Student Name: **OLIVER LANCASTER**

Teacher Name: **Tino Delbourgo**

Home Group: **Home Group TEC2**

Home Group Teacher: **Thomas Cotterell**

PHY415115 Physics

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	demonstrate personal skills to plan, organise and complete activities	A
C02	develop, interpret and evaluate physics experiments	A
C03	collect, process and communicate information	A
C04	demonstrate understanding of the application and impact of physics in society	Not Yet Assessed
C05	identify and apply principles of Newtonian mechanics including gravitational fields	A
C06	identify and apply principles and theories of electricity and magnetism	A
C07	identify and apply general principles of wave motion	Not Yet Assessed
C08	identify and apply principles of the wave-particle nature of light, atomic and nuclear physics and models of the nucleus and nuclear processes.	Not Yet Assessed

Work Qualities

Attitude/Commitment **Very Good**
Participation **Very Good**
Punctuality **Very Good**
Completion of Set Tasks **Very Good**

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Oliver, you are continuing to achieve very highly in this subject, gaining consistent 'A' results in almost every assessment opportunity. Your Mid-Year exam was a particular highlight. Your above 90% results in the entire three hour exam indicates a deep understanding of the entire course content up to that point. Your study approach of practising many questions for revision purposes before tests should continue as it is working for you. Equally pleasing has been the fact that your experimental reports have been done very well too.

The Mid-Year assessment indicated that the only thing for you to work on is trying to reduce your natural error rate. This is very hard to accomplish, but please use any left over time at the end of tests to recheck your calculations on the scientific calculator. Congratulations, Oliver, on your outstanding commitment to this subject.

MTM415117 Mathematics Methods

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	communicate mathematical ideas and information	A
C02	apply mathematical reasoning and strategy in problem solving situations	Not Yet Assessed
C03	use resources and organisational strategies	A
C04	understand polynomial, hyperbolic, exponential and logarithmic functions	A
C05	understand circular functions	A
C06	use differential calculus in the study of functions	A
C07	use integral calculus in the study of functions	Not Yet Assessed
C08	understand binomial and normal probability distributions and statistical inference.	Not Yet Assessed

Work Qualities

Attitude/Commitment **Very Good**
Participation **Very Good**
Punctuality **Very Good**
Completion of Set Tasks **Very Good**

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Oliver, your results in maths so far this year have been phenomenal. You have completed every assessment task required to date, and achieved straight 'A's on every test, including three 'A's on your Mid-Year exam. This is an astounding achievement, well done. You have currently locked in an 'A' internally in function study, and are well on the way to doing the same for both trigonometry and differential calculus.

Given your extraordinary year to date, I can ask nothing more of you but to continue as you have been. Your current study habits are serving you very well, and it is clear that you are enjoying the content that you are learning. Congratulations on your very significant achievements this year, Oliver.

SPT315118 Sport Science

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	describe and analyse physiological aspects of exercise	A
C02	analyse and explain physiological responses to training	A
C03	analyse and discuss principles of skill acquisition in sport	A
C04	examine and discuss how sport psychology influences athletic performance	Not Yet Assessed
C05	analyse and interpret sport science data and information	A
C06	examine and discuss cross-discipline links	A
C07	access, research and analyse information	A
C08	communicate information in a variety of forms	A

Work Qualities

Attitude/Commitment **Very Good**

Participation **Very Good**

Punctuality **Very Good**

Completion of set tasks **Very Good**

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Oliver, you continue to show impressive responses to all questions. Your Mid-Year exam results were outstanding. Despite only spending one lesson on our cross discipline links criterion you were able to produce an answer that was worthy of an A rating. You showed initiative going to tutorials on this topic and have certainly benefited from this use of your time - well done! Your understanding and comprehension of Sport Science concepts is awesome and you are able to relate well to real life scenarios which should stand you in good stead for the end of year exam. Thanks for helping me to teach and explain the more physical science concepts in recent times. Keep up the great work Oliver.

Past exam questions and examiners reports should continue to be a major focus of your study for Sport Science. This practice will enable you to be prepared for the wide range of questions which may arise. Begin to refine your responses and unpack questions more effectively by analysing these reports to your advantage. Use your personal knowledge of sport to add a 'real life' angle to your responses. Our memory unit focussed on the fact that information must be repeated and rehearsed if we wish to store it in our long term memory. Use this knowledge to your advantage. Now is the time to utilise the study techniques that will see you produce the best results that you are capable of.

RESULTS

Assessment Criteria - 19N71441 OLIVER TOBY LANCASTER ENG315117 English

Criterion Description	Internal Ratings	External Ratings
1 Analyse how relationships between texts, genres and contexts shape meaning and response	A	B
2 Analyse representations of themes, ideas and concepts in texts	A	A
3 Analyse how texts convey perspectives	A	A
4 Compose and craft responses to texts	A	A
5 Compose and craft imaginative responses	A	
6 Use accurate and effective language	A	A
7 Apply time management, planning, negotiation and academic integrity skills	A	

Award: **Exceptional Achievement** which will contribute 21.0 points towards your Tertiary Entrance Score.

Details of External Assessments

Criterion: 1	Rating: B
Section A	B+
Minimum scores - A: 10.00 B: 7.00 C: 4.00	
Criterion: 2	Rating: A
Section B	A-
Minimum scores - A: 9.00 B: 7.00 C: 4.00	
Criterion: 3	Rating: A
Section C	A
Minimum scores - A: 10.00 B: 7.00 C: 4.00	
Criterion: 4	Rating: A
Section A	B+
Section C	A-
Minimum scores - A: 18.00 B: 13.00 C: 7.00	
Criterion: 6	Rating: A
Section A	A-
Section C	A-
Minimum scores - A: 18.00 B: 13.00 C: 7.00
