August 2019

Student Report

Report Descriptors

Explanation of Generic Criteria:

Punctuality: refers to a student's ability to get to class regularly and on time. It also infers an expectation that students are prepared for class (with appropriate resources) when they arrive.

Completion of Set Tasks: refers to student's evidence of meeting teachers expectations regarding finishing set work within appropriate time frames and within specified parameters (this may include quality or quantity guidelines).

Attitude/Commitment: refers to a student's approach to their learning and their level of motivation to ensure they are maximising their learning opportunities.

Participation: refers to a student's level of involvement and engagement in expected learning activities (e.g. group work, class discussions, brainstorming and collaborative practices).

CLP205118 Career and Life Planning

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	identify and describe own personal and social capabilities	C
C02	link lifelong learning to the career building process	C
C03	locate and use career information	C
C04	describe the impact change has on career planning and work and life roles	Not Yet Assessed
C05	describe and apply career building skills	C

Work Qualities

Attitude/Commitment **Very Good**

Participation **Very Good**

Punctuality **Very Good**

Completion of set tasks **Very Good**

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Career and Life Planning is undertaken as part of the SA program and includes opportunities for students to consider future pathways, career options and goal setting. The course satisfies the pathway planning component of the TCE as well as My Education and Respectful Relationships curriculum priorities. Students develop and refine career related documentation. They develop skills to assist them in making informed and relevant choices regarding their future endeavours. Short answers and reflections are submitted in response to a variety of topics.

Parent Teacher Interview **Optional**

ENW315114 English Writing

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	create written texts in a range of types	B-
C02	demonstrate control in the use of language features and stylistic features	B-
C03	select and use literary conventions and structures	B-
C04	compose and craft sustained imaginative texts	B-
C05	evaluate personal writing styles and techniques	B
C06	evaluate the writing styles and techniques of others	B-
C07	demonstrate time management and proofing skills.	A

Mid-Year Exam Results

E01	create written texts in a range of types	B- (Exam)
E02	demonstrate control in the use of language features and stylistic features	B- (Exam)
E03	select and use literary conventions and structures	B (Exam)
E04	compose and craft sustained imaginative texts	C+ (Exam)
E05	evaluate personal writing styles and techniques	B (Exam)
E07	demonstrate time management and proofing skills.	A (Exam)

Work Qualities

Attitude/Commitment	Very Good
Participation	Good
Punctuality	Very Good
Completion of Set Tasks	Very Good

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Term 2 of English Writing saw students complete further pieces of imaginative writing, including a monologue, poem and mid-year folio. Term 3 will be spent on the Writing Project and final folio compilation. A complete draft of the externally assessed folio is due to teachers at the end of Term 3, to provide opportunity for final feedback and editing, before it is electronically submitted for external marking in the first week of Term 4. Submission by the due date is essential in order to qualify for an award in this subject.

Hashem has worked very hard to strengthen his writing and the success of his expression. His pieces are diverse and well-constructed, and I believe that there is reason to imagine that if he can accompany them with a strong Writing Project he could put together a folio that he can be justifiably proud of. As we move into our final weeks together, I encourage Hashem to continue his focus on reflective writing and cinematic detail. It has been a pleasure to teach him.

ITS315118 Information Systems and Digital Technologies

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	identify, analyse and solve real-world information problems	B
C02	describe, explain and analyse the components of an information system, and the inter-relationships between these components	B
C03	describe, explain and analyse social, legal and ethical issues associated with information systems	C
C04	design and develop an information system	B+
C05	use and evaluate an information system	B
C06	work independently and collaboratively	A
C07	plan, organise and complete activities using a project management approach	A
C08	communicate ideas and information in a variety of forms	B

Mid-Year Exam Results

E01	identify, analyse and solve real-world information problems	C+ (Exam)
E02	describe, explain and analyse the components of an information system, and the inter-relationships between these components	B+ (Exam)
E03	describe, explain and analyse social, legal and ethical issues associated with information systems	C (Exam)
E05	use and evaluate an information system	B (Exam)
E08	communicate ideas and information in a variety of forms	B (Exam)

Work Qualities

Attitude/Commitment **Good**

Participation **Good**

Punctuality **Good**

Completion of set tasks **Good**

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

In Information Systems and Digital Technologies students have been learning about the rapidly changing nature of information and communications technologies. The course has a balance between both theoretical and practical aspects of IT and provides students with some real world knowledge of the different applications of information systems throughout our society. During Term two and three we have developed our project management skills, gained an understanding of databases and their interrelationship with other components of an information system and delved further into social and ethical issues surrounding IT in our everyday life.

