

Audrey Yeo

12CED
Cedar

This report is one method that Wilderness School uses to inform parents of their daughter's progress. It is a reflection of her achievement to date.

Wilderness School completes a detailed report on student achievement in Terms 2 and 4, with brief reports in the Middle and Senior School in Terms 1 and 3 as well as a formal interview at the beginning of Term 2.

You may ask the school to provide you with written information that clearly shows your daughter's achievement in the subject studied in comparison to that of other girls in her peer group at Wilderness. This information will show you the number of students in each of the achievement levels.

This request must be made in writing to the Head of School each term.

Achievement Level
A - Excellent
B - Very Good
C - Good
D - Moderate
E - Minimal
NA - Not Assessed
UC - Unclassified

Effort
Excellent
Very Good
Good
Moderate
Minimal

Cedar

	NA	Minimal	Moderate	Good	Very Good	Excellent
True and Courageous Self Accepts responsibility, takes up leadership opportunities, shows self reliance and independence, demonstrates confident collaborative skills.						✓
Responsible Citizen Arrives punctually, wears correct uniform, is well prepared and responsible, engages in community activities.						✓
Adventurous Learning Actively participates, shows enthusiasm, energises others, is eager to explore new activities.						✓
Respectful Relationships Shows respect towards teachers and peers, knows when and how to include others, behaves kindly and is consistently constructive.						✓

Effort

Excellent

Awards

Service to Band Ensembles - 4th Braid, Academic Effort Certificate - Term 1

Co-curricular

OzClo Computational Linguistics Competition, Flute Ensemble - Term 1, Senior Concert Band - Term 1, Senior Flute Ensemble - Term 2

Comment

Audrey has balanced her studies with a range of extracurricular commitments, including her role in Flute Ensemble and Senior Concert Band. The comments from her teachers confirm that she has applied herself fully in each of her subjects and that she has taken responsibility for catching up on work missed due to medical absences. She brings a friendly demeanor to Form and is always willing to help out during House activities.

Absences

14 half days absent (Please note that one day's absence is recorded as two half days)

Biology

Learning Requirements / Achievement Standards

The Learning Requirements summarise the knowledge, skills, and understanding that students are expected to develop and demonstrate through their learning. In this subject, students were expected to:

- identify and formulate questions, hypotheses, concepts, and purposes that guide biological investigations
- design and conduct individual and collaborative biological investigations
- manipulate apparatus and use technological tools and numeracy skills to obtain, represent, analyse, interpret, and evaluate data and observations from biological investigations
- select and critically evaluate biological evidence from different sources and present informed conclusions and personal views on social, ethical, and environmental issues
- communicate their knowledge and understanding of biological concepts, using appropriate biological terms and conventions
- demonstrate and apply biological knowledge and understanding of concepts and interrelationships to a range of contexts and problems, including by presenting alternative explanations.

School Assessment	Achievement	Effort
	A	Excellent

Comment

Audrey is a studious and highly conscientious student. Across the semester, she has demonstrated a deep understanding of Cellular and Macromolecular Biology. Audrey has strong study skills that were powerfully demonstrated in her Cells A test where she achieved 90%. She can create accurate graphs using appropriate mathematical language and interpret experimental data to draw valid and perceptive conclusions. Audrey demonstrates a desire to achieve her best at all times and continues to consistently produce outstanding work. Well done!

Chemistry

Learning Requirements / Achievement Standards

The Learning Requirements summarise the knowledge, skills and understanding that students are expected to develop and demonstrate through their learning. This semester, students were expected to:

- demonstrate and apply knowledge and understanding of chemical concepts and interrelationships
- formulate questions, manipulate apparatus, and record observations in practical chemical activities and design and undertake chemistry investigations
- demonstrate an understanding of how knowledge of chemistry can be used to draw informed conclusions or make informed decisions, taking into account social and environmental contexts
- develop possible solutions to a variety of problems in chemistry, in new or familiar contexts
- critically analyse and evaluate chemical information and procedures from different sources
- communicate in a variety of forms, using appropriate chemical terms and conventions.

