Senior Report Information

Our school reports your child's progress with written reports twice a year and provides ongoing detail through interviews or meetings. Please contact the school to discuss this report and participate in your child's learning and progress with the classroom teacher.

This report is presented without any changes or alterations.

Explanation of Assessment

Outstanding	The student demonstrates extensive knowledge of content and understanding of course concepts, and applies highly developed skills and processes in a wide variety of contexts. In addition the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
High	The student demonstrates thorough knowledge of content and understanding of course concepts, and applies well-developed skills and processes in a variety of contexts. In addition the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
Sound	The student demonstrates sound knowledge of content and understanding of course concepts, and applies skills and processes in a range of familiar contexts. In addition the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
Basic	The student demonstrates a basic knowledge of content and understanding of course concepts, and applies skills and processes in some familiar contexts. In addition the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
Elementary	The student demonstrates an elementary knowledge of content and understanding of course concepts, and applies some skills and processes with guidance. In addition the student demonstrates elementary skills in recounting information and communicating ideas.

Examination Mark Distribution

The shaded area indicates the distribution of marks in the course.

The black dot indicates the average mark in the course.

The open rectangle indicates the student's mark in the task.

It is important that students reflect on their performance and discuss areas for improvement/development with their classroom teacher.

Name: Aditya Mehta
Subject: English (Advanced) - HSC

Class: 12ENA1
Teacher: Tim Bates

Course Description

In Semester 1, students engaged in an exploration of what makes us human and the common experiences we share through the study of the Common Module: Texts and Human Experiences. In their study, they examined how texts represent individual and collective experiences as well as the human qualities and emotions associated with these experiences. Students also engaged in a Critical Study of Literature where they considered the textual integrity, critical perspectives and reception of a substantial literary text. Students developed skills in creative and critical literacy.

Speech Mark Distribution

0	50	100
Speech Mark	Speech Rank	Course Rank
100%	1/157	40/157

Focus Outcomes	O	H	S	B	E
Explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning		✓			
Independently responds to, composes and evaluates complex texts for understanding, interpretation, critical analysis		✓			
Evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued	✓				
Reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills		✓		
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has become more diligent in English this term and has been rewarded with excellent results in his recent assessment task. This was due to planning his approach early and asking questions to refine his understanding. Aditya also submitted a practice response and used this feedback to help edit his work. In future it is important that Aditya engages with this process of writing to prepare for all tasks, especially his revision of '1984' for his Texts and Human Experiences essay.

Penrith Selective High School
Semester 1, 2019

Name: Aditya Mehta
Subject: Mathematics Extension 1a - HSC

Class: 12MX11a
Teacher: Sue Briggs

Course Description

In HSC semester 1, students learnt to use inductive reasoning in the construction of proofs involving Mathematical Induction, Circle geometry and Inequalities. They explored concepts in Binomial Theorem and Series and used these concepts to solve problems including those involving Financial Mathematics. Students also developed their skills in differential and integral Calculus.

Examination Mark Distribution

Examination Mark	Exam Rank	Course Rank
99%	4/64	1/64

Focus Outcomes	O	H	S	B	E
Uses inductive reasoning in the construction of proofs involving circle geometry, inequalities and Mathematical Induction	✓				
Applies appropriate techniques from the study of series and sequences to solve problems	✓				
Applies appropriate techniques in calculus to solve problems	✓				
Uses a variety of strategies to investigate mathematical models and manipulate expressions involving Binomial Theorem	✓				
Uses efficient techniques for the algebraic manipulation required with questions involving polynomials	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya's outstanding results this semester are a testimony to his drive and commitment to his studies. His HSC Extension 1 assessment tasks show that Aditya has an excellent understanding of Polynomials, Circle Geometry, Binomial Theorem and Mathematical Induction. He needs to maintain his momentum and revise a variety of questions and levels of difficulty to maintain these excellent results. Aditya is to be congratulated on these great results.

Name: Aditya Mehta
Subject: Mathematics Extension 2

Class: 12MX22
Teacher: Anju Katyal

Course Description

In Semester 1, students learn to use the relationship between algebraic and geometric representations of complex numbers. They develop techniques for the algebraic manipulation required in dealing with polynomial questions. Students also explored and learnt to choose the most appropriate strategies for determining the important features of graphs for a wide range of functions.

Examination Mark Distribution

Examination Mark	Exam Rank	Course Rank
91%	3/34	6/34

Focus Outcomes	O	H	S	B	E
Uses the relationship between algebraic and geometric representations of complex numbers and of conic sections		✓			
Combines the ideas of algebra and calculus to determine the important features of the graphs of a wide variety of functions	✓				
Uses efficient techniques for the algebraic manipulation required in dealing with questions involving polynomials	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has approached the Extension 2 course of Mathematics with meticulous care and has achieved an outstanding standard in the Semester 1 examination. He stays focused and motivated in class and asks for help when he is unsure. Aditya could further improve his results by maintaining his momentum, consolidating all the topics learned so far and practising examination style questions with a specific focus on complex numbers.

