Year 11 Mathematics Extension 1

Year 11 Business Studies

Year 11 Economics

Year 11 English Advanced

Year 11 Chemistry

Year 11 Physics

This report is issued without alteration or erasure.

Description of Achievement

Outstanding:	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
High:	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
Sound:	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
Basic:	The student has a basic knowledge and understanding of the content and has achieved a basic level of competence in the processes and skills.
Limited:	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

Vocational Education and Training (VET) Levels of Achievement - Macquarie Park 90222

Achieved:	Student has been assessed and satisfies all the requirements for the unit of competency.
Continuing:	The student has engaged in learning activity, but has not completed all the training and assessment criteria by the end of the collection period.
Not Achieved:	Student has attempted all requirements for the assessment and has been assessed as not competent in one or more of the requirements of the competency.
Withdrawn:	The student has engaged in some learning activity, then withdrawn before completing all of the assessment criteria.

Attendance (30/01/18 - 11/05/18)

Explained Whole Days Absent	2	Explained Partial Days Absent	1
Unexplained Whole Days Absent	0	Unexplained Partial Days Absent	0

Mr David Osland
Principal

Mr Emre Mehmet
Year Advisor

Year 11 Mathematics

Course Description

The course consists of the study of algebraic techniques applied to functions, linear functions quadratic functions and calculus. Application of trigonometry to problem solving and geometrical proofs.

Course Results

Assessment Task 1 95/100 Assessment Task 1 63/100 Assessment Task 1 Rank 9/169
Average

Course Outcomes

	O	H	S	B	L	NA
able to solve problems involving equations and inequations	✓					
performs routine arithmetic manipulation involving absolute values and simple rational expressions		✓				
performs routine algebraic manipulation	✓					
performs routine manipulation of surds	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion		✓			
Demonstrates organisational, research and time management skills	✓				
Punctual to lessons	✓				

	A	O	S	R	NA
Shows a commitment to course work		✓			
Shows respect and positively interacts with peers and teachers	✓				
Works independently and displays initiative	✓				

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally has worked well throughout the semester. She applies her skills systematically and logically in problems but is still required to refine her problem solving skills. Sally needs to be proactive in lessons and seek help when certain mathematical concepts are unclear.

Teacher: Mr M. Singh

Head Teacher: Mr B. Hatcher

Year 11 Mathematics Extension 1

Course Description

An extension of the mathematics course with harder algebraic techniques including harder inequalities and absolute values. Further trigonometry, identities, sums and differences of angles and multiple angles.

Course Results

Assessment Task 1 86/100 Assessment Task 1 64/100 Assessment Task 1 Rank 8/65
Average

Course Outcomes

	O	H	S	B	L	NA
able to solve problems involving equations, inequations, surds and algebraic expressions	✓					
understands the concept of a function and its graph		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion		✓			
Demonstrates organisational, research and time management skills		✓			
Punctual to lessons	✓				

	A	O	S	R	NA
Shows a commitment to course work		✓			
Shows respect and positively interacts with peers and teachers	✓				
Works independently and displays initiative	✓				

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally is a reliable and cooperative student who strives to achieve her potential and should be commended for her conscientious and mature approach towards this subject. She has a high level of mathematical problem solving skills which she applies effectively in examinations. Sally is also encouraged to actively participate in class discussions and share her concepts and ideas.

Teacher: Mr M. Singh

Head Teacher: Mr B. Hatcher

Year 11 Business Studies

Course Description

Students undertaking the Business Studies course examine the role and nature of business in a changing business environment. The review and integrate a range of contemporary business case studies to analyse and evaluate business functions.

Course Results

Assessment Task 1 89/100 Assessment Task 1 65/100 Assessment Task 1 Rank 2/108
Average

Course Outcomes

	O	H	S	B	L	NA
demonstrates knowledge and understanding of the nature role and structure of business and the internal and external influences on business.	✓					
investigates, synthesises and evaluates contemporary business issues and hypothetical and actual business situations.	✓					
communicates business information and issues in appropriate formats.	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion	✓				
Demonstrates organisational, research and time management skills	✓				
Punctual to lessons	✓				

	A	O	S	R	NA
Shows a commitment to course work	✓				
Shows respect and positively interacts with peers and teachers	✓				
Works independently and displays initiative	✓				

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally is a diligent student who is genuinely interested in the concepts presented and skills being developed in Business Studies. In class she is well behaved and completes all set tasks. Sally has demonstrated an outstanding level of understanding in Business Studies. She is encouraged to focus on practising HSC style questions and engage in wider reading around business issues and case studies. She is a pleasure to teach.

Teacher: Mr E. Mehmet

Head Teacher: Ms D. Quick

Year 11 Economics

Course Description

Students develop knowledge about the economic behaviour of individuals, institutions and governments in the operation of market economies. In semester 1 students develop skills to investigate and engage in analysis of contemporary economic issues and economic management.

