

Epping Boys High School

2019 - Semester 2 - Year 12

Class

12RC_1_801

Name

Douglas Cain

Our school reports a summary of your child's progress with written reports twice a year and provides ongoing detail through interviews or meetings. Please contact the school to discuss this report and participate in your child's learning and progress with the teacher.

If you would like an electronic copy of this report please contact the school and this report will be emailed.

Assessment of achievement

Achievement Grade		Achievement Description
Outstanding	A	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
High	B	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
Sound	C	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
Basic	D	The student has a basic knowledge and understanding of the content and has achieved a basic level of competence in the processes and skills.
Limited	E	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

Courses:

12MX11	Mathematics Extension 1 - HSC	Mr A. Param
12MX21	Mathematics Extension 2	Mr A. Param
12ENSR	Engineering Studies - HSC	Mr P. Chew
12SDDR	Software Design and Development - HSC	Mr T. Beilby
12EADR	English Advanced Stage 6	J. Allan
12PHYO	Physics Stage 6	Mr C. Harper

Mathematics Extension 1 - HSC

Semester 2, 2019

Name: Douglas CAIN

Teacher: Mr A. Param

Overall Achievement

A	B	C	D	E
---	---	---	---	---

Effort

5	4	3	2	1
---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	N/A
appreciates interrelationships between ideas drawn from different areas of mathematics including Calculus	a					
uses inductive reasoning in the construction of proofs including Mathematical Induction	a					
uses the relationship between functions, inverse functions and their derivatives	a					
evaluates mathematical solutions to problems and communicates them in an appropriate form	a					
applies appropriate techniques from the study of calculus, trigonometry and series to solve problems	a					
applies appropriate techniques from the study of calculus to solve problems involving logarithmic and exponential functions	a					

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, N/A = Not Applicable

Teacher Comment

Douglas is a conscientious and an enthusiastic student who has always displayed a positive and highly motivated attitude towards this course. He has demonstrated sound work ethic and consistently worked diligently in class. Douglas is commended for achieving a pleasing result in the Trial HSC Examination. However, he is capable of a higher band in the HSC. Douglas needs to further intensify his revision in order to strengthen problem-solving techniques and consolidate and retain knowledge comprehensively. Douglas has been a great delight to teach and I wish him the best of luck in the HSC.

Mathematics Extension 2

Semester 2, 2019

Name: Douglas CAIN

Teacher: Mr A. Param

Overall Achievement

A	B	C	D	E
---	---	---	---	---

Effort

5	4	3	2	1
---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	N/A
uses the relationship between algebraic and geometric representations of complex numbers and of conic sections		a				
uses efficient techniques for the algebraic manipulation required in dealing with questions such as those involving conic sections and polynomials		a				
combines the ideas of algebra and calculus to determine the important features of the graphs of a wide variety of functions	a					
uses the techniques of slicing and cylindrical shells to determine volumes		a				
applies further techniques of integration, including partial fractions, integration by parts and recurrence formulae, to problems		a				
communicates abstract ideas and relationships using appropriate notation and logical argument		a				

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, N/A = Not Applicable

Teacher Comment

Douglas is a self-motivated and an industrious student who has achieved a pleasing result in the Trial HSC examination; however, it could have been better. He is to be commended for his ambitious choice of this course for the HSC and committing himself to learning more challenging concepts and extending his abilities and skills to a higher level. Douglas is encouraged to revise course work comprehensively and resolutely in the coming weeks to consolidate and retain relevant concepts and problem-solving techniques. He should also practise past HSC papers under exam conditions and mark his answers. This will help refine responses and adapt time management. Congratulations Douglas on your conscientious effort and the successful completion of this course. It has been a delight to teach Douglas and I wish him all the very best in the final exams.

Engineering Studies - HSC

Semester 2, 2019

Name: Douglas CAIN

Teacher: Mr P. Chew

Overall Achievement

A	B	C	D	E
---	---	---	---	---

Effort

5	4	3	2	1
---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	N/A
describes the scope of engineering and critically analyses current innovations	a					
determines suitable properties, uses and applications of materials, components and processes in engineering	a					
uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports	a					
applies knowledge of history and technological change to engineering-based problems	a					

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, N/A = Not Applicable

Teacher Comment

Douglas is a very competent student who demonstrates a high level of knowledge in the engineering processes and he is able to explain the relationship between properties, uses and applications of materials in engineering. His ability to solve complex engineering problems is well developed. He needs to practise answering past Independent and Higher School Certificate papers. Douglas has been a valuable member of this class and it has been a pleasure to work with him during his time at Epping Boys' High School.

constructs software solutions that address legal, social and ethical issues	a					
applies appropriate development methods to solve software problems	a					
applies a modular approach to implement well structured software solutions and evaluates their effectiveness	a					
creates and justifies the need for the various types of documentation required for a software solution	a					

