

Shine Wang

Year 12 Student at Prince Alfred College, South Australia

Email: shinewang2000@outlook.com

Mobile: 0405 852 072

Address: 1 Brenton Avenue, South Plympton, SA 5038

Date of Birth: 21 July 2000

MY SELECTED COURSE – BACHELOR OF ENGINEERING HONOURS (AERONAUTICAL)

I am personally attracted to the engineering area of tertiary study, as it represents a highly versatile and dynamic area of study. Furthermore, I naturally gravitate towards this area as it radiates innovation and exciting new opportunities for the future. More specifically, I want to specialise in the aeronautical side of engineering because it plays to my innate and unbridled passion for aviation. A future studying this course therefore represents an opportunity to continue exploring this interest of mine. I am extremely excited at the prospect of pursuing this new chapter in the life of the University of Sydney, as the field proves to be of strong demand and relevance in a modern and digitised world to keep up with the pace of change.

ACADEMIC ACHIEVEMENTS

I am honoured to have received many academic awards which I am very proud of. Reflecting on my 5 years in high school, I have been the recipient of multiple academic honours from years 2014 to 2018, which acknowledge continual, all-rounded academic excellence in students placing in the top 5% in the year level. I am proud of these awards as they acknowledge the hard-work and dedication I have sustained from year to year.

I am particularly proud to have received the *Lewis de Garis* Prize for Proxime in Year 9, which recognises the second-best academically performing student in the year. Receiving this award is a testament to the consistently high efforts I put into all areas of studies, and it is truly rewarding to have something to show for the effort.

Supporting my academics includes the awarding of two year 12 subject merits upon completing them in year 10 and 11. Merits are a prize awarded to students who gain an A+ overall grade for the subject, recognising exemplary achievement relative to students across South Australia. I received two merits for the senior-level music (violin) subjects I undertook in Year 10 and 11, for which I was invited to be formally recognised at the annual SACE Merit Giving Ceremony, held at the SA Government House. Not only did this achievement

celebrate the success I had attained in 2016 and 2017, but it also recognised the time I invested in learning and practicing the instrument right from a novice level back in 2004.

EXTRA-CURRICULAR, LEADERSHIP, PERSONAL, COMMUNITY EXPERIENCE

My co-curricular pursuits are an integral part of academic life. In primary school, I was a SRC council member for many years, before culminating to a position within the executive team. I was actively involved as I recognised the importance of student voice in the direction and influence they had on the school, and the integral function of the council to make these voices heard for action and change. This was therefore the starting point for many initiatives, including various fundraising events for the Heart Association, Oxfam, and natural disaster relief for people around the world.

In high school, I maintained a senior position in the college's string music ensembles. More recently, I fulfilled the captaincy position of Captain of Strings, which overlooks the enrichment of the college's music program. I am both strongly involved in and passionate about this position, and I come to reflect on its importance to both myself and the students that I have worked with across my 5 years at the college.

As part of my leadership roles in this position, I had the opportunity to work with the youngest boys (I attended an all-boys school) coming into the prep school. In this context, I, along with the rest of the Piano Trio ensemble, regularly performed musical items at school assemblies. I believe that this was so important, as it inspired the younger boys to pick up an instrument. In this capacity, I was an active member in the development of the new Junior String Ensemble at our college. From the huge success and attraction it drew from the younger ones, I came to learn the important position that leaders had as role models for children. I was able to recognise the pivotal position leaders had in inspiring decisions and commitments in others, particularly among younger children. Personally, I found the experience working with the young ones particularly rewarding, knowing that I had promoted music education, and potentially opened up new opportunities for the next generation.

I have also been a part of the Adelaide Youth Orchestra, representing a group of South Australia's most talented young musicians. Together, we have played standard repertoire that resembles the level of performances of professional musical groups. In a solo capacity, I have also played at numerous charity events such as The Longest Table event that raises money to fund research for cancer treatment. In Year 9, I had a chance with other students in my cohort to spend time with people with mental disorders as part of an extended stay camp on Yorke Peninsula, South Australia. This included organising activities and participating

in indoor sporting activities with the people from Leisure Options. Our group also contributed to the rehabilitation of some native plant areas around the site.

