Visit one of our Service Centres.

Note: Local business hours of operation may apply.

Your reference number is 205 572 540C

Your child's immunisation requirements

A fortnightly reduction of up to \$28.84 per fortnight is applied to the rate of Family Tax Benefit Part A for children that do not meet the immunisation requirements.

For financial years before 2018-2019, immunisation requirements must be met to be eligible for the Family Tax Benefit Part A supplement.

We will check if a child meets the immunisation requirements using the details held on the Australian Immunisation Register.

For more information about immunisation requirements including how to check your child's status and links to the Australian Immunisation Register, please go to **humanservices.gov.au/immunisation**

When to contact us

Under family assistance law, you must tell us about events that may affect your payments as soon as possible after any of these things happen or you become aware that they are likely to happen.

About your family's income

You need to tell us about any changes to your and/or your partner's income as soon as possible. This is important because your and/or your partner's income will be checked with the Australian Taxation Office at the end of each financial year to make sure you have been paid the right amount.

Your Family Tax Benefit may be automatically adjusted when your income changes, helping to avoid or reduce overpayments.

The income details you must tell us about include changes to your or your partner's:

- taxable income including income from salary and wages, lump sum payments, business or self employment, investments and real estate, taxable government pensions and benefits and other taxable income
- reportable fringe benefits
- reportable superannuation contributions
- total net investment losses
- tax free government pensions and benefits
- foreign income
- child support you pay
- tax exempt foreign income.

Important Note: if your salary or wage is paid weekly or fortnightly, the number of individual paydays in a financial year can vary. You need to know this when you estimate your income to avoid being overpaid and should check with your employer if you are unsure.

If you receive **Family Tax Benefit Part B** and you are a member of a couple, you must tell us if the primary earner's annual income goes over \$100,000.00 or the lower earner's annual income changes. This includes any income support payments such as Parenting Payment Partnered or Newstart Allowance.

There are different notification requirements for income support payments. If you or your partner receive an income support payment and you have a change in income, you will need to update your income details for that payment too.

If you are a sole parent and your income is \$100,000.00 or less, you will automatically be paid at the full rate of **Family Tax Benefit Part B**. If your income is more than this amount, you will not receive any **Family Tax Benefit Part B**.

Your payments may stop

If you receive Family Tax Benefit fortnightly your payments will be stopped if you and/or your partner:

- do not lodge your tax return/s or advise us that you are not required to, and
- have an outstanding non-lodger debt as a result.

This will apply to any tax returns you and/or your partner have not lodged for financial years during which you received Family Tax Benefit. If you have repaid outstanding non-lodger debts for these particular financial years your payments will not be affected.

Should you and/or your partner receive further non-lodger debts, your family assistance payments may be stopped. You and/or your partner will not be eligible for family assistance payments until these debts have been repaid or the outstanding tax returns are lodged with the Australian Taxation Office.

If you underestimate your income, you may have been paid too much, and you will be asked to repay excess amounts after the end of the financial year. If you underestimate your income for two consecutive financial years and have no entitlement when your payments are balanced, you will no longer be able to receive Family Tax Benefit as fortnightly instalments.

You must also tell us if you:

- start to receive child support or the amount of child support that you receive changes
- cannot collect the full amount of child support that you are entitled to receive - you should also call us on 131 272 to discuss your collection options
- become or stop being an Australian resident
- leave Australia, even for a short time or return to Australia
- become partnered, separate from your partner or your partner passes away. For more information, go to **humanservices.gov.au/moc**
- stop paying rent or the amount you pay changes
- move into Government housing
- change address
- change the account your payment is sent to
- have a dependent child aged 16 years of age or over who stops full-time secondary study
- start to share the care of any of your children with another adult
- or your partner returns to work after having a baby or caring for a child, as you may be entitled to the maximum rate of Family Tax Benefit Part B for the period of the current financial year before returning to work.

You must tell us if a child for whom you are receiving Family Tax Benefit:

- stops living with you, can no longer be considered your dependant or passes away
- is planning to leave Australia (tell us as soon as you know)
- returns to Australia
- becomes or stops being an Australian resident
- is not an Australian resident and no longer lives with you
- receives an income support payment or a Prescribed

- Educational Scheme payment such as ABSTUDY stops full-time secondary study and is 16 years of age or over, or
- is prevented from being in your care without your consent.