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, N/A = Not Applicable

Teacher Comment

Douglas has worked diligently on his major programming project attaining a superb 92%. His program was well designed with excellent supporting documentation. Douglas' performance in the Trial Examination was outstanding indicating a great depth of knowledge. Past HSC paper practice will be key to further refining his exam technique for the final examination. It has been a privilege to teach Douglas and he should be congratulated for his efforts. I wish him all the best for the future.

critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning		a				
investigates and evaluates the relationships between texts		a				
explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning		a				
reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner		a				

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, N/A = Not Applicable

Teacher Comment

Douglas has achieved some excellent results, revealing the development of an exceptional work ethic going into the HSC. He has been consistent in his preparation leading into tasks and his frequent contributions during class discussions have assisted with the consolidation of his learning. He has shown his maturity by listening to advice and working diligently throughout the course. It has been a pleasure having Douglas as a member of the class. I wish him every success for his future. He is well-prepared to embrace the exciting challenges before him.

designs and evaluates investigations in order to obtain primary and secondary data and information	a					
conducts investigations to collect valid and reliable primary and secondary data and information	a					
selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media	a					
analyses and evaluates primary and secondary data and information	a					
describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world	a					
explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom	a					

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, N/A = Not Applicable

Teacher Comment

Douglas is an exceptional young man who has applied himself rigorously to this subject and has striven for excellence. He has performed at the top end of his cohort and has an extensive understanding of the concepts presented. Douglas has a well rounded education and should succeed in any career to which he applies himself. Douglas is wished all the best in his future endeavours.

---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	NA
explains the relationship between properties, structure, uses and applications of materials in engineering	a					
uses mathematical, scientific and graphical methods to solve problems of engineering practice	a					
develops written, oral and presentation skills and applies these to engineering reports	a					
applies management and planning skills related to engineering	a					

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, NA = Not Applicable

Teacher Comment

Douglas is performing at a great level. He has shown a very sound understanding of the many concepts encountered so far. He is good at problem solving and applying his research skills. I believe that if he continues to apply himself, maintain an effective study pattern and homework routine he will excel in this course. Congratulations on a fine effort.

---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	NA
describes and uses appropriate data types	a					
analyses a given problem in order to generate a computer-based solution	a					
uses and develops documentation to communicate software solutions to others		a				
designs and constructs software solutions with appropriate interfaces	a					

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, NA = Not Applicable

Teacher Comment

Douglas is a dedicated student who always works well and has attained an excellent result. His contribution to the group project ensured the program was robust, contained a range of programming features and had detailed supporting documentation. Douglas's grasp of course concepts was ably evident in the yearly examination, where he achieved full marks in the multiple choice and demonstrated solid algorithm writing skills. Fully relating short answers responses to given scenarios is one area Douglas can work on. It has been a pleasure to teach Douglas and he should be commended for his efforts.

Mark (Student)	Rank (Student)	Average

---	---	---	---	---

Effort

5	4	3	2	1
---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	NA
responds to, composes and evaluates complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure	a					
strategically uses knowledge, skills and understanding of language concepts and literary devices in new and different contexts	a					
investigates and evaluates the relationships between texts		a				
evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued	a					
explains and evaluates cultural assumptions and values in texts and their effects on meaning		a				

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, NA = Not Applicable

Teacher Comment

Douglas has been a pleasant and enthusiastic member of the classroom in English this semester. He regularly provides his own insights on texts and frequently participates in classroom discussions. He was able to develop his own unique reading of Auden's poetry and produce a high-quality essay response in the recent examination, demonstrating his understanding of complex literary concepts. Douglas is encouraged to continue into his HSC year with the high standard of commitment to his learning.

Effort

5	4	3	2	1
---	---	---	---	---

Learning Outcomes

	A	B	C	D	E	NA
demonstrates and applies considered understanding of the dynamic relationship between text, purpose, audience and context, across a range of modes, media and technologies		a				
develops skills in research methodology to undertake effective independent investigation		a				
articulates understanding of how and why texts are echoed, appropriated and valued in a range of contexts		a				

A = Outstanding, B = High, C = Sound, D = Basic, E = Limited, NA = Not Applicable

Teacher Comment

Douglas is a cooperative and courteous student who has continued to produce work of a high standard. In our continued study of Texts, Culture and Value: Encounters with the Other, he demonstrated a thorough understanding of the course in his assessments. His Independent Research Project was detailed and his Multimodal Presentation and Reflection conveyed a deep understanding of his set and related text. His examination result was also of a high standard, although there is still areas for him to improve in both the creative and critical sections, particularly the latter. Whilst he will not be continuing with the course, he can use the skills he has acquired and improved over this year and no doubt successfully apply them to the Advanced English course. Douglas has been a valued member of the class and I wish him all the best in his studies.
