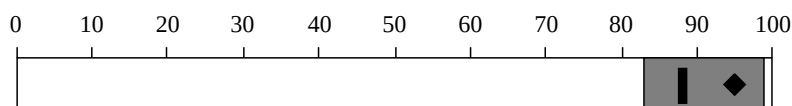

Teacher: **Ms M Jayanthi**

## Context

Students develop their knowledge and understanding of the fundamentals of chemistry through the study of the modules: Properties and structure of matter, Introduction to Quantitative Chemistry, Reactive Chemistry, and Drivers of Reactions. Students develop a conceptual understanding of the models and theories associated with the qualitative and quantitative nature of chemistry.

## Student Achievement

The top 80% of the 138 students in this course have marks ranging from 83 to 99.

Bob achieved a scaled assessment mark of 95 and is placed 13 in the course.

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                                                                                                                                              | ED | B | D | HD | O |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|---|---|----|---|
| Demonstrates detailed knowledge of complex scientific concepts involving the trends and patterns while developing their understanding of chemistry to solve problems.                                 |    |   |   |    | ✓ |
| Communicates using correct scientific terminology and appropriate scientific formats.                                                                                                                 |    |   |   |    | ✓ |
| Processes and analyses data and information gathered from first-hand investigations.                                                                                                                  |    |   |   |    | ✓ |
| Demonstrates the scientific skills needed to successfully conduct a practical investigation through a Depth Study relating to a stimulus question and creates a report to communicate their findings. |    |   |   |    | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a cheerful and dependable student who consistently achieves outstanding results in all types of class activities and assessment tasks. In addition to being a perceptive student, Bob frequently contributes constructive comments to class discussions and assists fellow students with their learning. Bob has a sound work ethic and a high level of self-directed learning.

# Physics

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11PHYD**

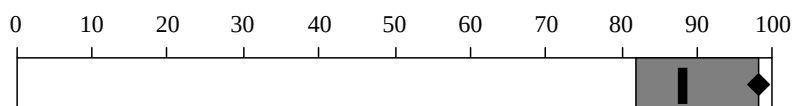

Teacher: **Mrs S Pooviah, Ms M Bedwany**

## Context

Students develop their knowledge and understanding of the nature, laws and practice of Physics through the study of the modules: Kinematics, Dynamics, Waves and Thermodynamics, and Electricity and Magnetism. Students develop a conceptual understanding of the models and theories associated with motion, the effect of forces on objects and the transfer of energy.

## Student Achievement

The top 80% of the 109 students in this course have marks ranging from 82 to 98.

Bob achieved a scaled assessment mark of 98 and is placed 1 in the course.

◆ Assessment result      ■ Course average      ■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

## Teacher's Comment

Bob is a brilliant and outstanding student who deserves to be congratulated for this amazing achievement. He has developed into a perceptive and very resourceful student who has excelled in a variety of learning tasks. Bob's knowledge and understanding of the complex concepts studied are revealed in his exemplary answers. An original thinker, Bob connects classroom learning to the outside world by questioning and challenging ideas as evident in his winning Depth Study in the NSW Young Scientist Competition. His humility and good nature make him an excellent role model for his peers. He has been an absolute pleasure to teach.

# Economics

Student: **Bob Chen**

Reporting Period: **Semester 2 2018**

Class: **11ECOC**

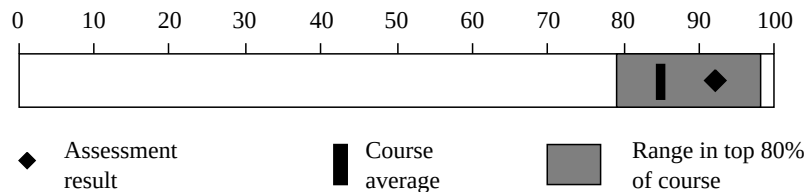

Teacher: **Mr T Flood**

## Context

Students study the function and operation of Labour and Financial Markets. They also learn about the role of government in the Australian economy.

## Student Achievement

The top 80% of the 56 students in this course have marks ranging from 79 to 98.

Bob achieved a scaled assessment mark of 92 and is placed 8 in the course.