Course Results

Assessment Task 1 75/100 Assessment Task 1 63/100 Assessment Task 1 Rank 16/46
Average

Course Outcomes

	O	H	S	B	L	NA
demonstrates knowledge and understanding of the economic behaviour of individuals, firms, institutions and governments as well as the function and operation of markets.		✓				
demonstrates knowledge and understanding of the operation and management of economies.		✓				
demonstrates knowledge and understanding of contemporary economic problems and issues facing individuals, firms and governments.		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion		✓			
Demonstrates organisational, research and time management skills	✓				
Punctual to lessons	✓				

	A	O	S	R	NA
Shows a commitment to course work	✓				
Shows respect and positively interacts with peers and teachers	✓				
Works independently and displays initiative	✓				

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally is a polite student who has developed a good understanding in Economics. She is well organised and demonstrates a serious approach to her learning. Sally should contribute to class discussions so as to develop her understanding of current issues and trends.

Teacher: Mrs T. Richardson

Head Teacher: Ms D. Quick

Year 11 English Advanced

Course Description

Students undertook the intensive and close reading of quality texts from a variety of modes and media. In doing so, they further developed the skills and knowledge necessary to appreciate, understand, analyse and evaluate how and why texts convey complex ideas, relationships, endeavours and scenarios. Central to this module was developing student capacity to respond perceptively to texts through their own considered and thoughtful writing and judicious reflection on their skills and knowledge as writers.

Course Results

Assessment Task 1 15/20 Assessment Task 1 Average 12/20 Assessment Task 1 Rank 19/120

Course Outcomes

	O	H	S	B	L	NA
analyses and uses language forms, features and structures of texts considering appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning		✓				
thinks imaginatively, creatively, interpretively and critically to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments		✓				
reflects on, evaluates and monitors own learning and adjusts individual and collaborative processes to develop as an independent learner		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion		✓			
Demonstrates organisational, research and time management skills		✓			
Punctual to lessons		✓			

	A	O	S	R	NA
Shows a commitment to course work		✓			
Shows respect and positively interacts with peers and teachers		✓			
Works independently and displays initiative		✓			

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally's first assessment result is commendable. She is a quiet student who would benefit from asking questions to clarify her understanding of the values, attitudes and ideas in texts. Sally needs to work on developing her vocabulary when writing about texts and contexts. She is beginning to appreciate how narratives can shape perspective and provide didactic purpose in texts.

Teacher: Ms M. Dawes

Head Teacher: Ms B. Levy

Year 11 Chemistry

Course Description

During the Year 11 course, students will study the structure, composition and reactions of and between all elements, compounds and mixtures that exist in the Universe, the discovery and synthesis of new compounds, the monitoring of elements and compounds in the environment, industrial processes and their applications to life and sustainability. Students will use Working Scientifically processes to develop scientific investigation skills.

Course Results

Assessment Task 1 79/100 Assessment Task 1 59/100 Assessment Task 1 Rank 5/68
Average

Course Outcomes

	O	H	S	B	L	NA
conducts investigations to collect valid and reliable primary and secondary data and information			✓			
selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media		✓				
solves scientific problems using primary and secondary data, critical thinking skills and scientific processes	✓					
explores the properties and trends in the physical, structural and chemical aspects of matter		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion	✓				
Demonstrates organisational, research and time management skills	✓				
Punctual to lessons	✓				

	A	O	S	R	NA
Shows a commitment to course work	✓				
Shows respect and positively interacts with peers and teachers	✓				
Works independently and displays initiative	✓				

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally is a capable student who has demonstrated a good understanding of the concepts studied in this course. She is to be commended on her excellent self-motivation and asking questions in class to improve her understanding. Sally is encouraged to continually revise and practise questions.

Teacher: Ms L. Tokko

Head Teacher: Ms J. Harrison

Year 11 Physics

Course Description

During the Year 11 course, students will study matter and its motion through space and time and the related concepts of energy and force. This course allows students to better understand the Universe and how it works. Students will use Working Scientifically processes to develop scientific investigation skills.

Course Results

Assessment Task 1 65/100 Assessment Task 1 40/100 Assessment Task 1 Rank 8/68
Average

Course Outcomes

	O	H	S	B	L	NA
conducts investigations to collect valid and reliable primary and secondary data and information	✓					
solves scientific problems using primary and secondary data, critical thinking skills and scientific processes			✓			
describes and analyses motion in terms of scalar and vector quantities in two dimensions and makes quantitative measurements and calculations for distance, displacement, speed, velocity and acceleration		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Commitment to Learning and Social Development

	A	O	S	R	NA
Contributes to class discussion		✓			
Demonstrates organisational, research and time management skills	✓				
Punctual to lessons	✓				

	A	O	S	R	NA
Shows a commitment to course work	✓				
Shows respect and positively interacts with peers and teachers	✓				
Works independently and displays initiative	✓				

A = Always, O = Often, S = Sometimes, R = Rarely, NA = Not Applicable

Comments and recommendations

Sally has made an excellent start to Physics. She is organised, focused and attentive in class at all times and she makes the most of her time this way. Sally's class work and homework are completed to a high standard and her assessment results were excellent. She should aim to continue this effort throughout the course to achieve her potential.

Teacher: Mr P. Matthews

Head Teacher: Ms J. Harrison

Year 11 Mathematics

Course Description

The course consists of the study of algebraic techniques applied to functions, linear functions quadratic functions and calculus. Application of trigonometry to problem solving and geometrical proofs.