Hashem has continued to work conscientiously and with a pleasing enthusiasm throughout Term two and three. He works hard on the coursework and consequently is making excellent progress. Hashem works hard on the theory aspects of the course and deserves the good exam marks he obtained in the recent exam. With continued effort, Hashem should be able to obtain a great award in this subject.

MTM315117 Mathematics Methods - Foundation

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	communicate mathematical ideas and information	A
C02	apply mathematical reasoning and strategy in problem solving situations	A
C03	use resources and organisational strategies	A
C04	manipulate algebraic expressions and solve equations	B+
C05	understand linear, quadratic and cubic functions	A
C06	understand logarithmic, exponential and trigonometric functions	A
C07	use differential calculus in the study of functions	Not Yet Assessed
C08	understand experimental and theoretical probabilities and of statistics.	Not Yet Assessed

Mid-Year Exam Results

E01	communicate mathematical ideas and information	A (Exam)
E04	manipulate algebraic expressions and solve equations	B+ (Exam)
E05	understand linear, quadratic and cubic functions	A (Exam)
E06	understand logarithmic, exponential and trigonometric functions	A (Exam)

Work Qualities

Attitude/Commitment	Very Good
Participation	Very Good
Punctuality	Very Good
Completion of Set Tasks	Very Good

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Since the previous report students have been studying exponential, logarithmic and circular functions and have started to study Calculus. Assessment to date has included assignments, tests and the mid-year exam. Students will complete further assignments and tests before their internal assessment is finalised. They may improve on their current assessment by their efforts during third and fourth terms.

Hashem is such a dedicated student. He always puts in a concentrated effort and seeks assistance when required. Hashem performed very well in the mid-year exam. To obtain a HA Hashem must at a minimum obtain five A ratings, two of which must be on the external examination. He is on track to do this and could potentially even gain an EA. I look forward to assisting Hashem to reach his potential.

SDI315117 Student Directed Inquiry

An indication of progress against the following criteria/units at this stage of the year.

	Description	Progress
C01	apply self-directed, transdisciplinary inquiry skills	C
C02	utilise project management skills to manage the inquiry process	Not Yet Assessed
C03	determine research methodologies and utilise appropriate tools and methods	Not Yet Assessed
C04	apply ethical understanding throughout all phases of the inquiry	C-
C05	apply personal and social capabilities in the process of inquiry	C-
C06	apply creative and critical thinking to analyse and synthesise reasoning and procedures	Not Yet Assessed
C07	apply metacognition to reflect on processes and transfer knowledge into new contexts	C-
C08	communicate in a range of modes and contexts.	C

Work Qualities

Attitude/Commitment	Very Good
Participation	Very Good
Punctuality	Very Good
Completion of Set Tasks	Good

Rating Scale: Very Good, Good, Satisfactory, Needs Improvement, Not Yet Assessed

Teacher Comments

Students in this subject have completed their midyear assessment which included a verbal presentation and submission of their inquiry proposal, reflective journal and project management documents. They are now in the final phase of their year long individual inquiry research and working towards internal submission at the end of the term. This phase includes analysis of primary research, compiling and formatting completed documents and writing the main body of their research product.

Despite a very slow start I am pleased to note a significant improvement in Hashem's standard of work. He has begun to grasp the skill of academic writing however, considerable time must be taken in the editing stage of the project to refine his work and ensure he demonstrates the required standard across all eight criterion. Hashem should be congratulated on the thorough presentation he delivered for his midyear assessment. After a very unconfident practice run his preparation, organisation and desire to improve was evident. If Hashem continues to apply himself, makes use of tutorial time and acts upon feedback, he should be able to attain a positive result at the end of the year.

Parent Teacher Interview **Optional**