## Focus Outcomes

**Performance Scale:** ED = Experiencing Difficulty; B = Basic; D = Developing; HD = Highly Developed; O = Outstanding

| Outcomes                                                                       | ED | B | D | HD | O |
|--------------------------------------------------------------------------------|----|---|---|----|---|
| Demonstrates deep understanding of economic terms, concepts and relationships. |    |   |   |    | ✓ |
| Describes, explains and evaluates the role and operation of markets.           |    |   |   |    | ✓ |
| Explains the role of the Australian government in the economy.                 |    |   | ✓ |    |   |
| Applies mathematical concepts in complex economic contexts.                    |    |   |   |    | ✓ |

## Personal Profile

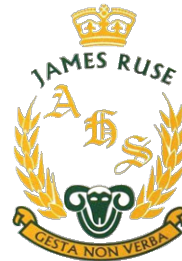

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a very diligent, hard-working student. He completes all his work on time and to a very high standard. Bob has included excellent knowledge in his answers but needs to ensure that he always addresses the question that has been asked. He needs to practise extended response style questions if he is to improve further.

# James Ruse Agricultural High School

James Ruse Agricultural High School is a selective public school that strives for academic, physical, social and emotional well-being of students. The school offers differentiated curricula with a wide range of enrichment, extension and extra curricular programs for gifted and profoundly gifted students. Each course report contains an academic as well as a personal profile of the student outlining academic achievement, socio-emotional development and commitment to learning.

## Year 12 Report Semester 1 2019

**Student:** Bob Chen

**Roll Class:** 12A

### Attendance Record:

Explained absences: 0

Unexplained absences: 0

Partial unexplained: 0

### Reports for the following subjects are included:

English Advanced

Mathematics Extension 1

Mathematics Extension 2

Chemistry

Physics

Economics

### Focus Outcome Achievement Levels

#### **Outstanding (A)**

Student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.

#### **High (B)**

Student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply these skills to most situations.

#### **Sound (C)**

Student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.

#### **Basic (D)**

Student has a basic knowledge and understanding of content and has achieved a basic level of competence in the processes and skills.

#### **Limited (E)**

Student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

### School Participation and Representation:

Informatics

Zero Robotics

Amnesty International

Programming Club

Zone Carnival

### Attendance at Carnivals:

Swimming:

Athletics:

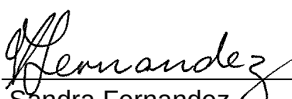

Cross Country:

### Year Adviser's comment:

Bob is to be congratulated on a very fine report. He is working very well across all his subject areas and he is obtaining results to match. Bob takes a very positive interest in many extracurricular activities and is a very valuable member of the school community.

  
Sandra Fernandez  
Year Adviser

  
Rachel Powell  
Principal

# English Advanced

Student: **Bob Chen**

Reporting Period: **Semester 1 2019**

Class: **12EN1**

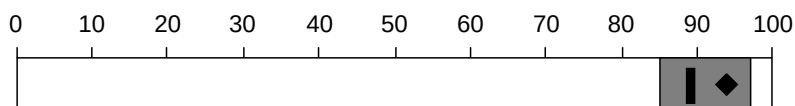

Teacher: **Ms A Korch**

## Context

Students study The Common Module: Texts and Human Experiences where they learn about how texts represent individual and collective human experiences. They examine how different modes and media use visual, verbal and/or digital language elements. In Module A: Textual Conversations, students explore the way in which the comparative study of texts reveals resonances and dissonances between and within texts. Students present a multimodal presentation which considers the ways that reimagining an aspect of a text might mirror, align or collide with the details of another.

## Student Achievement

The top 80% of the 153 students in this course have marks ranging from 85 to 97.

Bob achieved a scaled assessment mark of 94 and is placed 26 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                                                          | E | D | C | B | A |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure.             |   |   |   |   | ✓ |
| Strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts.                                     |   |   |   |   | ✓ |
| Thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments. |   |   |   |   | ✓ |
| Investigates and evaluates the relationships between texts.                                                                                                                       |   |   |   |   | ✓ |
| Explains and evaluates the nuanced cultural assumptions and values in texts and their effect on meaning.                                                                          |   |   |   |   | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a diligent and outgoing student who has achieved some excellent results in the English Advanced course this year. Bob delivered a passionate and persuasive multimodal presentation on Textual Conversations, in which he made insightful links between the two texts set for study. He demonstrated a sophisticated understanding of the texts he has studied in his analytical essay on Texts and Human Experiences, but he must aim to address the given question in exam conditions through explicit reference; he should practise by responding to unseen questions under exam conditions.