Course Results

Assessment Task 2	77/100	Assessment Task 2 Average	55/100	Assessment Task 2 Rank	30/146
Yearly Examination	87%	Yearly Examination Average:	56%	Yearly Examination Rank	16/146

Cumulative Assessment Rank as at 28/09/2018	17/146
--	--------

Course Outcomes

	O	H	S	B	L	NA
understands the concept of a function and the relationship between a function and its graph		✓				
determines the derivative of a function through routine application of the rules of differentiation		✓				
Uses appropriate techniques in the study of trigonometry to solve problems		✓				
Solves problems involving plane geometry		✓				
Performs routine arithmetic and algebraic manipulation involving surds and simple rational expressions	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R		A	O	S	R
Contributes to class discussion		✓			Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a capable student who has consistently worked with enthusiasm to produce impressive results. She has produced some outstanding examples of work and deserves this success. Sally participates well in all classroom activities and is always willing to take on challenging Mathematical problems.

Teacher: Mr M. Singh

Head Teacher: Mr B. Hatcher

Year 11 Mathematics Extension 1

Course Description

An extension of the mathematics course with harder algebraic techniques including harder inequalities and absolute values. Further trigonometry, identities, sums and differences of angles and multiple angles.

Course Results

Assessment Task 2	74/100	Assessment Task 2 Average	57/100	Assessment Task 2 Rank	18/61
Yearly Examination	80%	Yearly Examination Average	64%	Yearly Examination Rank	16/61

Cumulative Assessment Rank as at 28/09/2018	13/61
--	-------

Course Outcomes

	O	H	S	B	L	NA
uses the parametric representation together with differentiation to identify geometric properties of parabolas			✓			
applies appropriate algebraic and graphical techniques to functions		✓				
uses multi-step deductive reasoning in the study of circle geometry		✓				
Uses appropriate techniques in the study of trigonometry to solve problems		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R		A	O	S	R
Contributes to class discussion		✓			Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally has made a very sincere effort and worked consistently throughout this course. This has resulted in a remarkable improvement in her results. Sally has the potential to improve her results further by refining her problem solving skills and optimising her skills in answering examination style questions.

Teacher: Mr M. Singh

Head Teacher: Mr B. Hatcher

Year 11 Business Studies

Course Description

Students undertaking the Business Studies course continue to explore contemporary business case studies as they examine the role and nature of business in a changing business environment.

Course Results

Assessment Task 2	93/100	Assessment Task 2 Average	68/100	Assessment Task 2 Rank	2/104
Yearly Examination	83%	Yearly Examination Average	54%	Yearly Examination Rank	6/104

Cumulative Assessment Rank as at 28/09/2018	2/104
--	-------

Course Outcomes

	O	H	S	B	L	NA
demonstrates knowledge and understanding of nature, role and structure of business and the internal and external influences on business.		✓				
demonstrates knowledge and understanding of the functions and processes of business activity as well as management strategies and their effectiveness.	✓					
investigates, synthesises and evaluates contemporary business issues and hypothetical and actual business situations	✓					
communicates business information and issues using appropriate formats.	✓					
applies mathematical concepts appropriately in business situations.		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R		A	O	S	R
Contributes to class discussion	✓				Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a diligent student who is genuinely interested in the concepts and skills being developed in Business Studies. She has achieved an outstanding result in Business Studies. In class, she is attentive and actively contributes to classroom discussions. Sally should consistently focus on practising HSC style questions. She is advised to maintain her level of motivation to continue her achievement in this course.

Teacher: Mr E. Mehmet

Head Teacher: C. Horvath

Year 11 Economics

Course Description

In Semester 2, economics students studied macro economic and fiscal policy. Students considered the application of terms, concepts and theories in appropriate economic contexts.

Course Results

Assessment Task 2	93/100	Assessment Task 2 Average	68/100	Assessment Task 2 Rank	1/44
Yearly Examination	68%	Yearly Examination Average	56%	Yearly Examination Rank	12/44

Cumulative Assessment Rank as at 28/09/2018	10/44
--	-------

Course Outcomes

	O	H	S	B	L	NA
demonstrates knowledge and understanding of the economic behaviour of individuals, firms, institutions and governments as well as the function and operation of markets.			✓			
demonstrates knowledge and understanding of the operation and management of economies.		✓				
demonstrates knowledge and understanding of contemporary economic problems and issues facing individuals, firms and governments.			✓			
investigates and engage in effective analysis, synthesis and evaluation of economic information from a variety of sources.		✓				
communicates economic information, ideas and issues in appropriate forms.		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R		A	O	S	R
Contributes to class discussion		✓			Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills		✓			Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons		✓			Works independently and displays initiative		✓		

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a polite student who demonstrated a good understanding in Economics. She is to be commended on her diligence and focus throughout the year. Sally is encouraged to read widely to increase her confidence and analysis of course concepts.

Teacher: Mrs T. Richardson

Head Teacher: C. Horvath

Year 11 Chemistry

Course Description

During the Year 11 course, students will study the structure, composition, and reactions of and between all elements, compounds, and mixtures that exist in the Universe, the discovery and synthesis of new compounds, the monitoring of elements and compounds in the environment, and industrial processes and their applications to life and sustainability. Students will use Working Scientifically processes to develop scientific investigation skills.