You must also tell us if the level of shared care you provide for this child changes.

Family Tax Benefit child over 16 years of age

A young person **16 years of age and over** is a dependant if they are in your care at least 35 per cent of the time, does not receive an income support payment and is:

- **for Family Tax Benefit Part A;** studying full-time towards a Year 12 or equivalent qualification up until the end of the calendar year in which they turn 19 years of age.
- **for Family Tax Benefit Part B if you are a single parent or grandparent carer;** in full-time secondary study up until the end of the calendar year in which they turn 18 years of age.

What to do if you think this decision is wrong

If you do not agree with a decision we have made

- Contact us so we can check the details and explain the decision.
- Contact us and ask for a review of the decision. We will change it if it is wrong.
- Contact the Administrative Appeals Tribunal (AAT) if you do not agree with the review officer's decision.
- If you do not agree with the decision of the AAT you may be able to appeal further. For more information about the AAT, please go to **aat.gov.au**

All of the above are free of charge.

If you do not agree with a decision we have made, contact us as soon as possible. It is important to ask for a review **within 52 weeks** of being notified about the decision. If your request for a review is more than 52 weeks after being notified and the decision can be changed, you may only receive your entitlement from the date you requested the review.

There is no time limit for a review of a decision about money you owe us. However you may have to pay back the money while the decision is being reviewed.

Privacy and your personal information

Your personal information is protected by law (including the *Privacy Act 1988*) and is collected by the Australian Government Department of Human Services for the assessment and administration of payments and services. This information is required to process your application or claim.

Your information may be used by the department, or given to other parties where you have agreed to that, or where it is required or authorised by law (including for the purposes of research or conducting investigations).

You can get more information about the way in which the department will manage your personal information, including our privacy policy at **humanservices.gov.au/privacy**

To make a complaint or give us feedback

We aim to resolve your concerns as quickly as possible. If you want to make a complaint or give us feedback you can:

- call our feedback and complaints line on **1800 132 468**
- go to **humanservices.gov.au/feedback** for other options.

If we are not able to resolve your complaint to your satisfaction, you can contact the Commonwealth Ombudsman by going to their website **ombudsman.gov.au** or calling them on **1300 362 072**.

Data matching

Information provided by you to us may be used for data matching with other government agencies to detect and prevent incorrect payments and fraud.

MR MICHAEL VO
9 BATHURST STREET GREYSTANES NSW

P01A: PERSONAL ILLNESS/DISABILITY

ADDITIONAL DOCUMENTATION REQUIRED - LEARNING DISABILITY (LD) ONLY

- If you applied for and were granted disability provisions by the NSW Education Standards Authority (NESA) (or interstate equivalent), provide NESA's disability provisions decision notification along with any documentation submitted to NESA.
- If you did not apply for disability provisions, you must explain why in the Applicant Statement, and attach evidence of a clinical assessment conducted by a qualified professional such as an educational psychologist, neuro-psychologist or learning disability specialist using recognised valid, reliable and standardised tests. These must have been undertaken within the last three years.

APPLICANT STATEMENT

1. What is your medical condition/disability?

Autism/Asperger's / Chronic Hepatitis B

2. Describe the nature and impact of your medical condition/disability.

Autism/Asperger's reduces my ability to concentrate or focus on one thing. It is difficult to use language because of my condition or easily express myself. It can take a long time to figure out how to express myself. I find it hard to effectively communicate with others. Chronic Hepatitis B causes loss of app appetite and difficulty eating. I often have issues with nausea as a result of the condition.

3. Provide details of the period you've had your medical condition/disability and the school years involved.

I have ~~been~~ been affected by the condition for the duration of my life, affecting all my school years.

4. Provide details of any treatment you've received, or are receiving, for your medical condition/disability.

No treatment

5. Describe the effects of your condition/disability on your educational performance.

The reduced ability to concentrate causes difficulty in completing exams and assignments and studying. It is difficult to devote my time to important tasks and I am easily distracted or side-tracked. My difficulty in language and expression means written tasks and responses are difficult to complete and my take longer to complete and are often not to a desired standard. I may take significantly longer to be able to respond with language than others and my performance is impacted by this. As I cannot effectively communicate with others, it is hard to ask for help when required, and working in a group for group tasks or in assessment is hard. Perseverance are extremely difficult with this condition, and have performance in assessments requiring them is limited. Difficulty eating means regular meals can take significantly longer sometimes up to over an hour reducing remaining time for study.