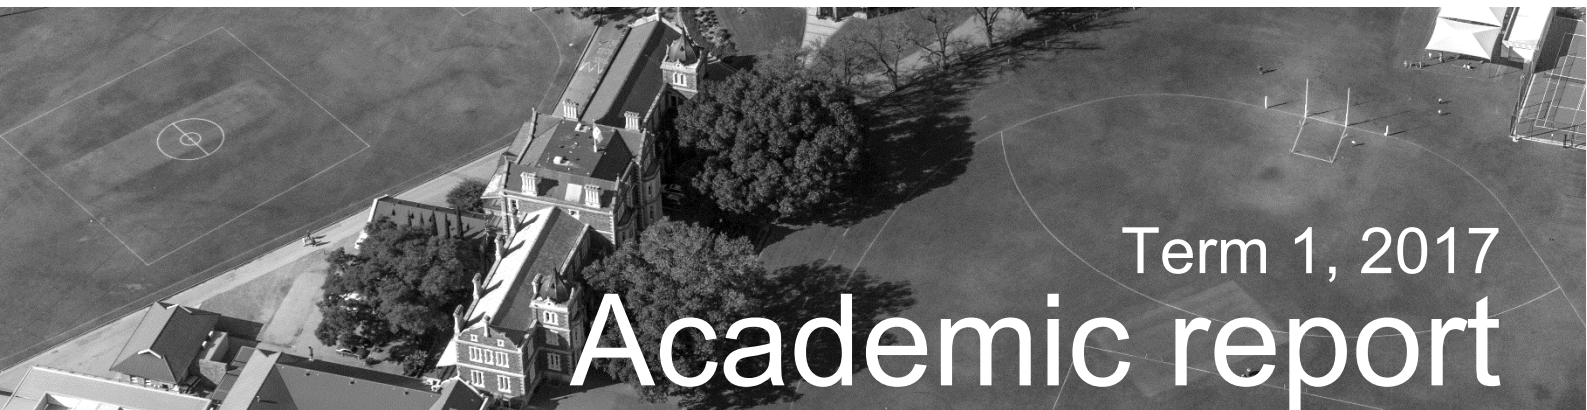

I recognise that in these extra-curricular and leadership areas, the skills of communication, teamwork and collaboration with others are essential to my future aspirations in becoming a leader in my chosen career. The importance of this is further underscored by the accelerating demand in STEM fields, that are profoundly influencing the world in adopting new technologies. Only through teamwork can our future endeavours expand beyond the existing envelope of human knowledge, with skills in interpersonal understanding, communication and collaboration therefore necessary to challenge and forward human ingenuity. As a person who strives to impart, inspire and make change to the world, I have come to reflect on the importance of these pursuits outside of academic life to develop and mature invaluable interpersonal skills for the tackling of questions and new concepts that I will come to face.

FUTURE GOALS

At present, my intentions to study engineering will equip me for an exciting graduate position I hope to achieve in the future. Although not definitive on my specific career path, I remain prospective that, through specialised learning in my nominated course, my studies will lead me to discover a graduate position that I have an eternal affinity and passion for. I foresee this discovery to lie either in the variety of career opportunities available currently in the industry, or the new avenues that will certainly arise in the future from this innovative, dynamic and evolving industry. I therefore remain open-minded and confident that university life through the University of Sydney will help guide me to identify my specific, graduate position I naturally come to fulfil. I have, however, selected the aerospace side of engineering as it aligns with my personal interests, which promises to be highly rewarding and invigorating for me.

Term 1, 2017

Academic report

Student name:

Shine Wang

Year level:

11

Pastoral Care teacher:

Ron Pippett

Headmaster

Bradley Fenner

Director of Teaching & Learning

Benjamin Evans

Head of Secondary School

John Kinniburgh

Chemistry

Michelle Cruickshank

Shine has proven himself to be a capable and hardworking Chemistry student. He has performed at the highest levels consistently but still takes the time to familiarise himself with new concepts, a valuable trait in high achievers. Shine's Science as a Human Endeavour task was particularly outstanding, earning him a well-deserved A+. His scores in the topic tests, consistent As, are equally commendable. For Shine to progress to the A+ level in tests, he should focus on the finer chemical details. I expect, and look forward to, a strong year in Chemistry from Shine.

English Literary Studies

Cynthia Psaromatis

Shine works very hard, and is quiet in his pursuits. He listens carefully to instructions, and mostly works independently. When necessary, I ask him to ask me for help so that he can be sure he is receiving the right advice and also so that I can extend his understanding further. His creative work was done well and received an A grade. For his analysis so far he has received an A- and this piece could have been improved with further detail. I congratulate Shine for selecting a challenging text for his wider reading and encourage him to take thorough notes ready for the examination on it.

Economics

James Burgess

During his first test Shine displayed a comprehensive knowledge and clear understanding of key economic concepts, principles, models, and skills. His accurate communication, consistent, clear, and appropriate use of a range of economic terminology resulted in an overall grade of A-. Shine recently completed an in-depth comparative analysis of macroeconomic objectives for Cyprus and Zambia for which he received an overall grade of A. Shine has displayed a keen interest in Economics, a mature approach to everything he does and a keen sense of humour. Precision when referring to units of measurement will ensure Shine can capitalise on his substantial skills.

Music Experience

Glen Mears

Shine is an exceptional student. He is a delight to teach with him wanting to learn every aspect of music from composition to electronic composition to solo performance. His manner to want to constantly learn is reflected in the outstanding compositions he produced in his Music moods task and the carefully balanced tracks in the mix-down/mastering task. His solo performance is excellent with meticulously produced work and brilliant attention to the ensemble with our academic accompanist. Shine's theory work is also excellent with a highly developed ear and excellent knowledge of musical elements. His analysis skills are developing well and he is learning the method to effectively annotate a score.