Course Results

Assessment Task 2	65/100	Assessment Task 2 Average	54/100	Assessment Task 2 Rank	17/65
Yearly Examination	66%	Yearly Examination Average	52%	Yearly Examination Rank	16/65

Cumulative Assessment Rank as at 28/09/2018	11/65
--	-------

Course Outcomes

	O	H	S	B	L	NA
selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media		✓				
analyses and evaluates primary and secondary data and information			✓			
communicates scientific understanding using suitable language and terminology for a specific audience or purpose			✓			
knowledge and understanding of Chemistry concepts			✓			

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R		A	O	S	R
Contributes to class discussion	✓				Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a polite and diligent student who works well in class, completing set tasks promptly and to a high standard. She has a solid understanding of chemical concepts, but needs practise in applying her knowledge to solve problems. This can be achieved by developing a study routine, including regular in depth revision and completion of examination style questions.

Teacher: Ms L. Tokko

Head Teacher: Ms J. Harrison

Year 11 English Advanced

Course Description

Students have responded to, composed and evaluated complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure. They have composed and delivered a multimodal presentation and undertaken a formal examination paper addressing all aspects of the Preliminary course content.

Course Results

Assessment Task 2	85/100	Assessment Task 2 Average	67/100	Assessment Task 2 Rank	8/110
Yearly Examination	73%	Yearly Examination Average	64%	Yearly Examination Rank	26/110

Cumulative Assessment Rank as at 28/09/2018	14/110
--	--------

Course Outcomes

	O	H	S	B	L	NA
uses and evaluates processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies	✓					
analyses and uses language forms, features and structures of texts considering appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning		✓				
thinks imaginatively, creatively, interpretively and critically to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments	✓					
investigates and evaluates the relationships between texts		✓				
explains and evaluates cultural assumptions and values in texts and their effects on meaning		✓				

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R		A	O	S	R
Contributes to class discussion	✓				Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills		✓			Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative		✓		

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a quiet student who enjoys working predominately with her peers in English. Sally's writing style has become effective and she is encouraged to read widely about the contexts attached to the texts set for study next term. This will enhance and broaden her vocabulary, ensuring her responses are informed and sustained.

Teacher: Ms B. Levy

Head Teacher: Ms B. Levy

Year 11 Physics

Course Description

During the Year 11 course, students will study matter and its motion through space and time and the related concepts of energy and force. This course allows students to better understand the Universe and how it works. Students will use Working Scientifically processes to develop scientific investigation skills.

Course Results

Assessment Task 2	92/100	Assessment Task 2 Average	74/100	Assessment Task 2 Rank	6/65
Yearly Examination	65%	Yearly Examination Average	50%	Yearly Examination Rank	20/65

Cumulative Assessment Rank as at 28/09/2018	12/65
--	-------

Course Outcomes

	O	H	S	B	L	NA
conducts investigations to collect valid and reliable primary and secondary data and information	✓					
describes and explains events in terms of Newton's Laws of Motion, the law of conservation of momentum and the law of conservation of energy		✓				
explains and analyses waves and the transfer of energy by sound, light and thermodynamic principles		✓				
explains and quantitatively analyses electric fields, circuitry and magnetism	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, NA = Not Applicable

Social Development and Commitment to Learning

	A	O	S	R
Contributes to class discussion		✓		
Demonstrates organisational, research and time management skills	✓			
Punctual to lessons	✓			

	A	O	S	R
Shows a commitment to course work	✓			
Shows respect and positively interacts with peers and teachers	✓			
Works independently and displays initiative	✓			

A = Always, O = Often, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a quiet and capable student. She is enthusiastic, works well in class and is highly organised. Sally should continue her positive attitude into the Year 12 course. To improve further, Sally should ensure she fully understands all the mathematics involved in the course.

Teacher: Mr P. Matthews

Head Teacher: Ms J. Harrison

Year 12 (HSC) English Advanced

Course Description

Students have deepened their understanding of how texts represent individual and collective human experiences. They have come to appreciate how a comparative study of two texts can reveal resonances and dissonances between and within texts. Students have produced both written and multimodal texts as part of their assessment work. Students have strengthened their knowledge, skills and confidence as writers.

Course Results

Assessment Task 1	67/100	Assessment Task 1 Average	74/100	Assessment Task 1 Rank	57/98
Assessment Task 2	90/100	Assessment Task 2 Average	72/100	Assessment Task 2 Rank	8/98

Cumulative Assessment Rank	27/98
-----------------------------------	-------

Course Outcomes

	O	H	S	B	L	N/A
independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure		✓				
uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies	✓					
strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts	✓					
investigates and evaluates the relationships between texts		✓				
reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, N/A = Not Applicable

Commitment to Learning and Social Development

	C	U	S	R
Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓			
Works independently and displays initiative	✓			

	C	U	S	R
Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓			
Contributes to class discussion		✓		

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally has made pleasing progress in her conceptual understanding and analytic writing. She communicates her ideas and understanding of set prescribed texts using lucid written expression. She should now focus on ensuring that she fully addresses all aspects of the essay questions and continue to include evaluative comments for set texts in her extended responses.

