

IAN PINTO
WILLETTON SENIOR HIGH SCHOOL
YEAR 12 SEMESTER 1 2022

[Student Number 28077205]

Explanatory Notes

The information contained in this report is a summary of your child's achievement, attitude, behaviour and effort. Formal reports are provided twice a year at the end of each school semester. This report is one of a number of strategies used by the school to communicate to you about your child's progress.

Course Unit Results

The Western Australian Certificate of Education (WACE) Course units are semester or year length.

- Grades represent student achievement in relation to the difficulty of the unit.
- Marks (if included) for each Course unit will be a unit mark out of 100.

Vocational Education and Training (VET) Qualifications

VET qualifications are for students wishing to participate in nationally recognised training. Qualifications contribute to the WACE as unit equivalents.

Competency results may be final or progress towards future completion. Final results may be subject to external verification.

Endorsed Programs

Endorsed programs provide access to areas of learning not covered by WACE courses or VET programs. They are delivered in a variety of settings by schools, workplaces, universities and community organisations. These programs contribute to the WACE as unit equivalents.

Students are awarded a result that indicates the level of achievement within the context of the program.

Grades

Grades can be interpreted as follows:

- A - Excellent achievement
- B - High achievement
- C - Satisfactory achievement
- D - Limited achievement
- E - Unsatisfactory achievement
- U - Requirements not completed

Online Literacy and Numeracy Assessment (OLNA) Results

In order to achieve the Western Australian Certificate of Education (WACE), students are required to demonstrate that they have met a minimum standard in literacy (reading and writing) and numeracy. Students can meet these minimum standards either by achieving Band 8 or higher in the NAPLAN reading, writing and numeracy tests in Year 9 or by meeting the minimum standards of the reading, writing and numeracy components of the Online Literacy and Numeracy Assessment (OLNA) from Year 10. Students have up to six opportunities (two per year) from Year 10 through to Year 12 to demonstrate the literacy and numeracy minimum standards.

OLNA Test	Category	Result
Numeracy	Cat 3	Ian has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN
Reading	Cat 3	Ian has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN
Writing	Cat 3	Ian has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN

Attendance Profile

Number of half day absences: Semester 1
Percentage Attendance:

Ian Pinto, WILLETTON SENIOR HIGH SCHOOL Year 12 Semester 1, 2022

Key

	Predicted score 75+
	Predicted score 70-75
	Predicted score below 50
	No Historical Moderation
	Course result from another school

Course Code	School Score	Adjusted Score
ATMAS	93	100
ATISL	93	97
ATMAM	98	96
ATPHY	94	93
ATCHE	93	90
ATENG	58	53

Average Adjusted Score	TEA Predictor	ATAR Predictor
96.4	414.8	99.95

NB: The information in the table above is a *prediction* only. Final student scores and ATARs will vary as a result of the moderation of school-based marks, scaling of individual courses, the overall nature of the state-wide Year 12 cohort in any given year, and most importantly, the individual student's performance in the WACE exam.

The Tertiary Institutions Service Centre (TISC) and the School Curriculum and Standards Authority apply a number of processes to derive state-wide comparability of student results and subsequently a ranking for tertiary entrance. These processes are:

- Moderation
- Standardisation
- Scaling

Further details of these processes can be found at the School Curriculum and Standards Authority and TISC websites.

The predicted ATAR below is derived from scores adjusted to reflect these processes and the application of ATAR bonuses for languages courses, Mathematics Methods and Mathematics Specialist.

WILLETTON SENIOR HIGH SCHOOL

A leading Independent Public School celebrating achievement

TO WHOM IT MAY CONCERN

Ian Pinto has attended secondary school at Willetton Senior High School since 2017, where he has been a member of the schools Gifted and Talented program. Ian is a talented and conscientious student who displays excellent standards of work presentation and has achieved outstanding results in all subject areas during his time at Willetton. Currently he has a predicted ATAR of 99.90 based on the six WACE subjects that he is currently studying.

Ian's teachers are impressed with his work ethic and his mature approach to his studies. They have commented on his thorough preparation for tests and his efforts to complete assignment work to the highest possible standard. Ian is an all-rounder, having excelled in Mathematics, Science and Humanities subjects. He has also been the recipient of many school and academic awards during his secondary schooling. Ian's talents also extend to being a participant in the schools music program.

An active and supportive member of the school community, Ian's school contributions have included the participation in a school program, mentoring lower school students.

I would not hesitate to appoint Ian into a position of responsibility, he displays many positive attributes that would transfer to the workplace and which will be advantageous to him in post secondary study.

I highly recommend Ian as an individual worthy of the highest consideration and wish him well in the future.

Michael Ialacci
Year 12 Coordinator 2022

22 March 2022

To Whom It May Concern:

I am extremely pleased to recommend Ian Pinto for a scholarship. Ian is a talented Mathematics student who is mature and calm. He is in my Year 12 Mathematics Methods class this year. He has consistently ranked in the top five in his years of studies in Willetton Senior High School. He was ranked top in his Mathematics Specialist course and second in Mathematics Methods missing by 0.1% to get the top student award last year. He was also ranked second in the whole of Year 10.

He has proved his mastery of Mathematics by achieving excellent results in various competitions. He was the Medal Winner in 2017 and 2018 for the International Competitions and Assessments for Schools (ICAS) Mathematics. This means he achieved the top score in Mathematics for his year level. Also, he achieved high distinctions for the ICAS competition in 2016, 2019 and 2020. Further, he participated in the Australian Mathematics Competition (AMC) scoring high distinctions in 2017 to 2019 and 2021. He was the prize winner for AMC in 2020.

Ian is interested in studying engineering, most likely software engineering. He has a passion for Mathematics, Science and Computer Programming. He is a well rounder whose hobbies include playing the piano and various sports like basketball, cricket and soccer. In the short time I have known him, I have seen him demonstrating leadership qualities. He is also a team player; collaborating well with others. He is kind and calm which endears him to many people.

Ian is highly capable at handling sophisticated concepts and applying them in various real-life applications effectively. When he explained mathematical concepts to his peers, he linked it with situations they were familiar with so they could easily grasp the concept. He is a fast learner and has the potential to outshine his peers. I would highly recommend him for the scholarship to help him in his learning journey to become an outstanding individual to hopefully contribute well to society in the future.

Yours sincerely,