Physics

Joe Russo

Shine has worked diligently in Physics this term, achieving an A grade. He has achieved a sound understanding of the content covered and is able to apply his knowledge when problem solving. Shine has been willing to extend himself with more complex problems and his end of topic test result was outstanding. He seeks further clarification when in doubt and demonstrates an enthusiasm to do well. He has confidently applied his knowledge across all assessment tasks and he shows great care and accuracy when problem solving. Shine's practical reports are detailed and have highlighted his ability to apply critical thinking in the consideration of predictions, hypotheses and the results of investigations.

Research Practices

Jeremy Rylatt

Shine is a polite and articulate young man, who listens carefully in class, participates well in class discussions and asks pertinent questions. He has a genuine love of learning and this comes through his interactions in class and completed work. After having completed two assessment tasks, he has achieved an A Grade overall. Shine should keep doing the same things next term and this will stand him in good stead when he goes on to study the compulsory Research Project next semester.

Mathematical Methods

Lisa Roe

Shine shows outstanding commitment to his learning and a mature approach to study. This means he is proactive about catching up work missed when performance commitments have meant he missed class time. Shine started the year showing evidence at an B+ level of his understanding of the Stage 1 content covered in the first formative test. Shine shows determination to succeed in the A band overall for Stage 2 Mathematical Methods. In order to achieve this he needs to focus on practising the more complex algebraic techniques to solve differentiation problems. Shine is currently achieving an A-.

Further information

The provision of detailed feedback regarding the academic progress of your son(s) is an important part of the educative process at Prince Alfred College.

Formal written feedback is provided in the following ways:

- Each year group receives formal feedback four times per year; three times in reports that are sent home and once at a parent/teacher evening.
- Feedback at the end of term one is via written subject reports, with relevant data contained in the body of the report.
- Feedback at the end of terms two and four comprises a written comment, to accompany exam and 'term' data, each linked to the achievement standards relevant to the student's course of study (Australian Curriculum, SACE or IB Diploma).
- Feedback around the end of term three is via face to face meetings, with six year level-focused parent/teacher evenings.

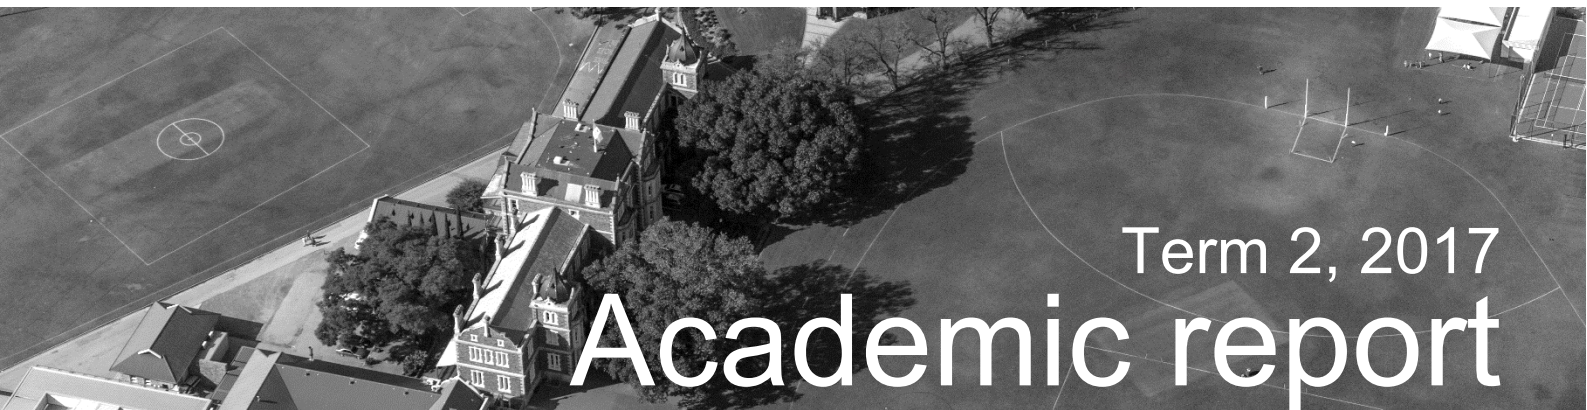

Parents are also encouraged to contact individual subject or pastoral care teachers with any questions regarding the progress of their son(s). Regular and open communication is always welcomed.

Term 2, 2017

Academic report

Student name:

Shine Wang

Year level:

11

Pastoral Care teacher:

Ron Pippett

Pastoral Care comment

Ron Pippett

Shine is a busy and reliable member of the pastoral care group who has adapted exceedingly well to the demands of Year 11 and the SACE. He is highly organised, and has demonstrated confidence and leadership in group activities within the classroom. He has displayed a willingness to honestly reflect on his academic progress, identify strengths and weaknesses and set himself high standards. His academic performance has been most commendable and Shine should feel very proud of his efforts.