Teacher: Ms A. Yoon

Head Teacher: Miss E. Wagner, Ms B. Levy

Year 12 (HSC) Mathematics

Course Description

The course consists of the study of geometric properties to solve problems and the use of coordinate methods in geometry, geometrical applications of differential and integral calculus, trigonometric, logarithmic and exponential functions and their applications to solve problems related to the physical world, probability theory and application of series.

Course Results

Assessment Task 1	94/100	Assessment Task 1 Average	66/100	Assessment Task 1 Rank	3/127
Assessment Task 2	71/100	Assessment Task 2 Average	68/100	Assessment Task 2 Rank	70/127

Cumulative Assessment Rank	34/127
-----------------------------------	---------------

Course Outcomes

	O	H	S	B	L	N/A
applies appropriate techniques from the study of calculus, geometry, probability, trigonometry and series to solve problems			✓			
uses the derivative to determine the features of the graph of a function	✓					
uses the features of a graph to deduce information about the derivative	✓					
uses techniques of integration to calculate areas and volumes	✓					
applies appropriate techniques from the study of parabola and locus to solve problems	✓					
applies appropriate techniques from the study of probability to solve problems			✓			
applies appropriate techniques from the study of series to solve problems			✓			

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, N/A = Not Applicable

Commitment to Learning and Social Development

	C	U	S	R
Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓			
Works independently and displays initiative	✓			

	C	U	S	R
Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓			
Contributes to class discussion		✓		

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a capable student who has consistently worked with enthusiasm to produce impressive results. She has high level ability to synthesize information and employ it in solving complex problems. Sally possesses excellent planning, organising and self management skills that has enhanced her learning outcomes.

Teacher: Mr M. Singh

Head Teacher: N. Rouzbehi

Year 12 (HSC) Mathematics Extension 1

Course Description

An extension of the Mathematics course introducing methods of integration of more difficult trigonometric, exponential and logarithmic functions. Calculus is applied to studies of motion and inverse trigonometric functions. Students also cover theory related to polynomials, mathematical induction and binomial probability.

Course Results

Assessment Task 1	69/100	Assessment Task 1 Average	66/100	Assessment Task 1 Rank	15/50
Assessment Task 2	85/100	Assessment Task 2 Average	73/100	Assessment Task 2 Rank	12/50

Cumulative Assessment Rank	11/50
-----------------------------------	-------

Course Outcomes

	O	H	S	B	L	N/A
uses inductive reasoning in the construction of proofs	✓					
determines basic integrals and integrals by reduction to a standard form through a given substitution	✓					
uses calculus techniques to solve problems involving exponential and logarithmic functions		✓				
applies algebraic techniques related to parametric equations and polynomials		✓				
applies appropriate techniques from the study of calculus and trigonometry to solve problems	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, N/A = Not Applicable

Commitment to Learning and Social Development

	C	U	S	R		C	U	S	R
Shows respect and positively interacts with peers and teachers	✓				Shows a commitment to course work	✓			
Punctual to lessons	✓				Demonstrates organisational, research and time management skills	✓			
Works independently and displays initiative	✓				Contributes to class discussion	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a reliable, well organised and cooperative student who strives to achieve her potential, who should be commended for her conscientious and mature approach towards this subject. She has good Mathematical problem solving skills and is able to apply these skills effectively in examinations. Sally has demonstrated continuous improvements in achieving the course outcomes.

Teacher: Mr M. Singh

Head Teacher: N. Rouzbehi

Year 12 (HSC) Business Studies

Course Description

Business Studies aims to develop knowledge, understanding, skills and values which enable students to make judgements about the performance of businesses in a dynamic business environment. In Semester 1 students study Business Operations and Marketing with a focus on large or global business case studies.

Course Results

Assessment Task 1	91/100	Assessment Task 1 Average	67/100	Assessment Task 1 Rank	14/85
Assessment Task 2	78/100	Assessment Task 2 Average	58/100	Assessment Task 2 Rank	11/85

Cumulative Assessment Rank	11/85
-----------------------------------	-------

Course Outcomes

	O	H	S	B	L	N/A
develops knowledge and understanding of the nature and role of business and the internal and external influences on business	✓					
analyses business functions and processes in large and global businesses		✓				
demonstrates knowledge and understanding of management strategies and their effectiveness		✓				
demonstrates skills to investigate, synthesise and evaluate contemporary business issues and hypothetical and actual business situations		✓				
demonstrates skills to communicate business information and issues using appropriate formats		✓				
demonstrates skills to apply mathematical concepts appropriate to business situations	✓					

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, N/A = Not Applicable

Commitment to Learning and Social Development

	C	U	S	R
Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓			
Works independently and displays initiative	✓			

	C	U	S	R
Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓			
Contributes to class discussion	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally a very hardworking student who shows a keen interest in Business Studies. She always engages in class discussions and activities and clearly reads outside the syllabus. Sally's recent assessment results reflect her very good grasp of the key concepts and topics studied in the course. To improve Sally must continue practising HSC extended response questions and submit them for marking.

Teacher: Mr P. Toocaram

Head Teacher: Ms D. Quick

Year 12 (HSC) Chemistry

Course Description

During the Year 12 course, students will acquire knowledge and understanding of Equilibrium and Acid Reactions, Acid/base Reactions, Organic Chemistry and Applying Chemical Ideas. They will further develop Working Scientifically Skills in questioning and predicting, planning and conducting investigations, processing and analysing data and information, problem solving and communicating. Through compulsory Depth Studies, completed either individually or collaboratively, students have the opportunity to further develop concepts and pursue interests in Chemistry.