Name: Aditya Mehta
Subject: Chemistry - HSC

Class: 12CHE2
Teacher: Trang Lam

Course Description

In Semester 1, students explored equilibrium reactions and extended their knowledge and understanding with regards to acids and bases. Students engaged in an excursion to Sydney University to learn how to test and measure the concentration of various ions in the environment using a variety of analytical methods. This allowed students to form a hypothesis as part of their Year 12 Depth study, choosing either to conduct a first hand investigation or analyse secondary data and information.

Depth Study Mark Distribution

0			50			100		
Depth Study Mark			Depth Study Rank			Course Rank		
98%			1/61			1/61		

Focus Outcomes	O	H	S	B	E
Develops and evaluates questions and hypotheses for scientific investigation	✓				
Designs and evaluates investigations in order to obtain primary and secondary data and information	✓				
Selects and processes appropriate qualitative and quantitative data and information	✓				
Communicates scientific understanding using suitable language and terminology	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is an industrious student who has demonstrated the ability to work scientifically to solve and investigate problems. He has grown so much since the preliminary year, as he continues to apply himself in every aspect of the coursework. Aditya is committed to excelling and does so by completing questions, seeking help and clarifications and asking pertinent questions. He is encouraged to sustain his efforts for the remainder of the year.

Name: Aditya Mehta
Subject: Physics - HSC

Class: 12PHY2
Teacher: Andrew Nemeth

Course Description

During Semester 1, HSC physics students have studied the two modules Advanced Mechanics and Electromagnetism. In these they have learned about projectile and circular motion and gravitational fields as well as the behaviour of charges in electric and magnetic fields and the application of this to transformers, motors and generators. The students have developed skill in the areas of conducting investigations with primary and secondary sources, processing and analysing data and problem solving. Students have completed a depth study which required consistent application in the development of understanding around a unique topic of their choice.

Depth Study Mark Distribution

0			50			100		
Depth Study Mark			Depth Study Rank			Course Rank		
93%			24/58			24/58		

Focus Outcomes	O	H	S	B	E
Develops and evaluates questions and hypotheses for scientific investigation	✓				
Selects and processes appropriate qualitative and quantitative data and information	✓				
Analyses and evaluates primary and secondary data and information	✓				
Communicates scientific understanding using suitable language and terminology		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has achieved an excellent result for the Physics depth study, continuing a trend of improving his marks in Year 12 Physics. He has demonstrated an aptitude for calculation type problems and often asks questions during and after lessons about how best to solve practical problems. To improve his mark for the remaining assessment tasks, Aditya should ensure he improves his understanding of the Gravitational Motion and Motors and Generators topics.

Name: Aditya Mehta
Subject: Business Studies - HSC

Class: 12BUS3
Teacher: Joel MacRae

Course Description

The key focus of Business Studies is the development of student's ability to analyse situations, assess the key business problems and propose solutions. This semester, students have developed their knowledge, understanding and skills involved in the development and implementation of successful financial strategies as well as the strategies for effective operations management in large businesses. This has enabled them to make judgements about the performance of businesses in a dynamic business environment.

Examination Mark Distribution

Examination Mark	Exam Rank	Course Rank
75%	60/108	83/108

Focus Outcomes	O	H	S	B	E
Evaluates management strategies in response to changes in internal and external influences		✓			
Analyses the impact of management decision making on stakeholders.		✓			
Evaluates the effectiveness of management in a large business		✓			
Communicates business information, issues and concepts in appropriate formats		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner		✓		

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has been working hard to extend his knowledge of course material but has yet to achieve results commensurate to his ability. He has made an improvement in his short response writing but struggles to produce quality business reports. He would benefit from being a more active participant in class discussions as this will further develop his understanding of course concepts, allowing him to complete written responses that contain greater depth.

Year 11 Yearly Report 2018 for Aditya Mehta

Year Adviser's Comment

This excellent report reflects Aditya's drive and talent and he should be very proud of all that he has achieved. He exhibits a mature and focused approach to work and is achieving at a high level across the curriculum. I am particularly impressed by his outstanding results in Mathematics and Mathematics Extension 1. Aditya deserves to be congratulated for completing a very successful year of study at Penrith High.

Senior Report Information

Our school reports your child's progress with written reports twice a year and provides ongoing detail through interviews or meetings. Please contact the school to discuss this report and participate in your child's learning and progress with the classroom teacher.

This report is presented without any changes or alterations.