Headmaster

Bradley Fenner

Director of Teaching & Learning

Benjamin Evans

Head of Secondary School

John Kinniburgh

Chemistry

Michelle Cruickshank	Examination B+ 83%	Subject grade A
----------------------	-----------------------	------------------------

Shine's work in Chemistry this term has continued to be of a high standard. He received an A for his titration practical report, with only minor errors holding him back from the top grade. His examination score, just 2% shy of the A band, indicates that Shine should work on the precision of his answers. I would recommend that Shine trial dot-point answers as he tends to be excessively wordy, which can lead to errors.

English Literary Studies

Cynthia Psaromatis	Examination A 93%	Subject grade A
--------------------	----------------------	------------------------

Shine is a polite student who has been engaged in all aspects of the course. He is naturally curious about the texts that are presented to him and is able to bring his wider general knowledge to the good responses he writes. For his examination, I was impressed that he prepared two texts for the essay section even though only one text was needed.

Economics

James Burgess	Examination A 93%	Subject grade A
---------------	----------------------	------------------------

Shine has enthusiastically engaged with Economics and regularly performs to an exceptionally high standard. This semester, Shine produced an astute and logical analysis of the disruption of DVD rental stores. His consistently high standard was replicated in his End of Semester Exams. A continued focus on precision will see Shine to continue his success within Economics.

Music Experience

Glen Mears	Examination A+ 100%	Subject grade A+
------------	------------------------	-------------------------

Shine is an outstanding musician with a thorough understanding of all aspects of practical and theoretical music. His examination mark was outstanding with all areas of applied musicianship, tonality, general knowledge and key signatures all answered perfectly. Shine's class practical work has also been excellent demonstrating and excellent ear and understanding of style. His solo repertoire is also outstanding with brilliant work on his Mozart Performance Special Study work.

Physics

Joe Russo	Examination A- 86%	Subject grade A
-----------	-----------------------	-----------------

Shine has achieved an outstanding understanding of the topics covered this semester. He works diligently in class and his problem solving skills are well developed. He has been willing to seek further clarification when necessary and his test results have been consistent. He has completed all set tasks, demonstrating his ability to apply knowledge in a range of tasks. His Semester 1 examination mark was excellent and indicative of his well developed critical thinking skills.

Research Practices

Jeremy Rylatt	Examination N/A N/A	Subject grade A
---------------	------------------------	-----------------

Shine’s approach to this subject was excellent. He worked hard, asked plenty of questions and strived to learn and improve his research skills. His assessment pieces were always of an excellent standard. Shine has also though quite carefully about his topic for his Semester 2 Research Project and has carefully documented his thought processes so far. He should continue to document all his decisions and be able to justify them, as this is an important part of research.

Mathematical Methods

Lisa Roe	Assessment complete 25%	Subject grade A-
----------	-------------------------	------------------

Shine has continued to show an outstanding level of commitment to his study. His test results across differential calculus were mostly solid A level, and with only one test holding down his overall grade there is certainly the opportunity to improve in this assessment type. Shine has shown admiral persistence in developing his ability to solve increasingly complex problems and this will support his ability to achieve at a high level in tests and the exam.

Student achievement data

Year 7-12 Term 2 and 4 academic reports contain the following student achievement data:

- **'Term' grade** (A to E scale) [Year 7-10 Australian Curriculum only] reflecting key assessment work completed for each subject during the previous **two terms**.
- **Examination percentage** (if applicable) and corresponding **Examination** or **Folio grade** (A to E for Australian Curriculum; A+ to E- for SACE; 7 to 1 for IB Diploma).
- **Overall Subject grade** (A to E scale for Australian Curriculum; A+ to E- for SACE; 7 to 1 for IB Diploma): this is the overall grade based on appropriate weighting of the above components.

Please note that the grade boundaries for conversion of examination and folio scores into Australian Curriculum, SACE or IB Diploma overall grades will vary between subjects due to the nature of the assessment.

Subject grade descriptors

Australian Curriculum achievement scale	SACE grade descriptors (+ or – provides further detail)	IB Diploma grades
A: Excellent B: Good C: Satisfactory D: Partial E: Minimal	A: Excellent B: Good C: Pass D: Poor E: Very poor	IB Diploma subject grades are awarded on a 7 to 1 scale, 7 being the highest. Detailed information about IB grade descriptors may be found at: http://www.ibo.org/globalassets/publications/recognition/dp-grade-descriptors-en.pdf

Australian Curriculum cohort ranking data

The *Australian Education Act (2013)* requires schools to make information available about your son's comparative achievement relative to the performance of his peer group. Subject grade comparative information can be supplied on request; please contact the College Academic Registrar for further details.