Course Results

Assessment Task 1	23/50	Assessment Task 1 Average	25/50	Assessment Task 1 Rank	28/45
Assessment Task 2	65/70	Assessment Task 2 Average	44/70	Assessment Task 2 Rank	2/45

Cumulative Assessment Rank	17/45
-----------------------------------	-------

Course Outcomes

	O	H	S	B	L	N/A
designs and evaluates investigations in order to obtain primary and secondary data and information	✓					
analyses and evaluates primary and secondary data and information			✓			
solves scientific problems using primary and secondary data, critical thinking skills and scientific processes			✓			
communicates scientific understanding using suitable language and terminology for a specific audience or purpose			✓			

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, N/A = Not Applicable

Commitment to Learning and Social Development

	C	U	S	R		C	U	S	R
Shows respect and positively interacts with peers and teachers	✓				Shows a commitment to course work	✓			
Punctual to lessons	✓				Demonstrates organisational, research and time management skills	✓			
Works independently and displays initiative	✓				Contributes to class discussion	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a hardworking and capable Chemistry student. Although her result for Assessment 1 was below expectations, her results for Assessment 2 were excellent. Sally would benefit from undertaking practice questions under time restraints in preparation for the HSC.

Teacher: Mr G. Krilich

Head Teacher: Ms J. Harrison

Year 12 (HSC) Physics

Course Description

During the Year 12 course, students will acquire knowledge and understanding Advanced Mechanics, Electromagnetism, The Nature of Light and From the Universe to the Atom. They will further develop Working Scientifically Skills in questioning and predicting, planning and conducting investigations, processing and analysing data and information, problem solving and communicating. Through compulsory Depth Studies, completed either individually or collaboratively, students have the opportunity to further develop concepts and pursue interests in Physics.

Course Results

Assessment Task 1	50/100	Assessment Task 1 Average	47/100	Assessment Task 1 Rank	21/44
Assessment Task 2	77/100	Assessment Task 2 Average	58/100	Assessment Task 2 Rank	10/44

Cumulative Assessment Rank	15/44
-----------------------------------	-------

Course Outcomes

	O	H	S	B	L	N/A
solves scientific problems using primary and secondary data, critical thinking skills and scientific processes			✓			
describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles		✓				
explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively			✓			

O = Outstanding, H = High, S = Sound, B = Basic, L = Limited, N/A = Not Applicable

Commitment to Learning and Social Development

	C	U	S	R		C	U	S	R
Shows respect and positively interacts with peers and teachers	✓				Shows a commitment to course work	✓			
Punctual to lessons	✓				Demonstrates organisational, research and time management skills	✓			
Works independently and displays initiative	✓				Contributes to class discussion	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a quiet and diligent student who has made good progress in Physics. Her effort in class and with homework is outstanding. With continued effort, Sally should achieve the results she deserves.

Teacher: Mr P. Matthews

Head Teacher: Ms J. Harrison

Chatswood High School

INSPIRING EXCELLENCE – ACHIEVING SUCCESS

Year 12 School Report Semester 2, 2019

Sally Lon Ching KWAN

Courses Studied

Year 12 (HSC) Mathematics
Year 12 (HSC) Mathematics Extension 1
Year 12 (HSC) Business Studies
Year 12 (HSC) English Advanced
Year 12 (HSC) Chemistry
Year 12 (HSC) Physics

This report is issued without alteration or erasure.

Description of Achievement

Outstanding:	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
High:	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
Sound:	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
Basic:	The student has a basic knowledge and understanding of the content and has achieved a basic level of competence in the processes and skills.
Limited:	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

Vocational Education and Training (VET) Levels of Achievement

Achieved:	Student has been assessed and satisfies all the requirements for the unit of competency.
Continuing:	The student has engaged in learning activity, but has not completed all the training and assessment criteria by the end of the collection period.
Not Achieved:	Student has attempted all requirements for the assessment and has been assessed as not competent in one or more of the requirements of the competency.
Withdrawn:	The student has engaged in some learning activity, then withdrawn before completing all of the assessment criteria.

Attendance (13/05/19 - 13/09/19)

Whole Days Absent	9	Partial Days Absent	7
Explained Whole Days Absent	9	Explained Partial Days Absent	7
Unexplained Whole Days Absent	0	Unexplained Partial Days Absent	0

Mr David Osland
Principal

Mr Emre Mehmet
Year Advisor

Year 12 (HSC) Mathematics

Course Description

The course consists of the study of geometric properties to solve problems and the use of coordinate methods in geometry; geometrical applications of differential and integral calculus; trigonometric; logarithmic and exponential functions and their applications to solve problems related to the physical world, probability theory and application of series.