Explanation of Assessment

Outstanding	The student demonstrates extensive knowledge of content and understanding of course concepts, and applies highly developed skills and processes in a wide variety of contexts. In addition the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
High	The student demonstrates thorough knowledge of content and understanding of course concepts, and applies well-developed skills and processes in a variety of contexts. In addition the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
Sound	The student demonstrates sound knowledge of content and understanding of course concepts, and applies skills and processes in a range of familiar contexts. In addition the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
Basic	The student demonstrates a basic knowledge of content and understanding of course concepts, and applies skills and processes in some familiar contexts. In addition the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
Elementary	The student demonstrates an elementary knowledge of content and understanding of course concepts, and applies some skills and processes with guidance. In addition the student demonstrates elementary skills in recounting information and communicating ideas.

Assessment

The Senior Report indicates performance in their Semester 2 assessment.

Examination Mark Distribution

The shaded area indicates the distribution of marks in the course.

The black dot indicates the average mark in the course.

The open rectangle indicates the student's mark in the course.

It is important that students reflect on their performance and discuss areas for improvement/development with their classroom teacher.

Name: Aditya Mehta
Subject: English (Advanced)

Class: 11ENA1
Teacher: Tim Bates

Course Description

In Semester 2, students further developed their skills in analysing and evaluating. Students explored a range of narratives from the past and contemporary era that illuminate and convey ideas, attitudes and values, making connections between and among texts. Students also critically examined a piece of quality literature, developing an understanding of its distinctive qualities and notion of textual integrity. In their responding and composing, students expressed an informed personal view of quality texts.

Examination Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
B	60/158	90%	36/158

Focus Outcomes	O	H	S	B	E
Thinks critically to respond to and evaluate texts that synthesise complex information, ideas and arguments		✓			
Investigates and evaluates the relationships between texts	✓				
Evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a quiet, dedicated student who, in his recent examinations, demonstrated strong content knowledge and the ability to effectively articulate his ideas. He has worked hard to engage with complex texts this semester and this has been reflected in his results. Aditya should also ensure he engages with the process of submitting work to the classroom teacher for feedback. This will help him to identify areas for improvement and provide strategies to refine his work.

Name: Aditya Mehta
Subject: Mathematics

Class: 11MAT1
Teacher: Sue Briggs

Course Description

In Semester 2, students further develop their skills in the topics of Trigonometry and Coordinate Geometry, including manipulation of the trigonometric identities, solving trigonometric equations and finding the perpendicular distance. They also explored concepts in the topics of Quadratic Functions and Locus, applying appropriate techniques to solve problems. Students developed techniques with First Principles and the rules of differentiation and applied them to solve simple problems.

Examination Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
A	5/133	100%	1/133

Focus Outcomes	O	H	S	B	E
Relates the principle of locus; especially its application to the parabola and solves problems relating to coordinate geometry.	✓				
Understands the algebraic and graphical implication of quadratic functions	✓				
Chooses and applies appropriate techniques in trigonometry	✓				
Determines the derivative of a function using First Principles, basic rules and solves simple problems relating to the first derivative.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a friendly and cooperative student who has made excellent progress in the preliminary Mathematics course. He has consistently put effort into all of his assessment tasks to demonstrate a thorough understanding of the course content and the skills needed to succeed. Aditya achieved an outstanding result in the yearly assessment task. By revising past papers under examination conditions he should be able to maintain these wonderful results.

Name: Aditya Mehta
Subject: Mathematics Extension 1

Class: 11MX11
Teacher: Sue Briggs

Course Description

In Semester 2, students further develop their skills in the topics of Coordinate Geometry, Trigonometry and Euclidean Geometry. They solve problems involving Permutations and Combinations. Students also learn to determine derivatives from First Principles and that require the application of more than one rule of differentiation as well as the geometric application of calculus.

Course Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
A	5/71	49/50	1/71

Focus Outcomes	O	H	S	B	E
Uses the parametric representation together with differentiation to identify geometric properties of parabolas	✓				
Solves problems involving permutations and combinations	✓				
Demonstrates geometric applications and rules of Differential Calculus	✓				
Applies effectively knowledge of Inequalities, Linear Functions and Locus to solve problems.	✓				
Applies appropriate techniques to solve problems involving Trigonometry.	✓				
Applies appropriate techniques from the study of quadratics to solve problems	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is to be commended on these outstanding Preliminary examination results in Mathematics Extension 1. They are a testament to his attitude, work ethic and attention to detail. Aditya works diligently in class at all times and seeks clarification when it is needed. He should be proud of his efforts and achievements in this challenging course thus far. Aditya should continue to achieve at this high level in the HSC course.