6. If you have any other information specific to this claim that may inform our assessment, please provide details.

MR MICHAEL VO
9 BATHURST STREET GREYSTANES NSW

P01A: PERSONAL ILLNESS/DISABILITY

EDUCATIONAL IMPACT STATEMENT

To be completed by the school or a responsible person.

- Have you identified an impact of the circumstances described by the applicant, on their educational performance?
☐ Yes ☐ No
- If yes, indicate the impact of the applicant's circumstances on their educational performance by ticking (/) the appropriate box.
☐ Extreme ☒ Considerable ☐ Moderate ☐ Slight
- What was the duration of the educational disadvantage?

17	6
Years	Months

Put a dash (-) in any unused boxes

- Please provide details of the educational impact.
Michael's Autism / Aspergers has a major impact on his expressive language. While Michael possesses the skills he has difficulty under pressure of examination groups, public speaking or timed tasks. This reduces his outcomes in assessments as they are time pressure situation. Michael's concentration is affected. His executive functioning takes longer than a student without this condition. This impacts especially on in class assessments and examinations. The communication barriers also slow Michael's progress and can lead to a stall in his learning. He is unable to articulate his difficulties. Social difficulties and difficulty in inferring context also impact significantly on Michael's learning. His difficulties are compounded by his wpc.

Details of person completing the Educational Impact Statement

Name (print) Steven Dewhurst Position/occupation Careers Adviser
Name of organisation (if applicable) Greystanes High School
Address Beresford Rd Greystanes State NSW Postcode 2145
Daytime telephone 02 9631 5144 Alternative telephone 0425 276 893
Signature [Signature] Date 19/09/201

MR MICHAEL VO
9 BATHURST STREET GREYSTANES NSW

P01A: PERSONAL ILLNESS/DISABILITY**MEDICAL IMPACT STATEMENT**

To be completed by registered health professional

1. List the condition/disability affecting the applicant.

Autism / Asperger's / Chronic hepatitis B

2. How long has the applicant been affected by the long-term medical condition/disability?

☐ Less than 6 months ☐ 6-11 months ☐ 1-2 years ☒ More than 2 years

3. How many times have you seen the applicant during the past two years specifically about the medical condition/disability.

~ 2 times

4. Describe the nature and duration of any treatment for the medical condition/disability.

Reduced ability to concentrate / difficulty in expressive communication

5. Describe the ways in which the applicant's long-term medical condition/disability and/or treatment has affected their educational performance.

Difficulty completing exams / assignments due to reduced concentration
severely distractible / difficulty in expressive writings etc
Poor Expendable / difficult study behaviour

6. Indicate the impact of the applicant's circumstances on their educational performance by ticking (✓) the appropriate box.

☐ Not at all ☐ Slight ☐ Moderate ☐ Considerable ☒ A great deal

ASSESSMENT OF ACHIEVEMENT

This report shows how well your child is achieving course outcomes.

- A Outstanding Achievement:** The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to a new situation.
- B High Achievement:** The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge these skills in most situations.
- C Sound Achievement:** The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
- D Basic Achievement:** The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
- E Limited Achievement:** The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in the processes and skills.
- UA Unable to Assess:** The student may not be able to be assessed due to a number of reasons. These may include recent arrival to the school, ongoing medical absence or outcome not yet taught.

This Report is issued without erasure.

GREYSTANES HIGH SCHOOL

HSC Student Report

Semester 2 - 2019

Name: Michael VO

Year: 12

House Group: G02

Course: English Advanced

Unit Description:

In the HSC English (Advanced) course, students analyse and evaluate texts, and the ways they are valued in their contexts. The course requires the study of at least Five types of texts, one drawn from each of the following categories: Shakespearean drama; prose fiction; poetry; drama or film; nonfiction or media or multimedia.