Course Results

Trial Examination	80%	Trial Examination Average	56%	Trial Examination Rank	21/113
Assessment Task 3	97/100	Assessment Task 3 Average	59/100	Assessment Task 3 Rank	2/113

Cumulative Assessment Rank as at 20/09/19	16/113
--	--------

Course Outcomes

	O	H	S	B	L	N/A
manipulates algebraic expressions involving logarithmic and exponential functions	✓					
applies appropriate techniques from the study of calculus, geometry, probability, trigonometry and series to solve problems		✓				
uses the derivative to determine the features of the graph of a function	✓					
uses techniques of integration to calculate areas and volumes	✓					
Chooses and applies appropriate arithmetic, algebraic, graphical, trigonometric and geometric techniques		✓				

Social Development and Commitment to Learning

	C	U	S	R		C	U	S	R
Contributes to class discussion	✓				Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a highly committed and motivated student. She worked very hard throughout the semester which resulted in achieving pleasing results in all outcomes of this mathematics course. She is well organised and utilises class time very effectively. Sally is well organised and is very critical of details and as a result her work produced is of the highest quality.

Teacher: Mr M. Singh

Head Teacher: Ms N. Rouzbehi

Year 12 (HSC) Mathematics Extension 1

Course Description

An extension of the mathematics course using methods of integration of more difficult trigonometric, exponential and logarithmic functions. The application of calculus to studies of motion and inverse trigonometric functions. Theory related to polynomials and in particular, binomials and probability.

Course Results

Trial Examination	79%	Trial Examination Average	80%	Trial Examination Rank	26/48
Assessment Task 3	80/100	Assessment Task 3 Average	73/100	Assessment Task 3 Rank	19/48

Cumulative Assessment Rank as at 20/09/19	16/48
--	-------

Course Outcomes

	O	H	S	B	L	N/A
uses the relationship between functions, inverse functions and their derivatives		✓				
applies the chain rule to problems including those involving velocity and acceleration as functions of displacement		✓				
determines integrals by reduction to a standard form through a given substitution	✓					
uses inductive reasoning in the construction of proofs, and uses a variety of strategies to investigate mathematical models of situations involving binomial probability, projectiles, simple harmonic motion, or exponential growth and decay		✓				
applies appropriate techniques from the study of calculus, geometry, probability, trigonometry and series to solve problems	✓					
solves problems involving permutations and combinations, inequalities, polynomials circle geometry and parametric representations		✓				

Social Development and Commitment to Learning

	C	U	S	R		C	U	S	R
Contributes to class discussion		✓			Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally has a commendable approach to all her work. She is very critical about details and always produces work of high quality. Her achievements have been consistently strong in all areas of the course. Sally participates very well in all classroom activities and is always willing to take on challenging mathematics problems.

Teacher: Mr M. Singh

Head Teacher: Ms N. Rouzbehi

Year 12 (HSC) Business Studies

Course Description

HSC Business Studies involves an examination of the core business functions: Operations, Marketing, Finance and Human Resources. Students apply their theoretical understanding to a range of practical case studies.

Course Results

Trial Examination	81%	Trial Examination Average:	59%	Trial Examination Rank	6/82
Assessment Task 3	95/100	Assessment Task 3 Average	71/100	Assessment Task 3 Rank	11/82

Cumulative Assessment Rank as at 20/09/19	8/82
--	------

Course Outcomes

	O	H	S	B	L	N/A
develops knowledge and understanding of the nature and role of business and the internal and external influences on business.	✓					
demonstrates knowledge on the functions and processes in large and global businesses.		✓				
develops knowledge and understanding of the functions and processes of business activity as well as management strategies and their effectiveness.	✓					
develops skills in investigating, synthesising and evaluating contemporary business issues relevant to hypothetical and actual business situations.		✓				
develops skills to communicate business information and issues using a variety of formats.	✓					
applies mathematical concepts appropriately in business situations.	✓					

Social Development and Commitment to Learning

	C	U	S	R		C	U	S	R
Contributes to class discussion				✓	Shows a commitment to course work		✓		
Demonstrates organisational, research and time management skills		✓			Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons		✓			Works independently and displays initiative		✓		

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a polite and attentive Business student who has a genuine interest in the subject. She always works to the best of her abilities and regularly participates in classroom activities. Sally's cumulative result indicates an excellent grasp of the concepts studied to date. Although her result was very good, with a bit more preparation on the presentation of her report writing and extended response questions, she could gain higher marks.

Teacher: Mr P. Toocaram

Head Teacher: Ms D. Quick

Year 12 (HSC) English Advanced

Course Description

Students presented their understanding of 'Textual Conversations' to their peers and undertook a critical study of film. They have continued to draft and refine their own writing across a variety of text types. Students have concurrently studied how writers' craft extended pieces of work. They have tested their knowledge of all of the course work by sitting their Trial Examinations.

Course Results

Trial Examination	75%	Trial Examination Average:	64%	Trial Examination Rank	16/98
Assessment Task 3	75/100	Assessment Task 3 Average	69/100	Assessment Task 3 Rank	32/98

Cumulative Assessment Rank as at 20/09/19	27/98
--	--------------

Course Outcomes

	O	H	S	B	L	N/A
uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies	✓					
strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts		✓				
thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments		✓				
reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner		✓				

Social Development and Commitment to Learning

	C	U	S	R		C	U	S	R
Contributes to class discussion			✓		Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally has exercised diligence to achieve pleasing results in this course. Her responses demonstrate a deep understanding of concepts and texts. She should now focus on engaging perceptively with all essay questions, ensuring that she includes insightful discussion and detailed analysis of set texts in her extended responses. Sally should revise key conceptual ideas to devise insightful theses and evaluative statements for her extended responses.