Penrith Selective High School
Semester 2, 2018

Name: Aditya Mehta
Subject: Chemistry

Class: 11CHE2
Teacher: Trang Lam

Course Description

In Semester 2, students explored a range of chemical reactions to apply their understanding of the Law of Conservation of Mass. Students learnt about redox reactions to construct galvanic cells, and calculate their potential. Students investigated factors that affect the rate of chemical reactions including temperature, concentration, pressure and catalysts. Enthalpy and entropy were introduced to understand that energy is required to drive any chemical reaction and that some reactions are more spontaneous than others.

Examination Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
B	11/61	83%	12/61

Focus Outcomes	O	H	S	B	E
Designs and conducts a valid experiment to collect first hand data	✓				
Processes and analyses first-hand data and communicates information scientifically	✓				
Describes and applies the mole concept, stoichiometric relationships and gas laws		✓			
Explores different chemical reactions and factors that affect the rate of chemical reactions.	✓				
Analyses energy considerations in the driving force of chemical reactions	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a hardworking student who has consistently performed at a high level in Chemistry. He seeks teacher assistance to consolidate his understanding and further strengthens this with repetition and discussion with his peers. Aditya has improved his ability to solve calculation type problems although he must take care with significant figures. He must remember to review all practical investigations conducted throughout the course as these aspects are also examinable.

Name: Aditya Mehta
Subject: Physics

Class: 11PHY2
Teacher: Andrew Nemeth

Course Description

In Semester 2, students studied Wave and Optical theory, along with Electrical Charges and Circuits. Optics was done using a series of first hand investigations where students learned how to properly draw Ray Diagrams and calculate angles of Reflection and Refraction. Thermodynamics was done as a series of practical calculations to investigate how the thermal properties of materials and fluids can be used to transfer and store heat. During the Electrical Charges topic, students learned about field and charge interactions, in preparation for studying Gravity in Year 12, while at the end of the course Electrical Circuits were studied to observe how theory can be applied to develop everyday technologies.

Examination Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
B	16/61	65%	34/61

Focus Outcomes	O	H	S	B	E
Solves problems using first and secondary data, critical thinking and scientific processes	✓				
Communicates scientific understanding using suitable language and terminology			✓		
Explains and analyses waves and the transfer of energy			✓		
Designs and conducts a valid Depth Study investigation	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities		✓		
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya achieved excellent results for the practical task and Depth Study. He always asks questions to improve his understanding. Aditya does need to address, however, the disappointing result he obtained in the yearly examination. Despite achieving a pleasing score in the multiple choice section, he needs to address weaknesses in his understanding of Vectors, Momentum and graphing appropriate data.

Name: Aditya Mehta
Subject: Business Studies

Class: 11BUS3
Teacher: Joel MacRae

Course Description

Business Studies encompasses the theoretical and practical aspects of business. Conceptually, it offers learning from the planning of a small business to the management of operations, marketing, finance and human resources in large businesses.

Examination Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
A	53/112	91%	37/112

Focus Outcomes	O	H	S	B	E
Describes the factors contributing to the success or failure of small to medium enterprises	✓				
Assesses the processes and interdependence of key business functions	✓				
Examines the application of management theories and strategies	✓				
Plans and conducts investigations into contemporary business issues	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills		✓		
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya's progress in Business Studies has been exceptional. In the final examination, Aditya received an outstanding mark of 91%. This is a significant improvement from earlier in the course and is the result of diligent work by Aditya. In particular, Aditya is very good at improving his skills based on feedback. This is an essential attitude that he is encouraged to continue practising as he moves into the HSC course.

Name: Aditya Mehta
Subject: Studies of Religion

Class: 11SOR5
Teacher: Thomas Hoekstra

Course Description

The aim of the preliminary Studies of Religion course is to promote an understanding and critical awareness of the nature and significance of religion and the influence of belief systems and religious traditions on individuals and within society.

Students study The Nature of Religion and Beliefs and two religious traditions chosen from Buddhism, Hinduism, Christianity, Islam and Judaism. For both of these they study origins, principal beliefs, sacred texts and writings, core ethical teachings and personal devotion in the home.

Course Mark Distribution

Course Grade	Course Rank	Exam Mark	Exam Rank
B	43/102	40/50	26/102

Focus Outcomes	O	H	S	B	E
Describes the characteristics of religion and belief systems		✓			
Identifies the influence of religion and belief systems on individuals and society	✓				
Selects and uses relevant information about religion from a variety of sources		✓			
Effectively communicates information, ideas and issues		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities		✓		
Exhibits well developed organisational skills		✓		
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya displayed very good knowledge of Buddhist sacred texts earlier in the semester and replicated this for both religious traditions in the final examination. Generally his answers would be improved with the inclusion of more relevant detail, which will come with regular revision. Aditya also must work on his multiple choice answer technique to better reflect his understanding of the nature of religion.