Academic report

Term 1, 2018

Biology

Peter Hopkins	Assessment complete 20%	Subject grade A
---------------	-------------------------	------------------------

Shine has approached his studies in an consummate manner this term. He is highly attentive, inquisitive and always looking to maximise his understanding. He needs to be wary however that much of what we have covered this term he has studied previously and this will not be the case as the year progresses. However, given what I have seen this term I would expect him to adjust accordingly such is the manner in which he approaches his studies. His exemplary approach was rewarded with both summative tasks completed this term; a topic test (92%) and a very well complied practical report (A).

Chemistry

Michelle Cruickshank	Assessment complete 20%	Subject grade A+
----------------------	-------------------------	-------------------------

Shine continues to be an outstanding Chemistry student, consistently working hard and ensuring his understanding of the concepts is nothing short of perfect. This approach has paid dividends, earning Shine a grade of A+ in both his volumetric analysis practical report and Topic 1 test. One of the best qualities of Shine's work is his explanations of chemical concepts: they are considered, detailed and clearly designed to answer the question posed. With continued work of this high quality, Shine can expect more success over the course of the year.

English

Emma Dibb	Assessment complete 20%	Subject grade A
-----------	-------------------------	------------------------

Shine is a keen and interested student, who always strives to improve his knowledge and understanding of the work being covered in class. The challenge for Shine is to maintain the high work ethic and standard of work which he has already set himself. An area which he could focus on is ensuring that he links his ideas back to the task regularly when analysing texts. This will help to shape his ideas and also allow him to draw together the threads of ideas which are built across texts. Shine's expository writing was a highlight this term. It is an absolute pleasure to teach Shine. Keep up the great work!

Mathematical Methods

Sara Browning	Assessment complete 17%	Subject grade A+
---------------	-------------------------	-------------------------

Shine is an invaluable member of our class and a conscientious student who strives to give his best at all times. He is always attentive, engaged and happy to contribute to class discussions and share his ideas with his peers, amongst whom he is well respected. Polite and courteous in everything he does Shine works with other students to great effect. His tests are always of a high standard showing clear and logical thought processes. Shine is an exemplary student and it is a pleasure to be part of his educational journey.

Physics

Joe Russo	Assessment complete 10%	Subject grade A+
-----------	-------------------------	-------------------------

Shine has worked diligently in Stage 2 Physics this term. Shine has a solid conceptual knowledge of the topics covered and has demonstrated sound application of his knowledge through a range of tasks. Shine has excellent problem solving skills and is able to confidently apply his understanding when solving problems of a complex nature. Additionally, he has also demonstrated his ability to use physics principles to comprehensively communicate his knowledge in unfamiliar contexts. He is always willing to challenge himself with more complex questions and he shows great care and accuracy when problem solving. Shine's ability to consistently describe complex relationships between concepts using appropriate terminology and conventions is outstanding.

Further information

Student achievement data

Year 12 Term 1 and 3 academic reports contain the following student achievement data:

- **Subject grade** (A to E scale for SACE, or 7-1 for IB Diploma) reflecting key assessment work completed for each subject to date.
- **% Assessment Complete** (applicable only to SACE subjects) provides an indication of the current percentage of **internal** (school assessed) summative assessments completed to date. Depending on the nature of the subject and its assessment types, some may record 0% at the conclusion of Term 1. The maximum percentage is 70%.

Please note that the grade boundaries for conversion of examination and folio scores into SACE or IB Diploma overall grades will vary between subjects due to the nature of the assessment.

Subject grade descriptors

SACE grade descriptors

(+ or – provides further detail)

A: Excellent
B: Good
C: Pass
D: Poor
E: Very poor

IB Diploma grades

IB Diploma subject grades are awarded on a 7 to 1 scale, 7 being the highest.

Tutor comment

Mike Steer

Shine is a composed, thoughtful and quite serious young man who is making sound progress in his Year 12 studies. We were delighted that he plays such an important role in our musical programme, as he brings calm and mature quality to whatever he undertakes. Shine has a clear understanding of what he wants to achieve this year and is able to communicate his goals in a coherent and honest way. He recognises that he needs to maintain a consistent effort in his approach to his studies and also that it is important to be balanced in his approach. I have been so impressed with him as a young man and have enjoyed my conversations with him very much. Shine has also been a reliable and quite thoughtful participant in our Pastoral Care Curriculum.

Headmaster

Bradley Fenner

Director of Teaching & Learning

Benjamin Evans

Head of Secondary School

John Kinniburgh

Biology

Peter Hopkins	Assessment complete 30%	Subject grade A
---------------	-------------------------	------------------------

Although Shine can sometimes concern himself overly with some quite minor aspects of the course, it is more a symptom of his desire to leave no stone untuned in order to achieve his considerable potential. His most recent topic test was a near faultless piece of work and represented a fine reward for the significant amount of time and effort he devotes to his studies. He should be approaching the next phase of the year with a good deal of confidence.