Teacher: Ms A. Yoon

Head Teacher: Miss E. Wagner, Ms B. Levy

Year 12 (HSC) Chemistry

Course Description

During the Year 12 course, students will acquire knowledge and understanding of Equilibrium and Acid Reactions, Acid/base Reactions, Organic Chemistry and Applying Chemical Ideas. They will further develop Working Scientifically Skills in questioning and predicting, planning and conducting investigations, processing and analysing data and information, problem solving and communicating. Through compulsory Depth Studies, completed either individually or collaboratively, students have the opportunity to further develop concepts and pursue interests in Chemistry.

Course Results

Trial Examination	79%	Trial Examination Average	56%	Trial Examination Rank	5/44
Assessment Task 3	75/100	Assessment Task 3 Average	50/100	Assessment Task 3 Rank	3/44

Cumulative Assessment Rank as at 20/09/19	4/44
---	------

Course Outcomes

	O	H	S	B	L	N/A
conducts investigations to collect valid and reliable primary and secondary data and information	✓					
selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media		✓				
communicates scientific understanding using suitable language and terminology for a specific audience or purpose		✓				
explains and analyses the characteristics of equilibrium systems, acids and bases, reactions involving carbon chemistry and evaluates chemical systems used in chemical processes.		✓				

Social Development and Commitment to Learning

	C	U	S	R		C	U	S	R
Contributes to class discussion		✓			Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills	✓				Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons	✓				Works independently and displays initiative	✓			

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a hardworking and talented Chemistry student. Her effort throughout has been highly commendable. Continued dedication towards her studies leading towards the HSC examination should enable her to reach her potential in this subject.

Teacher: Mr G. Krilich

Head Teacher: Ms J. Harrison

Year 12 (HSC) Physics

Course Description

During the Year 12 course, students will acquire knowledge and understanding Advanced Mechanics, Electromagnetism, The Nature of Light and From the Universe to the Atom. They will further develop Working Scientifically Skills in questioning and predicting, planning and conducting investigations, processing and analysing data and information, problem solving and communicating. Through compulsory Depth Studies, completed either individually or collaboratively, students have the opportunity to further develop concepts and pursue interests in Physics.

Course Results

Trial Examination	68%	Trial Examination Average	56%	Trial Examination Rank	14/43
Assessment Task 3	60/100	Assessment Task 3 Average	49/100	Assessment Task 3 Rank	15/43

Cumulative Assessment Rank as at 20/09/19	16/43
--	-------

Course Outcomes

	O	H	S	B	L	N/A
solves scientific problems using primary and secondary data, critical thinking skills and scientific processes		✓				
explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively			✓			
describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world		✓				
explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom		✓				

Social Development and Commitment to Learning

	C	U	S	R		C	U	S	R
Contributes to class discussion		✓			Shows a commitment to course work	✓			
Demonstrates organisational, research and time management skills		✓			Shows respect and positively interacts with peers and teachers	✓			
Punctual to lessons		✓			Works independently and displays initiative		✓		

C = Consistently, U = Usually, S = Sometimes, R = Rarely

Comments and recommendations

Sally is a reliable and punctual student with a positive and serious approach to her studies. She is to be commended on her consistent efforts on all set work. The recent assessment tasks indicate that Sally would benefit from a thorough revision of mechanics to consolidate her knowledge leading up to the HSC examination.

Teacher: Mr D. Taylor

Address: 2 Glenfern Road, Epping, NSW, 2121

Summary

A student still currently completing its high school years.

Able to work to the best of my abilities. A young but mature person who is willing to learn to adapt to the working environment quickly. Being able to work would help me learn how it is like to earn and manage my own money. It would help me improve on becoming a more responsible person. Key strengths including my willingness to learn and develop professionally.

Education

Epping Heights Primary School, Epping, NSW, Australia (2007-2013)

Chatswood High School, Chatswood, NSW, Australia (2014- current)

Currently in Year 11

Employment

- Casually employed at Kumon Burwood Education Centre as a tutor to young children.
- Employed as a Team Member at KFC Macquarie Centre from August 2016 to January 2018. Has dealt with customer difficulties along with learning the importance of being on time and organised and also has been trained to deal with food contamination and cleanliness around the work environment.

Personal Attributions

- **Collaborative Team Member:** Ability to collaborate well with team members. Demonstrated by working with fellow other SRC representatives to achieve our goals together.
- **Honest:** A very honest person. Demonstrated by managing the cash at fundraisers and events at school. Also from selling sausage sizzles at Bunnings from Scouts.
- **Commitment and Dedication:** A very dedicated person. Demonstrated by participating in a musical band for 9 years.

Achievements

- Certified Barista Certificate
- Library monitor, library shelving at school
- An award as one of the highest achiever in Mandarin at school
- SRC
- Distinction in Maths and Science Competitions
- Participated in band since year 3
- Grade 7 Piano AMEB
- Grade 5 Clarinet AMEB
- Involved in High Resolves Program
- Involved in Australian Business Week

Languages

- Fluent in English and Cantonese