# Mathematics Extension 1

Student: **Bob Chen**

Reporting Period: **Semester 1 2019**

Class: **12X1MT3**

Teacher: **Mrs T Chew**

## Context

Students further develop knowledge and skills in: sequences and series and their applications; proof by mathematical induction; the logarithmic and exponential functions; calculus of the trigonometric function and trigonometrical equations; related rates of change and the binomial theorem.

## Student Achievement

The average mark for the 148 students in this course is 90%.

Bob achieved a scaled assessment mark of 90 out of 100 and is placed 83 in the course.

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                                                                                                            | E | D | C | B | A |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Uses inductive reasoning in the construction of proofs.                                                                                                                                                                             |   |   |   | ✓ |   |
| Uses a variety of strategies to investigate mathematical models of situations involving binomials.                                                                                                                                  |   |   |   | ✓ |   |
| Uses the relationship between functions, inverse trigonometric functions and their derivatives.                                                                                                                                     |   |   |   |   | ✓ |
| Evaluates mathematical solutions to more challenging problems from the 2 unit course, involving algebra, logarithmic and exponential functions, sequence and series, and integration, and communicates them in an appropriate form. |   |   |   |   | ✓ |
| Communicates using mathematical language, notation, diagrams and graphs. Constructs arguments to prove and justify results.                                                                                                         |   |   |   | ✓ |   |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a talented Mathematics student who is always engaged during lessons. He willingly shares his insight into challenging problems, both in small group and whole class discussions. Bob's Extension 1 result could be improved with a review of reasoning in circle geometry problems. Further practice in solving harder problems involving conic sections would be of benefit in future Extension 2 exams. Continued enthusiasm and effort should see Bob reach his full potential in his study of Mathematics this year.

# Chemistry

Student: **Bob Chen**

Reporting Period: **Semester 1 2019**

Class: **12CHA**

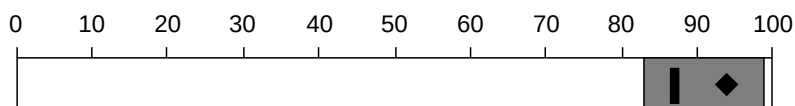

Teacher: **Ms K Jenns**

## Context

Through the study of Equilibrium and Acid Reactions, students develop an understanding of quantitative relationships between reactants and products within equilibrium systems. Students develop the conceptual foundation of the interaction between acids and bases in industry and the environment through the study of Acid/Base Reactions.

## Student Achievement

The top 80% of the 136 students in this course have marks ranging from 83 to 99.

Bob achieved a scaled assessment mark of 94 and is placed 23 in the course.

## Teacher's Comment

Bob is a fine student, gifted and motivated. His commitment to Chemistry is to be admired and his results are excellent. Bob has developed into a perceptive and resourceful student who has excelled in a variety of learning tasks. In class he is cooperative and dependable and engages in practical work with enthusiasm. Bob is to be praised for developing a sound work ethic and a high level of self-directed learning.

# Physics

Student: **Bob Chen**

Reporting Period: **Semester 1 2019**

Class: **12PHYD**

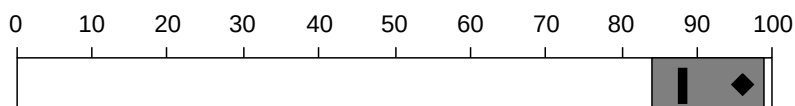

Teacher: **Mrs S Pooviah**

## Context

Through the study of Advanced Mechanics, students develop an understanding of complex motion by analysing the forces and energy transformations within systems. Students develop the conceptual foundation of the interaction between electric charges and magnetic fields through the study of Electromagnetism.

## Student Achievement

The top 80% of the 103 students in this course have marks ranging from 84 to 99.

Bob achieved a scaled assessment mark of 96 and is placed 6 in the course.

| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is an engaged and interested learner whose meticulous work ethic has produced this outstanding result. His knowledge and understanding of the complex physics concepts studied is revealed in his excellent responses. He displays initiative and asks thought provoking questions which regularly generate class discussion on often complex concepts. Bob is a genuine team member and a considerate mentor to his peers which has made him an absolute delight to teach.