Senior Report Information

Our school reports your child's progress with written reports twice a year and provides ongoing detail through interviews or meetings. Please contact the school to discuss this report and participate in your child's learning and progress with the classroom teacher.

This report is presented without any changes or alterations.

Explanation of Assessment

Outstanding	The student demonstrates extensive knowledge of content and understanding of course concepts, and applies highly developed skills and processes in a wide variety of contexts. In addition the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
High	The student demonstrates thorough knowledge of content and understanding of course concepts, and applies well-developed skills and processes in a variety of contexts. In addition the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
Sound	The student demonstrates sound knowledge of content and understanding of course concepts, and applies skills and processes in a range of familiar contexts. In addition the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
Basic	The student demonstrates a basic knowledge of content and understanding of course concepts, and applies skills and processes in some familiar contexts. In addition the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
Elementary	The student demonstrates an elementary knowledge of content and understanding of course concepts, and applies some skills and processes with guidance. In addition the student demonstrates elementary skills in recounting information and communicating ideas.

Assessment

The Senior Report indicates performance in their Semester 1 assessment.

Course Mark Distribution

The shaded area indicates the distribution of marks in the course.

The black dot indicates the average mark in the course.

The open rectangle indicates the student's mark in the course.

It is important that students reflect on their performance and discuss areas for improvement/development with their classroom teacher.

Name: Aditya Mehta
Subject: English (Advanced)

Class: 11ENA1
Teacher: Tim Bates

Course Description

In Semester 1, students developed the skills and knowledge necessary to appreciate, understand, analyse and evaluate how and why texts convey complex ideas. Students developed their capacity to respond perceptively to texts through their own considered and thoughtful writing and judicious reflection on their skills and knowledge as writers. Students developed their creative literacy skills through drafting and refining a narrative which developed insights into the world around them.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
80%	69/158	80%	69/158

Focus Outcomes	O	H	S	B	E
Analyses and uses language forms, features and structures of texts considering appropriateness for specific purposes, audiences and contexts		✓			
Reflects on, evaluates and monitors own learning and adjusts individual and collaborative processes to develop as an independent learner		✓			
Strategically uses knowledge, skills and understanding of language concepts and literary devices in new and different context		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner		✓		

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has been making good progress through the English course this semester. However, he doubts himself too much. Aditya needs to focus less about whether his work will be good enough and instead just start planning and writing sooner. Through experimenting with his writing and how he could present his ideas he will be able to build his self confidence. With Aditya implementing this mindset and submitting future pieces for teacher feedback he should improve.

Name: Aditya Mehta
Subject: Mathematics

Class: 11MAT1
Teacher: Sue Briggs

Course Description

In semester 1, students developed their skills in arithmetic and algebraic manipulation involving surds, rational expressions, factorising and solving equations. They explored concepts of a function and the relationship between a function and its graph, domain and range, solved simple trigonometric equations, used exact values and solved problems involving trigonometry.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
91%	19/133	91%	19/133

Focus Outcomes	O	H	S	B	E
Applies different methods of factorisation and manipulates equations effectively.	✓				
Applies the definition of a function to determine domain and range, and sketch graphs.	✓				
Solved problems in Trigonometry using exact values and solved basic trigonometric equations	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has achieved a wonderful result in the recent two unit Mathematics examination. He is an enthusiastic and industrious student who shows an excellent understanding of the concepts, skills and course outcomes taught in algebra, arithmetic, functions and trigonometry. Aditya is a respectful student who works diligently in class at all times. Aditya is to be commended on his efforts thus far and encouraged to continue the momentum.

Name: Aditya Mehta
Subject: Mathematics Extension 1

Class: 11MX11
Teacher: Sue Briggs

Course Description

In semester 1, students further develop their skills in arithmetic and algebraic manipulation, solving inequalities involving unknown in the denominator. They also explore concepts in the Trigonometry topic, including trigonometric identities, solving trigonometric equations and problems involving 3D trigonometry.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
41/50	17/72	41/50	17/72

Focus Outcomes	O	H	S	B	E
Applies the definition of a function to determine domain and range, and sketch graphs.	✓				
Applies appropriate techniques from the study of trigonometry to solve problems.	✓				
Inequalities and Regions		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a diligent and cooperative student who contributes positively to class discussions. He has demonstrated an excellent work ethic in class and has worked copiously throughout the first term. To help Aditya improve upon this very pleasing result, he should take more care when completing solutions to avoid making careless errors and complete more questions on three dimensional trigonometry and solving harder algebraic equations/inequalities and equations involving absolute values.