AREA OF LEARNING	ACHIEVEMENT					
Course Outcomes	A	B	C	D	E	UA
Developed language relevant to the study of English			✓			
Demonstrated knowledge and understanding of the ways language forms and features and the structure of texts shape meaning			✓			
Demonstrated an ability to respond to and compose a range of complex texts			✓			
Demonstrated an ability to effectively communicate for a variety of purposes			✓			
Drew upon the imagination to transform experience into text			✓			
Developed skills in reflection of their own processes of composing, responding and learning			✓			

Positive Behaviour for Learning (PBL) Values									
Respect & Responsibility	C	U	I	R	Active Learning	C	U	I	R
Listened attentively and followed instructions		✓			Worked cooperatively	✓			
Interacted well with teachers and students	✓				Completed tasks in class	✓			
Demonstrated organisational abilities	✓				Motivated to work independently		✓		
Required equipment brought to class	✓				Completed homework promptly	✓			

C = Consistently, U = Usually, I = Irregularly, R = Rarely

Adjusted Examination Mark	58/100	Adjusted Examination Average	65/100	Examination Rank	29/40	Cumulative Assessment Rank	28/40
----------------------------------	--------	-------------------------------------	--------	-------------------------	-------	-----------------------------------	-------

Teacher Comment:

Michael worked towards writing more sustained and complete responses in all sections of his examinations this semester. He demonstrated his ability to analyse unseen texts during his Trial Examination and identified various elements used by composers to shape meaning. Michael must work towards consistently producing sustained responses under examination conditions. He is encouraged to craft responses in advance and then shape these to meet the demands of the question as this will assist him with his time management in the lead up to his final HSC Examination.

Teacher D. Dolz

GREYSTANES HIGH SCHOOL

HSC Student Report

Semester 2 - 2019

Name: Michael VO

Year: 12

House Group: G02

Course: Information Processes & Technology

Unit Description:

The key focus of the Information Processing and Technology course is the development of information systems that meet the needs of users. Information systems consist of users, processes, data and technology. The technology involved includes hardware and software as well as non-computer technology. Data includes text, numeric data, images, audio and video. The information system performs the processes of collecting, organising, analysing, storing and retrieving, processing, transmitting/receiving and displaying. The social and ethical issues involved with the use and development of information systems is considered throughout the course.

AREA OF LEARNING	ACHIEVEMENT					
Course Outcomes	A	B	C	D	E	UA
Applied an understanding of the nature and function of information technologies to a specific practical situation		✓				
Analysed and described a system in terms of the information processes involved		✓				
Demonstrated ethical practice in the use of information systems, technologies and processes		✓				
Implemented effective management techniques using methods to thoroughly document the development of individual projects		✓				

Positive Behaviour for Learning (PBL) Values									
Respect & Responsibility	C	U	I	R	Active Learning	C	U	I	R
Listened attentively and followed instructions	✓				Worked cooperatively	✓			
Interacted well with teachers and students	✓				Completed tasks in class	✓			
Demonstrated organisational abilities	✓				Motivated to work independently	✓			
Required equipment brought to class	✓				Completed homework promptly	✓			

C = Consistently, U = Usually, I = Irregularly, R = Rarely

Adjusted Examination Mark	87/100	Adjusted Examination Average	60/100	Examination Rank	1/16	Cumulative Assessment Rank	7/16
----------------------------------	--------	-------------------------------------	--------	-------------------------	------	-----------------------------------	------

Teacher Comment:

Michael's performance in Information Processes and Technology has improved as the course progressed. He has demonstrated a high level of understanding of the theoretical aspects of this course through his project work and Trial HSC Examination results. Michael would benefit from continuously practising past examination papers to prepare for the HSC Examination.

Teacher M. Zia

GREYSTANES HIGH SCHOOL

HSC Student Report

Semester 2 - 2019

Name: Michael VO

Year: 12

House Group: G02

Course: Investigating Science

Unit Description:

This course focused on the development of the knowledge, understanding and skills of scientific processes. Students were provided with opportunities to engage in scientific inquiry to make observations, ask questions, gather data and draw conclusions about the world around them. They explored the relationship between Science and technology and how science can be used for human progress and development. The course contributed to students' understanding of the role of Science in our world as well as developed students' skills in problem-solving and communicating ideas and information.

