Student: **Liam Boman**

Year Level: **12**

Senior Report Sep 2021

Roll Class: **12I**

The information contained in this report is a summary of your child's achievement in learning areas and/or subjects studied over the reporting period. Reports will be provided 4 times per year. The report is one of a number of strategies used by our school to communicate with you throughout the year about your child's achievement, effort and behaviour. Parent-teacher interviews are also offered to discuss your child's progress.

Your child's achievement in **General subjects** and/or **Short Courses** is reported using an A-E scale, using the subject-specific reporting standards found in the relevant syllabus. Syllabuses can be found on the QCAA website (www.qcaa.qld.edu.au).

Comparative Reporting

The graphs on the report card show your child's achievement in each subject against the achievements of other students in the school, in the same year level who undertook the subject. This information will show you the number of students in each achievement level on the reporting scale. This information is subject to the privacy of individual students being maintained (as a result some graphs may not be displayed).

Senior Report Sep 2021

Roll Class: **12I**

Please note:

This interim report provides a behaviour and effort grade, as well as the numerical result achieved for all internal assessment in each subject for 2021. This report does not have an academic letter grade (A-E) for each subject. After the completion of External Exams, the QCAA will provide students with their External Exam result and the overall grade (A-E) they have achieved for each subject.

TO WHOM IT MAY CONCERN

I have known Liam Boman since the start of 2020 as his Senior General English teacher at Brisbane State High School.

Liam is an unassuming, personable and considerate young man who has demonstrated his capacity for perseverance and excellence over this time. As a teacher, it has been gratifying to watch him develop from earning Bs consistently through Year 11 to earning As in every task in Year 12. That his results have continued to improve across each task reflect his willingness to act on feedback and manage his time well. As a class member, he is friendly and endearing, generously contributing to class discussion to develop his own understanding of the subject matter without overshadowing his peers. That his group of friends in the class have also consistently improved in their results is partly a result of his supportiveness and generosity of dialogue. This excellence is reflected in his recent enrolment in the subject of Modern History, where he has achieved at an even higher standard of A, despite only having studied the subject for a year.

Liam's strength, however, lies in his STEM subjects and interest. He has maintained straight As in Maths Methods, Specialist Maths, Biology and Chemistry throughout Year 12, and has similarly shown improvement in his performance in Specialist Maths and Biology from Year 11 into 12 as he has with his English. He is genuinely interested and motivated to work in these subject areas, and would be an excellent candidate for any Engineering scholarship.

Please do not hesitate to contact me via rhewi25@eq.edu.au, or by phone at 07 32914289 if you have any further questions.

Yours faithfully

Rebecca Hewitt
English Teacher