Name: Aditya Mehta
Subject: Chemistry

Class: 11CHE2
Teacher: Trang Lam

Course Description

Students have built upon their stage 5 chemistry to understand the properties of atoms and the contributions of key scientists including Bohr and Schrodinger in understanding atomic structure and electron configuration of elements. They have observed trends in the Periodic Table and are able to explain these observations scientifically. Students have conducted a range of first hand investigations to collect qualitative and quantitative data, which include determining densities of substances, gravimetric analysis, emission spectra and flame tests. Students have engaged in conducting an individual depth study, focusing on the concept of energy in substances.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
80%	23/61	80%	23/61

Focus Outcomes	O	H	S	B	E
Conducts investigations to collect valid and reliable primary and secondary data and information.			✓		
Analyses and evaluates primary and secondary data and information		✓			
Selects and processes qualitative and quantitative data and information	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner		✓		

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has made a good start to the preliminary course. He has engaged with his Depth Study task and is developing his skills in working scientifically. Aditya has shown an appreciation towards the need to reflect upon his methods and modify his design accordingly. He should review his understanding of accuracy, validity and reliability. Aditya is able to solve questions involving density of substances but more exposure to mole calculations is required to build his confidence.

Name: Aditya Mehta
Subject: Physics

Class: 11PHY2
Teacher: Andrew Nemeth

Course Description

Students have developed their knowledge and understanding about motion of objects in a straight line and on a plane. This was facilitated through practical experimentation and the manipulation of physics formulae. Students used vector diagrams and a range of mathematical modelling and graphs, to enhance their skill in analysing and deriving relationships between time, distance, displacement, velocity and acceleration. Students have engaged in working scientifically to hypothesize, plan and conduct an investigation of their choice for their Independent Depth Study.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
93%	19/61	93%	19/61

Focus Outcomes	O	H	S	B	E
Conducts investigations to collect valid and reliable data	✓				
Analyses and evaluates primary data	✓				
Communicates scientific understanding using specific science terminology			✓		

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills		✓		
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has done good quality work during the semester and consequently achieved over 90% in the practical assessment task. He works well during lessons, has demonstrated an enthusiasm for the subject and a willingness to ask questions to improve his understanding of physics concepts. Also to be commended is his persistence and creativity when refining the practical component of his Depth Study. Aditya does need to address, however, his weakness with drawing graphs and vector diagrams.

Name: Aditya Mehta
Subject: Business Studies

Class: 11BUS3
Teacher: Joel MacRae

Course Description

The key focus of Business Studies is the development of student's ability to analyse business situations, assess key problems and propose appropriate solutions. This semester, students have focused on understanding the role and nature of business in a changing business environment. This has enabled students to make judgements about the performance of businesses and communicate business information in appropriate formats.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
77%	81/112	77%	81/112

Focus Outcomes	O	H	S	B	E
Discusses the nature of business, its role in society and types of business structure	✓				
Explains the internal and external influences on businesses		✓			
Analyses the responsibilities of business to internal and external stakeholders		✓			
Evaluates information for actual and hypothetical business situations		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya has demonstrated a thorough knowledge of the Nature of Business topic. He is a diligent, hardworking student and is an active participant in class discussion. Aditya consistently strives to achieve his best and is to be commended on his efforts. To further improve, Aditya should practise writing using business report format and focus specifically on responding to the directive term, the depth of content being addressed and the integration of the stimulus provided.

Name: Aditya Mehta
Subject: Studies of Religion

Class: 11SOR5
Teacher: Thomas Hoekstra

Course Description

The aim of the preliminary Studies of Religion course is to promote an understanding and critical awareness of the nature and significance of religion and the influence of belief systems and religious traditions on individuals and within society. Students study The Nature of Religion and Beliefs and two religious traditions chosen from Buddhism, Hinduism, Christianity, Islam and Judaism. For both of these they study origins, principal beliefs, sacred texts and writings, core ethical teachings and personal devotion in the home.

Examination Mark Distribution

Course Mark	Course Rank	Exam Mark	Exam Rank
41/50	47/102	41/50	47/102

Focus Outcomes	O	H	S	B	E
Describes the characteristics of religion and belief systems	✓				
Identifies the influence of religion and belief systems on individuals and society	✓				
Selects and uses relevant information about religion from a variety of sources		✓			
Effectively communicates information, ideas and issues		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

This is a pleasing result from a highly enthusiastic class participant. Aditya is a very motivated and conscientious student who consistently makes very perceptive and mature contributions to class discussion. He could further improve his examination results by ensuring that all aspects of the question are covered in his responses. Aditya is making very pleasing progress overall.

Senior Report Information

Our school reports your child's progress with written reports twice a year and provides ongoing detail through interviews or meetings. Please contact the school to discuss this report and participate in your child's learning and progress with the classroom teacher.

This report is presented without any changes or alterations.