Chemistry

Michelle Cruickshank	Assessment complete 30%	Subject grade A+
----------------------	-------------------------	-------------------------

Shine remains one of my most dedicated Stage 2 Chemistry students, regularly attending the weekly lunchtime help sessions and asking pointed clarifying questions to ensure complete understanding. This approach has served him well, allowing him to achieve an A+ in the Topic 2 test. His rates of reaction practical report, though formative, still showed a clear commitment to excellence; the only change suggested would be simplified phrasing to ensure his point is not lost in convoluted sentences.

English

Emma Dibb	Assessment complete 30%	Subject grade A
-----------	-------------------------	------------------------

Shine continues to be a motivated and conscientious student, who regularly asks pertinent questions. To ensure he achieves the top grades, Shine needs to be tentative in his analysis so that he can demonstrate an awareness of the different interpretations of texts. Shine should also aim to read widely around the texts he selects for his comparative study as this will allow him to make sophisticated connections between his texts. It continues to be an absolute pleasure to teach Shine.

Mathematical Methods

Sara Browning	Assessment complete 33%	Subject grade A+
---------------	-------------------------	-------------------------

Shine continues to work at an exceptionally high standard and is rewarded for his efforts with outstanding results. He asks indepth probing questions as a matter of course and leaves nothing to chance in his quest for perfection. Unsurprisingly, Shine completes all work set and is focussed in class offering insight when required but without undermining the learning experience of others.

Physics

Joe Russo	Assessment complete 30%	Subject grade A+
-----------	-------------------------	-------------------------

Shine has worked conscientiously to develop his conceptual understanding to an excellent level. His test results have been outstanding and have consistently highlighted Shine's excellent problem solving abilities. He has contributed during discussion based lessons and has been willing to challenge himself with more complex problems. Shine's practical report was well structured and demonstrated his ability to present data using correct formats and conventions and make logical conclusions.

Biology

Peter Hopkins	Assessment complete 50%	Subject grade A+
---------------	-------------------------	-------------------------

Shine's near perfect result in the recent Topic 3 test was indicative of both his exemplary level of application and his considerable ability. The 88% he achieved for the trial exam was also most encouraging and leaves him with a good chance of bettering the strong result he achieved last year. The revision period will be vital for him; looking to fully utilise his study guide (and the examination standard questions contained within) should be an area of focus.

Chemistry

Michelle Cruickshank	Assessment complete 50%	Subject grade A+
----------------------	-------------------------	-------------------------

Shine achieved a spectacular result in the trial exam earlier this term. This, coupled with his excellent performance in school assessed tasks, places Shine in a very strong position in the lead-up to the final exam. He is an talented and hard-working student who is fully deserving of the results he has so far achieved. Given his deep and broad knowledge of the syllabus, I recommend Shine make a close study of past Chief Assessor's reports to understand the features of successful exam responses.

English

Emma Dibb	Assessment complete 60%	Subject grade A
-----------	-------------------------	------------------------

Shine continues to be a conscientious and devoted student, who strives to improve his knowledge and understanding of key concepts. He worked with focus and drive on his comparative response and teased out some perceptive contrasts between his texts. In preparation for our final piece of assessment, an oral presentation, Shine should focus on the cogent expression of his ideas. It has been an absolute pleasure to teach Shine. I have been delighted with the work he has produced.

Mathematical Methods

Sara Browning	Assessment complete 62%	Subject grade A+
---------------	-------------------------	-------------------------

Shine has a natural flair for mathematics and has established a thorough understanding of all the concepts covered. His verbal and written responses demonstrate the ability to think and work logically. Shine has highly developed problem-solving skills and is able to apply his knowledge to a wide and varied range of questions. His Investigation was particularly well executed. It has been a honour to work with Shine this year and I wish him well in his future endeavours.

Physics

Joe Russo	Assessment complete 50%	Subject grade A+
-----------	-------------------------	-------------------------

Shine has worked diligently to develop his conceptual understanding to an outstanding level. He has demonstrated competency in the application of knowledge in all assessment tasks and his mid year examination mark was superb. He has consistently shown his understanding of the main ideas and concepts covered by applying them to solve problems in both familiar and unfamiliar situations. He continues to develop his critical-thinking skills to analyse and evaluate information and data.

UAC APPLICATION NUMBER: 500316731

MR SHINE WANG
1 BRENTON AVENUE SOUTH PLYMPTON SA

F01D: FINANCIAL HARDSHIP - FAMILY TAX BENEFIT PART A

WHAT YOU NEED TO DO

1. Arrange for all of this form to be completed.
2. Collect all relevant documents outlined under 'Documentation required'.
3. Provide your completed form and documents by either uploading them to your EAS application or posting or delivering them, with a copy of this cover sheet, to the Universities Admissions Centre (UAC).

Deliver documents to UAC, Quad 2, 6 Parkview Drive, Sydney Olympic Park NSW; or **post** to UAC, Locked Bag 112, Silverwater NSW 2128.

ELIGIBILITY CRITERIA

Your parent/s or guardian/s received Family Tax Benefit Part A during Year 11 and/or Year 12 (or equivalent).