AREA OF LEARNING	ACHIEVEMENT					
Course Outcomes	A	B	C	D	E	UA
Demonstrated knowledge and understanding of the applications and uses of science and their implications for society and the environment		✓				
Conducted investigations, analysed their validity and reliability and gathered and processed first hand data	✓					
Communicated information effectively and developed scientific thinking and problem solving techniques		✓				
Selected, processed and evaluated secondary data and information	✓					

Positive Behaviour for Learning (PBL) Values									
Respect & Responsibility	C	U	I	R	Active Learning	C	U	I	R
Listened attentively and followed instructions	✓				Worked cooperatively	✓			
Interacted well with teachers and students	✓				Completed tasks in class	✓			
Demonstrated organisational abilities	✓				Motivated to work independently	✓			
Required equipment brought to class	✓				Completed homework promptly	✓			

C = Consistently, U = Usually, I = Irregularly, R = Rarely

Adjusted Examination Mark	81/100	Adjusted Examination Average	60/100	Examination Rank	2/29	Cumulative Assessment Rank	2/29
----------------------------------	--------	-------------------------------------	--------	-------------------------	------	-----------------------------------	------

Teacher Comment:

Michael extensively designed and planned investigations to obtain accurate data and demonstrated thorough knowledge and understanding of scientific concepts. He communicated scientific understanding effectively using correct scientific terms. Michael's results reflect his consistent application and determination throughout the course. He will become more familiar with the style of questioning in the HSC with continued revision of practice papers.

Teacher K. Scanes

GREYSTANES HIGH SCHOOL

HSC Student Report

Semester 2 - 2019

Name: Michael VO

Year: 12

House Group: G02

Course: Mathematics Advanced

Unit Description:

The Mathematics 2 Unit course is focused on enabling students to appreciate that Mathematics is a unique and powerful way of viewing the world to investigate order, relation, pattern, uncertainty and generality. The course provides students with the opportunity to develop ways of thinking in which problems are explored through observation, reflection and reasoning.

AREA OF LEARNING	ACHIEVEMENT					
Course Outcomes	A	B	C	D	E	UA
Constructed arguments to prove and justify results	✓					
Manipulated algebraic expressions involving logarithmic and exponential functions	✓					
Expressed practical problems in mathematical terms based on simple given models	✓					
Applied appropriate techniques from the study of calculus, geometry, probability, trigonometry and series to solve problems	✓					
Used the derivative to determine the features of the graph of a function	✓					
Used the features of a graph to deduce information about the derivative	✓					
Used techniques of integration to calculate areas and volumes	✓					

Positive Behaviour for Learning (PBL) Values									
Respect & Responsibility	C	U	I	R	Active Learning	C	U	I	R
Listened attentively and followed instructions	✓				Worked cooperatively	✓			
Interacted well with teachers and students	✓				Completed tasks in class	✓			
Demonstrated organisational abilities	✓				Motivated to work independently	✓			
Required equipment brought to class	✓				Completed homework promptly	✓			

C = Consistently, U = Usually, I = Irregularly, R = Rarely

Adjusted Examination Mark	47/100	Adjusted Examination Average	60/100	Examination Rank	25/30	Cumulative Assessment Rank	11/30
----------------------------------	--------	-------------------------------------	--------	-------------------------	-------	-----------------------------------	-------

Teacher Comment:

Michael has displayed proficiency in all areas. His marks and ability are mirrored by his diligence and desire to improve. Drawing relationships between all the topics will allow for a deeper connection with the material. Although this course does not contribute to his ATAR, continued revision and practice of key concepts can reinforce his understanding and make further study for the HSC more effective and conducive to his goals and beyond.

Teacher D. Tran

GREYSTANES HIGH SCHOOL

HSC Student Report

Semester 2 - 2019

Name: Michael VO

Year: 12

House Group: G02

Course: Mathematics Extension 1

Unit Description:

The Mathematics Extension 1 course is a calculus based course that provides opportunities for students to develop rigorous mathematical arguments and proofs, and to use mathematical models extensively to develop awareness of the interconnected nature of mathematics, its beauty and its functionality.