Explanation of Assessment

Outstanding	The student demonstrates extensive knowledge of content and understanding of course concepts, and applies highly developed skills and processes in a wide variety of contexts. In addition the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
High	The student demonstrates thorough knowledge of content and understanding of course concepts, and applies well-developed skills and processes in a variety of contexts. In addition the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
Sound	The student demonstrates sound knowledge of content and understanding of course concepts, and applies skills and processes in a range of familiar contexts. In addition the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
Basic	The student demonstrates a basic knowledge of content and understanding of course concepts, and applies skills and processes in some familiar contexts. In addition the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
Elementary	The student demonstrates an elementary knowledge of content and understanding of course concepts, and applies some skills and processes with guidance. In addition the student demonstrates elementary skills in recounting information and communicating ideas.

Assessment

The Senior Report indicates performance in their course.

It is important that students reflect on their performance and discuss areas for improvement/development with their classroom teacher.

Penrith Selective High School
Semester 2, 2019

Name: Aditya Mehta
Subject: English (Advanced)

Class: 12ENA1
Teacher: Tim Bates

Course Description

In Semester 2, students have continued their study of the English (Advanced) course in preparation for the Higher School Certificate, completing their study of all course content. This semester, students have engaged in the exploration of a pairing of texts and their contexts as well as an in depth, critical study of a quality piece of literature. Students have further developed their skills in analysing and evaluating texts. As well as developed their personal voice and ability to compose increasingly sophisticated critical compositions under examination conditions.

Examination Mark Distribution

0	50	100
Examination Mark	Exam Rank	Course Rank
78%	75/157	46/157

Focus Outcomes	O	H	S	B	E
Strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts	✓				
Critically analyses and uses language forms, features and structures justifying appropriateness for purposes, audiences and contexts and evaluates their effects on meaning		✓			
Investigates and evaluates the relationships between texts		✓			
Thinks imaginatively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex ideas	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a conscientious young man who has made steady progress this semester in English. He asks questions both in and after class to help refine his understanding of key concepts. Aditya needs to continue this positive attitude by reflecting on the markers' feedback to allow him to plan his study between now and the HSC. By focusing on key sections of the English paper he should be able to efficiently maximise his time to better prepare for the HSC.

Penrith Selective High School
Semester 2, 2019

Name: Aditya Mehta
Subject: Mathematics Extension 1

Class: 12MATx1
Teacher: Sue Briggs

Course Description

In HSC Semester 2, students learnt to use the relationships between functions, inverse functions and their derivatives. They also applied the chain rule to problems including those involving velocity and acceleration as functions of displacement. Students develop a variety of strategies to investigate mathematical models of situations involving series, projectiles, probability, rates of change and exponential growth and decay.

Examination Mark Distribution

		
Examination Mark	Exam Rank	Course Rank
97%	3/63	2/63

Focus Outcomes	O	H	S	B	E
Seeks to apply mathematical techniques to problems in a wide range of practical contexts	✓				
Applies appropriate techniques in calculus to solve problems including trigonometric, logarithmic and exponential functions.	✓				
Applies The Principles of Mathematical Induction and solves problems in series and sequences.	✓				
Uses relationships between functions, inverse functions and their derivatives and solves Trigonometric problems.		✓			
Solves problems involving probability using arrangements and binomial theory.	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is an industrious and enthusiastic student who always strives to do his best in every situation. He produces high quality work and is motivated to do well and continually improve upon his mathematics. Aditya achieved 100% in the sections of Calculus, probability, series and the preliminary topics in the Trial HSC examination. He has been a pleasure to teach for the last two years and Aditya will succeed at whatever task he puts his mind to.

Penrith Selective High School
Semester 2, 2019

Name: Aditya Mehta
Subject: Mathematics Extension 2

Class: 12MX22
Teacher: Anju Katyal

Course Description

In HSC Semester 2, students learnt to use the techniques of slicing and cylindrical shells to determine volumes. They develop techniques of integration, including partial fractions, integration by parts and recurrence formulae. Students derived the method for determining the equations for resisted motion. Students also explored and chose the appropriate strategies for the algebraic manipulation and techniques required in dealing with questions such as those involving conic sections, complex numbers, polynomials and resisted motion.

Examination Mark Distribution

0	50	100
Examination Mark	Exam Rank	Course Rank
88%	13/34	9/34

Focus Outcomes	O	H	S	B	E
Chooses appropriate strategies to construct arguments and proofs in both concrete and abstract settings		✓			
Uses the relationship between algebraic and geometric representations of complex numbers		✓			
Explores properties of conic sections and solves related problems.		✓			
Derives equations and represents physical situations of the motion of a particle.			✓		
Finds volumes using either the methods of slicing, washers or cylindrical shells.		✓			

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities	✓			
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a highly motivated student who has demonstrated his ability to think logically and work mathematically. He has achieved results to a high standard in the Semester 2 assessment tasks. His application and determination has enabled him to achieve these excellent grades. Aditya could continue improving his results in the future by maintaining his momentum. I commend him for all the effort he has put into his Extension 2 Mathematics lessons.