EDUCATIONAL IMPACT STATEMENT: NOT REQUIRED

DOCUMENTATION REQUIRED

- Applicant statement (below)
- Have your parent/guardian/s complete and sign the declaration below, or
- A Centrelink income statement issued to your parent/s or guardian/s demonstrating their receipt of Family Tax Benefit Part A, or
- A Centrelink Family Assistance letter that has been issued to your parent/s or guardian/s demonstrating their receipt of Family Tax Benefit Part A.

IMPORTANT INFORMATION

The Centrelink income statement or Family Assistance Letter must be dated within the period of your Year 11 and/or Year 12 or equivalent.

Your parent/s or guardian/s can view and download their Centrelink Income Statement by logging into their Centrelink online account, or myGov if they have set up an account.

To obtain a Centrelink Family Assistance Letter your parent/s or guardian/s must call or visit a Centrelink office; you will need to allow at least a week for Centrelink to issue the letter.

APPLICANT STATEMENT

1. Detail the period/s your parent/s or guardian/s have received Family Tax Benefit Part A payments.

My legal guardian (mother) has been a recipient of Family Tax Benefit payments since the year 2000. This has continued until, and is still continuing today (2018)

UAC APPLICATION NUMBER: 500316731

MR SHINE WANG

1 BRENTON AVENUE SOUTH PLYMPTON SA

PARENT/GUARDIAN DECLARATION AND AUTHORITY

All details to be exactly as per Centrelink records.

Note: You are only required to obtain Centrelink details and consent from the parent/guardian in receipt of Family Tax Benefit A. If you're unsure, provide both.

Parent/Guardian #1

Parent/guardian CRN

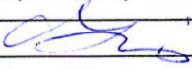

5 0 3 6 4 7 6 0 5 H

I Yuting Guan (31 / 05 / 1957) authorise:
Given name Surname/Family name Date of birth (DD/MM/YY)

- UAC to use Centrelink Confirmation eServices to perform a Centrelink enquiry of my customer details and concession card status in order to enable the business to determine if my child/ward qualifies for a concession, rebate or service
- the Australian Government Department of Human Services (the department) to provide the results of that enquiry to UAC.

I understand:

- that the department will disclose personal information to UAC including my name/date of birth/payment type/payment status/maximum rate/payment grant date/one off payment/income/assets/deductions/number of dependent children/shared care arrangements/partner status/Youth Allowance Independent Rate to confirm my child/ward(s) eligibility for Educational Access Schemes
- this consent, once signed, remains valid while my child/ward is a customer of UAC unless I withdraw it by contacting UAC
- I can get proof of my circumstances/details from the department and provide it to UAC so that my child's/ward's eligibility for Educational Access Schemes can be determined
- if I withdraw my consent or do not alternatively provide proof of my circumstances/details, my child/ward may not be eligible for the Educational Access Schemes provided by UAC.

► Important Information

- **Changes to family assistance**

There are changes that affect family assistance payments. For more information about the changes and how they affect you, please go to **humanservices.gov.au** and search for 'families changes'.

- Your Health Care Card will no longer be valid after 30 June 2018.

Please contact us if you have any questions about your card.

Organisations providing concessions to card holders can check electronically with the Department of Human Services to see whether you are still entitled to use your card.

Please read the back of this letter

When to contact us

Under family assistance law, you must tell us about events that may affect your payments as soon as possible after any of these things happen or you become aware that they are likely to happen.

About your family's income

You need to tell us about any changes to your and/or your partner's income as soon as possible. This is important because your and/or your partner's income will be checked with the Australian Taxation Office at the end of each financial year to make sure you have been paid the right amount.

Your Family Tax Benefit may be automatically adjusted when your income changes, helping to avoid or reduce overpayments.

The income details you must tell us about include changes to your or your partner's:

- taxable income including income from salary and wages, lump sum payments, business or self employment, investments and real estate, taxable government pensions and benefits and other taxable income
- reportable fringe benefits
- reportable superannuation contributions
- total net investment losses
- tax free government pensions and benefits
- foreign income
- child support you pay
- tax exempt foreign income.

Important Note: if your salary or wage is paid weekly or fortnightly, the number of individual paydays in a financial year can vary. You need to know this when you estimate your income to avoid being overpaid and should check with your employer if you are unsure.

If you receive **Family Tax Benefit Part B** and you are a member of a couple, you must tell us if the primary earner's annual income goes over \$100,000.00 or the lower earner's annual income changes. This includes any income support payments such as Parenting Payment Partnered or Newstart Allowance.

There are different notification requirements for income support payments. If you or your partner receive an income support payment and you have a change in income, you will need to update your income details for that payment too.

If you are a sole parent and your income is \$100,000.00 or less, you will automatically be paid at the full rate of **Family Tax Benefit Part B**. If your income is more than this amount, you will not receive any **Family Tax Benefit Part B**.