AREA OF LEARNING	ACHIEVEMENT					
Course Outcomes	A	B	C	D	E	UA
Appreciated interrelationships between ideas drawn from different areas of mathematics	✓					
Used inductive reasoning in the construction of proofs	✓					
Used a variety of strategies to investigate mathematical models of situations involving binomial probability, projectiles, simple harmonic motion, or exponential growth and decay	✓					
Used the relationship between functions, inverse functions and their derivatives	✓					
Applied the chain rule to problems including those involving velocity and acceleration as functions of displacement	✓					
Determined integrals by reduction to a standard form through a given substitution	✓					
Evaluated mathematical solutions to problems and communicates them in an appropriate form	✓					

Positive Behaviour for Learning (PBL) Values									
Respect & Responsibility	C	U	I	R	Active Learning	C	U	I	R
Listened attentively and followed instructions	✓				Worked cooperatively	✓			
Interacted well with teachers and students	✓				Completed tasks in class	✓			
Demonstrated organisational abilities	✓				Motivated to work independently	✓			
Required equipment brought to class	✓				Completed homework promptly	✓			

C = Consistently, U = Usually, I = Irregularly, R = Rarely

Adjusted Examination Mark	94/100	Adjusted Examination Average	75/100	Examination Rank	2/12	Cumulative Assessment Rank	2/12
----------------------------------	--------	-------------------------------------	--------	-------------------------	------	-----------------------------------	------

Teacher Comment:

Michael has absolutely thrived at this higher level of Mathematics. He displayed proficiency in all areas. In order to continue excelling at this stage in the HSC, he should complete past papers under strict time conditions to practise the pacing of questions and to be able to identify common permutations of questions. This practice will surely benefit his future pursuits beyond high school.

Teacher D. Tran

GREYSTANES HIGH SCHOOL

HSC Student Report

Semester 2 - 2019

Name: Michael VO

Year: 12

House Group: G02

Course: Mathematics Extension 2

Unit Description:

The Mathematics Extension 2 courses provides opportunities to develop strong mathematical manipulative skills and a deep understanding of the fundamental ideas of algebra and calculus, as well as an awareness of mathematics as an activity with its own intrinsic value, involving invention, intuition and exploration.

AREA OF LEARNING	ACHIEVEMENT					
Course Outcomes	A	B	C	D	E	UA
Used the relationship between algebraic and geometric representations of complex numbers	✓					
Used the techniques of slicing and cylindrical shells to determine volumes	✓					
Applied further techniques of integration, including partial fractions, integration by parts and recurrence formulae, to problems	✓					
Chose appropriate strategies to construct arguments and proofs in both concrete and abstract settings		✓				
Communicated abstract ideas and relationships using appropriate notation and logical argument		✓				
Combined the ideas of algebra and calculus to determine the important features of the graphs of a wide variety of functions		✓				
Used ideas and techniques from calculus to solve problems in mechanics involving resolution of forces, resisted motion and circular motion		✓				
Used techniques for the algebraic manipulation required in dealing with questions involving conic sections and polynomials		✓				

Positive Behaviour for Learning (PBL) Values									
Respect & Responsibility	C	U	I	R	Active Learning	C	U	I	R
Listened attentively and followed instructions	✓				Worked cooperatively	✓			
Interacted well with teachers and students	✓				Completed tasks in class	✓			
Demonstrated organisational abilities	✓				Motivated to work independently	✓			
Required equipment brought to class	✓				Completed homework promptly	✓			

C = Consistently, U = Usually, I = Irregularly, R = Rarely

Adjusted Examination Mark	87/100	Adjusted Examination Average	70/100	Examination Rank	3/6	Cumulative Assessment Rank	3/6
----------------------------------	--------	-------------------------------------	--------	-------------------------	-----	-----------------------------------	-----

Teacher Comment:

Michael performed adequately at this higher level of Mathematics, being able to appreciate a highly skilled subject. He displayed proficiency in manipulating complex numbers, as well as integrating and calculating volume. He showed a high level of skill in all other areas. Michael should continue practising past HSC papers under a tighter time constraint to be familiar with the pacing and speed required to complete more questions and still be able to check his work. Michael works well independently and with fellow students, further reinforcing his understanding of ideas.

Teacher D. Tran