# Economics

Student: **Bob Chen**

Reporting Period: **Semester 1 2019**

Class: **12ECO A**

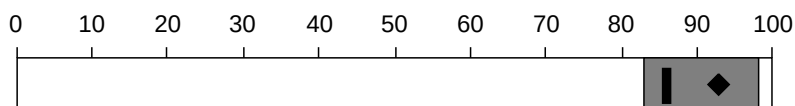

Teacher: **Mr T Flood**

## Context

Students study the topic 'The Global Economy' which examines the operation of the global economy and analyses the impact of globalisation on individual economies. Students then study 'Australia's Place in the Global Economy' in which they examine the effect of changes in the global economy on Australia.

## Student Achievement

The top 80% of the 32 students in this course have marks ranging from 83 to 98.

Bob achieved a scaled assessment mark of 93 and is placed 4 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                   | E | D | C | B | A |
|--------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates understanding of economic terms, concepts, and relationships.                 |   |   |   | ✓ |   |
| Analyses the impact of global markets on the Australian and global economies.              |   |   |   |   | ✓ |
| Selects and organises information from a variety of sources for relevance and reliability. |   |   |   |   | ✓ |
| Communicates economic information, ideas, and issues, in appropriate forms.                |   |   |   |   | ✓ |

## Personal Profile

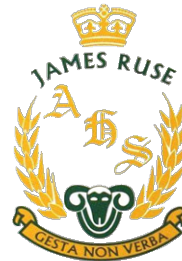

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a very hard working and committed student who is making impressive progress in Economics. He is a positive participant in all class discussions where he demonstrates a clear understanding of the course work. In order to improve further, Bob should practise past HSC questions and submit them for marking.

# James Ruse Agricultural High School

James Ruse Agricultural High School is a selective public school that strives for academic, physical, social and emotional well-being of students. The school offers differentiated curricula with a wide range of enrichment, extension and extra curricular programs for gifted and profoundly gifted students. Each course report contains an academic as well as a personal profile of the student outlining academic achievement, socio-emotional development and commitment to learning.

## Year 12 Report Semester 2 2019

**Student:** Bob Chen

**Roll Class:** 12A

### Attendance record

Explained absences: 0

Unexplained absences: 0

Partial unexplained: 0

### Reports for the following subjects are included:

English Advanced

Mathematics Extension 1

Mathematics Extension 2

Chemistry

Physics

Economics

### Focus Outcome Achievement Levels

#### **Outstanding (A)**

Student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.

#### **High (B)**

Student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply these skills to most situations.

#### **Sound (C)**

Student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.

#### **Basic (D)**

Student has a basic knowledge and understanding of content and has achieved a basic level of competence in the processes and skills.

#### **Limited (E)**

Student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

### School Participation and Representation:

Informatics

Zero Robotics

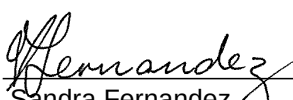

Amnesty International

Programming Club

Zone Carnival

### Year Adviser's comment:

Enthusiastic, motivated and talented, Bob has worked diligently to achieve excellent results this semester across a range of subjects. His commitment to the school and extra curricular activities over the years is much admired.

  
Sandra Fernandez  
Year Adviser

  
Rachel Powell  
Principal

# English Advanced

Student: **Bob Chen**

Reporting Period: **Semester 2 2019**

Class: **12EN1**

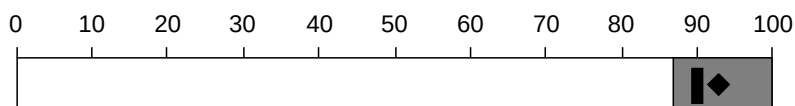

Teacher: **Ms A Korch**

## Context

Year 12 complete Trial HSC examinations. They respond to questions on the Common Module: Texts and Human Experiences. In paper 2, students respond to Module A: Textual Conversations and Module B the Critical Study of Text.

## Student Achievement

The top 80% of the 153 students in this course have marks ranging from 87 to 100.

Bob achieved a scaled trial examination mark of 93 and is placed 36 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                                                          | E | D | C | B | A |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts.                                     |   |   |   |   | ✓ |
| Thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments. |   |   |   |   | ✓ |
| Investigates and evaluates the relationships between texts.                                                                                                                       |   |   |   |   | ✓ |
| Explains and evaluates the nuanced cultural assumptions and values in texts and their effect on meaning.                                                                          |   |   |   |   | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is an attentive and polite student who has consistently impressed me with his dedication to English. His excellent result in his Common Module essay truly reflects his hard work and ability, as he incorporated sophisticated and insightful analysis that identified nuances in the text. He is a confident speaker who has delivered compelling and engaging persuasive presentations and often makes insightful contributions to class discussion. Bob has been a delight to teach and I wish him all the best in his future endeavours.