Penrith Selective High School
Semester 2, 2019

Name: Aditya Mehta
Subject: Chemistry

Class: 12CHE2
Teacher: Trang Lam

Course Description

In Semester 2, students explored chemical equilibria and acid-base reactions. They developed their skills in working scientifically to quantitatively analyse solutions of acids/bases and ions in water samples. Students delved into organic chemistry to observe and explain the properties of a range of organic compounds and their uses. Students also assessed the importance of monitoring and managing chemicals produced in industry. The content covered allows students to understand the application of chemistry concepts in real life situations.

Examination Mark Distribution

0	50	100
Examination Mark	Exam Rank	Course Rank
76%	26/58	10/58

Focus Outcomes	O	H	S	B	E
Explains the characteristics of equilibrium systems and factors affecting these systems			✓		
Describes, explains and quantitatively analyses acids and bases		✓			
Analyses the structure of, and predicts reactions involving, carbon compounds				✓	
Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes		✓			
Analyses primary and secondary data and information	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities	✓			
Exhibits well developed organisational skills	✓			
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning	✓			
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a self motivated student who often seeks clarification and takes on advice from the teacher. He has highly developed skills in working scientifically which is evident through his depth study and practical assessment task. Analysis of the trial examination illustrates that Aditya is skilled in solving problems but needs work on structuring his extended responses and also avoid making silly mistakes during examinations, taking care to read questions carefully.

Name: Aditya Mehta
Subject: Physics

Class: 12PHY2
Teacher: Andrew Nemeth

Course Description

In Semester 2, physics students have studied about electromagnetism, the nature of light and theories of the universe. They have conducted a range of investigations to explore the historical development of ideas and used mathematical modelling to make scientific predictions.

Examination Mark Distribution

		
0	50	100
Examination Mark	Exam Rank	Course Rank
79%	18/57	18/57

Focus Outcomes	O	H	S	B	E
Describes and analyses qualitatively and quantitatively circular motion and motion in gravitational field.			✓		
Explains and analyses the electric and magnetic interactions due to charged particles and current and evaluates their effect		✓			
Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes		✓			
Communicates scientific understanding using suitable language and terminology for a specific audience or purpose		✓			
Analyses and evaluates primary and secondary data and information	✓				
Conducts investigations to collect valid and reliable primary and secondary data and information	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities		✓		
Exhibits well developed organisational skills		✓		
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning		✓		
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner		✓		

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a highly reflective student who often asks questions to clarify his understanding. He is advised to go through as many relevant past HSC questions as he can to recognise commonly asked questions and concepts. These should be submitted for review and feedback. Aditya should also pay particular attention to revising the Electromagnetic waves, Lenz's Law and Electrical Field topics, as well as ensuring he improves his multiple choice answer technique.

Penrith Selective High School
Semester 2, 2019

Name: Aditya Mehta
Subject: Business Studies

Class: 12BUS3
Teacher: Joel MacRae

Course Description

Business Studies is distinctive in that it encompasses the theoretical and practical aspects of business. It offers learning from the planning of a small business to the management of operations, marketing, finance and human resources in large businesses.

Examination Mark Distribution

		
0	50	100
Examination Mark	Exam Rank	Course Rank
80%	57/104	51/104

Focus Outcomes	O	H	S	B	E
Analyses the impact of management decision making on stakeholders.	✓				
Evaluates the effectiveness of management in a large business	✓				
Organises and evaluates information for actual and hypothetical business situations	✓				
Applies mathematical concepts appropriately in business situations	✓				

O = Outstanding, H = High, S = Sound, B = Basic, E = Elementary

Commitment to Learning and Social Development	A	C	I	R
Displays diligence in the completion of tasks and activities		✓		
Exhibits well developed organisational skills		✓		
Produces quality work in tasks and activities		✓		
Shows a commitment to personal learning		✓		
Shows consideration and respect for others	✓			
Shows initiative and motivation as an independent learner	✓			

A = Always, C = Consistent, I = Inconsistent, R = Rarely

Teacher Comment:

Aditya is a mature student who has demonstrated a thorough knowledge and understanding of all facets of the Business Studies course. His trial HSC result was a solid result but showed areas where he can improve, namely incorporating stimulus material where required and effective writing techniques for short response answers. Aditya has worked consistently throughout the course and should continue to focus his preparation for the HSC on improving his examination writing techniques.