Your payments may stop

If you receive Family Tax Benefit fortnightly your payments will be stopped if you and/or your partner:

- do not lodge your tax return/s or advise us that you are not required to, and
- have an outstanding non-lodger debt as a result.

This will apply to any tax returns you and/or your partner have not lodged for financial years during which you received Family Tax Benefit. If you have repaid outstanding non-lodger debts for these particular financial years your payments will not be affected.

Should you and/or your partner receive further non-lodger debts, your family assistance payments may be stopped. You and/or your partner will not be eligible for family assistance payments until these debts have been repaid or the outstanding tax returns are lodged with the Australian Taxation Office.

If you underestimate your income, you may have been paid too much, and you will be asked to repay excess amounts after the end of the financial year. If you underestimate your income for two consecutive financial years and have no entitlement when your payments are balanced, you will no longer be able to receive Family Tax Benefit as fortnightly instalments.

You must also tell us if you:

- start to receive child support or the amount of child support that you receive changes
- cannot collect the full amount of child support that you are entitled to receive - you should also call us on 131 272 to discuss your collection options
- become or stop being an Australian resident
- leave Australia, even for a short time or return to Australia
- marry, are in or commence a registered or a de facto relationship (either opposite or same-sex), reconcile with a former partner or start living with someone as their partner, separate from your partner or your partner passes away
- stop paying rent or the amount you pay changes
- move into Government housing
- change address
- change the account your payment is sent to
- have a dependent child aged 16 years of age or over who stops full-time secondary study
- start to share the care of any of your children with another adult
- or your partner returns to work after having a baby or caring for a child, as you may be entitled to the maximum rate of Family Tax Benefit Part B for the period of the current financial year before returning to work.

You must tell us if a child for whom you are receiving Family Tax Benefit:

- stops living with you, can no longer be considered your dependant or passes away
- is planning to leave Australia (tell us as soon as you know)
- returns to Australia
- becomes or stops being an Australian resident
- is not an Australian resident and no longer lives with you
- receives an income support payment or a Prescribed Educational Scheme payment such as ABSTUDY
- stops full-time secondary study and is 16 years of age or over, or
- is prevented from being in your care without your consent.

You must also tell us if the level of shared care you provide for this child changes.

Family Tax Benefit child over 16 years of age

A young person **16 years of age and over** is a dependant if they are in your care at least 35 per cent of the time, does not receive an income support payment and is:

- **for Family Tax Benefit Part A;** studying full-time towards a Year 12 or equivalent qualification up until the end of the calendar year in which they turn 19 years of age.

for **Family Tax Benefit Part B** if you are a **single parent or grandparent carer**; in full-time secondary study up until the end of the calendar year in which they turn 18 years of age.

Your child's immunisation requirements

A fortnightly reduction of up to \$28.28 per fortnight is applied to the rate of Family Tax Benefit Part A for children that do not meet the immunisation requirements.

For financial years before 2018-2019, immunisation requirements must be met to be eligible for the Family Tax Benefit Part A supplement.

We will check if a child meets the immunisation requirements using the details held on the Australian Immunisation Register.

For more information about immunisation requirements including how to check your child's status and links to the Australian Immunisation Register, please go to **humanservices.gov.au/immunisation**

What to do if you think this decision is wrong

If you do not agree with a decision we have made

- Contact us so we can check the details and explain the decision.
- Contact us and ask for a review of the decision. We will change it if it is wrong.
- Contact the Administrative Appeals Tribunal (AAT) if you do not agree with the review officer's decision.
- If you do not agree with the decision of the AAT you may be able to appeal further. For more information about the AAT, please go to **aat.gov.au**

All of the above are free of charge.

If you do not agree with a decision we have made, contact us as soon as possible. It is important to ask for a review **within 52 weeks** of being notified about the decision. If your request for a review is more than 52 weeks after being notified and the decision can be changed, you may only receive your entitlement from the date you requested the review.

There is no time limit for a review of a decision about money you owe us. However you may have to pay back the money while the decision is being reviewed.

Privacy and your personal information

Your personal information is protected by law, including the *Privacy Act 1988*, and is collected by the Australian Government Department of Human Services for the assessment and administration of payments and services. This information is required to process your application or claim.

Your information may be used by the department or given to other parties for the purposes of research, investigation or where you have agreed or it is required or authorised by law.

You can get more information about the way in which the Department of Human Services will manage your personal information, including our privacy policy at **humanservices.gov.au/privacy** or requesting a copy from the department.

To make a complaint or give us feedback

We aim to resolve your concerns as quickly as possible. If you want to make a complaint or give us feedback you can:

- call our feedback and complaints line on **1800 132 468**, or
- go to **humanservices.gov.au/feedback** for other

options.

If we are not able to resolve your complaint to your satisfaction, you can contact the Commonwealth Ombudsman by going to their website **ombudsman.gov.au** or calling them on **1300 362 072**.

Data matching

Information provided by you to us may be used for data matching with other government agencies to detect and prevent incorrect payments and fraud.