# Mathematics Extension 1

Student: **Bob Chen**

Reporting Period: **Semester 2 2019**

Class: **12X1MT3**

Teacher: **Mrs T Chew**

## Context

The Mathematics Extension 1 course further develops the students' body of knowledge and skills in: the calculus of exponential, logarithmic, inverse and trigonometrical functions; counting techniques and binomial probability; circle geometry; the physical world involving related rates of change; modified growth and decay; motion, SHM and projectile motion.

## Student Achievement

The average mark for the 145 students in this course is 93%.

Bob achieved a scaled trial examination mark of 92 out of 100 and is placed 86 in the course.

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                                      | E | D | C | B | A |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Applies appropriate techniques to solve more challenging problems involving related rates and content from the Preliminary and 2 unit courses.                |   |   |   | ✓ |   |
| Uses inductive reasoning in the construction of proofs and solves problems involving polynomials.                                                             |   |   |   | ✓ |   |
| Uses a variety of strategies to investigate mathematical models of situations involving binomials and probability.                                            |   |   |   |   | ✓ |
| Applies the chain rule to problems including those involving velocity and acceleration as functions of displacement and applies this to projectiles, and SHM. |   |   |   |   | ✓ |
| Uses the relationship between functions, inverse functions and their derivatives.                                                                             |   |   |   | ✓ |   |
| Evaluates mathematical solutions to problems and communicates them in an appropriate form.                                                                    |   |   |   |   | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

# Mathematics Extension 2

Student: **Bob Chen**

Reporting Period: **Semester 2 2019**

Class: **12X2MT3**

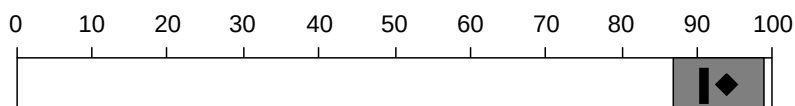

Teacher: **Mrs T Chew**

## Context

The Mathematics Extension 2 course further develops the students' body of knowledge and skills in: graphical transformations, complex numbers and polynomials; methods for integration and volumes; conic sections; mechanics involving resisted and circular motion; and harder Mathematics Ext 1 topics.

## Student Achievement

The top 80% of the 117 students in this course have marks ranging from 87 to 99.

Bob achieved a scaled trial examination mark of 94 and is placed 30 in the course.

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is to be commended for his outstanding commitment towards learning in Mathematics Extension 1 and Extension 2. This has culminated in his excellent results of which he should be very proud. Bob works very well in teams and displays leadership in facilitating discussion and learning within group activities. His intellectual curiosity and willingness to ask questions have made him an effective learner and I am confident he will continue this in his future endeavours.

# Chemistry

Student: **Bob Chen**

Reporting Period: **Semester 2 2019**

Class: **12CHA**

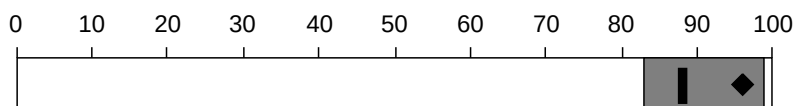

Teacher: **Ms K Jenns**

## Context

Through the study of Equilibrium and Acid Reactions, Acid/Base Reactions, Organic Chemistry, and Applying Chemical Ideas, students develop an understanding of quantitative relationships between reactants and products. Students investigate equilibrium systems, organic chemical reactions and the range of methods used to identify and measure quantities of chemicals using advanced analytical techniques.

## Student Achievement

The top 80% of the 133 students in this course have marks ranging from 83 to 99.

Bob achieved a scaled trial examination mark of 96 and is placed 6 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                                 | E | D | C | B | A |
|------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates knowledge of complex Chemistry concepts.                                                                                    |   |   |   |   | ✓ |
| Outlines the development of ideas and concepts in Chemistry and assesses the impact that these ideas have had on the process of science. |   |   |   |   | ✓ |
| Articulates using correct scientific terminology and appropriate scientific formats to communicate information and understanding.        |   |   |   |   | ✓ |
| Demonstrates Working Scientifically skills.                                                                                              |   |   |   |   | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a very conscientious student who has achieved an outstanding result in Chemistry. Throughout the course, Bob has approached each task with vigour and enthusiasm, presenting insightful responses to challenging questions and interpreting scientific data in a sophisticated manner. Bob is a highly capable learner and is to be commended for his superior work ethic.