School Assessment	Achievement	Effort
	A	Excellent

Comment

Audrey is a focused student who has produced consistently sound results. She worked at refining her understanding of the concepts by seeking assistance but now needs to take it to the next level and apply her knowledge to solve problems relating to new and unfamiliar contexts. She has remained focused in class, attempting to make connections between the Chemistry topics being covered and the questions being asked. Her understanding of the Elemental and Environmental Chemistry is sound, and she is answering questions relating to Analytical Chemistry with more confidence. Audrey is an attentive learner who asks for assistance to clarify misconceptions, which further deepens her learning.

English

Learning Requirements / Achievement Standards

The Learning Requirements summarise the knowledge, skills, and understanding that students are expected to develop and demonstrate through their learning. In this semester, students were expected to:

- analyse the relationship between purpose, context, and audience in a range of texts
- evaluate how language and stylistic features and conventions are used to represent ideas, perspectives, and aspects of culture in texts
- analyse how perspectives in their own and others' texts shape responses and interpretations
- create and evaluate oral, written, and multimodal texts in a range of modes and styles
- analyse the similarities and differences when comparing texts
- apply clear and accurate communication skills.

School Assessment	Achievement	Effort
	A	Excellent

Comment

Audrey has worked effectively to complete tasks in English. In her Text Response on 'The Book Thief' she showed a comprehensive understanding of the ideas and a sound analysis of the stylistic features used by the author. Audrey used a wide range of language and multimodal skills to create a digital story, a narrative and a feature article in the Creating Texts section of the course. Audrey's ability to edit her writing for clarity and her determined attitude have contributed to her positive achievements in this subject.

Mathematical Methods

Learning Requirements / Achievement Standards

The Learning Requirements summarise the key skills, knowledge and understanding that students are expected to develop and demonstrate through learning. In this subject, students are expected to:

- understand mathematical concepts, demonstrate mathematical skills, and apply mathematical techniques
- investigate and analyse mathematical information in a variety of contexts
- think mathematically by posing questions, solving problems, applying models, and making, testing, and proving conjectures
- interpret results, draw conclusions, and determine the reasonableness of solutions in context
- make discerning use of electronic technology to solve problems and to refine and extend mathematical knowledge
- communicate mathematically and present mathematical information in a variety of ways.

School Assessment	Achievement	Effort
	A+	Excellent

Comment

Audrey is a determined and hard working student who has applied herself consistently this semester. She has developed an excellent understanding of all topics covered, achieving pleasing results in all areas of assessment. Audrey's summative tasks have been completed thoroughly displaying good organisation, well-developed revision skills and a determination to understand the content matter. She capably applies her knowledge to familiar and unfamiliar contexts.

Performance Special Study

Learning Requirements / Achievement Standards

The Learning Requirements summarise the knowledge, skills, and understanding that students are expected to demonstrate through their learning. This semester, students were expected to:

- present a performance of approved work(s) (i.e. an extended work, selected movements from an extended work, or a folio of related works or syntactically linked works)
- demonstrate accuracy, musical skills, and technique as a performer
- demonstrate musicianship in interpretation by presenting a musically sensitive performance of approved work(s)
- engage a public audience
- use analytical skills to determine and describe the structure of the approved work(s).

School Assessment	Achievement	Effort
	A+	Excellent

Comment

For Summative Assessment Task 1, Audrey delivered a highly fluent performance. It was excellent in its technical proficiency, clarity of articulation, controlled tone and dynamics. Audrey played with beautifully controlled phrasing, and intensity. A compelling performance.

Specialist Mathematics

Learning Requirements / Achievement Standards

The Learning Requirements summarise the key skills, knowledge and understanding that students are expected to develop and demonstrate through learning. In this subject, students are expected to:

- understand mathematical concepts, demonstrate mathematical skills, and apply mathematical techniques
- investigate and analyse mathematical information in a variety of contexts
- think mathematically by posing questions, solving problems, applying models, and making, testing, and proving conjectures
- interpret results, draw conclusions, and determine the reasonableness of solutions in context
- make discerning use of electronic technology to solve problems and refine and extend mathematical knowledge
- communicate mathematically and present mathematical information in a variety of ways.

School Assessment	Achievement	Effort
	A	Excellent

Comment

Audrey continues to make every effort to succeed and has produced work of a consistently high standard throughout the semester. She has demonstrated a comprehensive understanding of concepts, in particular Functions and Graphs, and has utilised highly effective application to theory in order to answer questions.