# Physics

Student: **Bob Chen**

Reporting Period: **Semester 2 2019**

Class: **12PHYD**

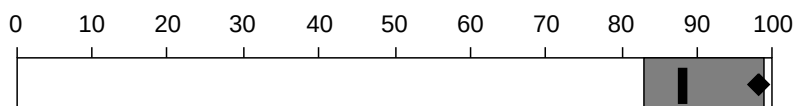

Teacher: **Mrs S Pooviah**

## Context

Through the study of Advanced Mechanics, Electromagnetism, The Nature of Light, and From the Universe to the Atom, students develop an understanding of complex motion by analysing the forces and energy transformations within systems. Students develop a conceptual foundation of the nature of light through the evidence gathered by scientists, while understanding the limitations of theories and models. Students appreciate that our understanding of the nature of matter remains incomplete.

## Student Achievement

The top 80% of the 103 students in this course have marks ranging from 83 to 99.

Bob achieved a scaled trial examination mark of 98 and is placed 1 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                                               | E | D | C | B | A |
|----------------------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates knowledge of complex Physics concepts.                                                                                    |   |   |   |   | ✓ |

## Teacher's Comment

Bob is an exceptionally talented and dedicated Physics student who should be congratulated on achieving an outstanding result of equal first in the Physics HSC Trial exam. His pursuit of a deep understanding of Physics is demonstrated by his astute contributions to class discussions. Bob has demonstrated an innovative and creative approach to practical tasks in Physics. Bob is a true scholar with wide and deep interests, who will be a great asset to whatever field of study he pursues in the future.

# Economics

Student: **Bob Chen**

Reporting Period: **Semester 2 2019**

Class: **12ECO A**

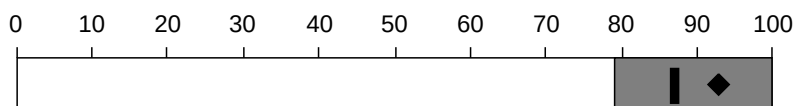

Teacher: **Mr T Flood**

## Context

Students examine economic policies of the Australian government and how the economy is managed. Economic issues facing the Australian economy including sustainable economic growth, unemployment, inflation, the distribution of income and wealth, and environmental management are explored.

## Student Achievement

The top 80% of the 26 students in this course have marks ranging from 79 to 100.

Bob achieved a scaled trial examination mark of 93 and is placed 5 in the course.

◆ Assessment result

■ Course average

■ Range in top 80% of course

## Focus Outcomes

**Performance Scale:** E = Limited; D = Basic; C = Sound; B = High; A = Outstanding

| Outcomes                                                                                                       | E | D | C | B | A |
|----------------------------------------------------------------------------------------------------------------|---|---|---|---|---|
| Demonstrates understanding of economic terms, concepts and relationships.                                      |   |   |   |   | ✓ |
| Analyses the impact of economic policies in theoretical and contemporary Australian contexts.                  |   |   |   |   | ✓ |
| Evaluates the consequences of contemporary economic problems and issues on individuals, firms and governments. |   |   |   | ✓ |   |
| Communicates economic information, ideas, and issues in appropriate forms.                                     |   |   |   |   | ✓ |

## Personal Profile

**Legend:** NA = Not Apparent; S = Sometimes; U = Usually; A = Always

| Profile                                                       | NA | S | U | A |
|---------------------------------------------------------------|----|---|---|---|
| Is well organised and prepared for all tasks.                 |    |   |   | ✓ |
| Completes homework to a high standard.                        |    |   |   | ✓ |
| Displays diligence in the completion of tasks and activities. |    |   |   | ✓ |
| Works well independently.                                     |    |   |   | ✓ |
| Works well as a member of a team.                             |    |   |   | ✓ |
| Shows consideration and respect for others.                   |    |   |   | ✓ |

## Teacher's Comment

Bob is a capable and knowledgeable student of Economics. He participates positively in class discussions and works effectively in all the tasks assigned to him. Bob's result in the trial examination was excellent and is a testament to his hard work. He consistently submits practice extended response style questions which has allowed him to understand the skills necessary to write coherent, comprehensive answers. Bob should be congratulated for his determination to improve in Economics.
