

Semester 1 Report 2021

Jemma Woolf
Summers House

Year 12

Jemma is wonderfully dependable, generous with both her time and resources during House Tutor Group activities. Jemma continues to inspire with her quiet persistence and willingness to ask questions to learn better. She has worked tirelessly this semester to prepare herself for the Semester One Examinations. Thank you, Jemma, for the friendly support you offer your peers and all your contributions to Summers House. I wish you all the best for your final semester at PLC.

Explanatory Notes

The School reports student accomplishment in terms of Academic Achievement and Effort. The information below provides the Academic Grade and Effort Rating descriptors.

Academic Grade Descriptors as per SCSA WACE Manual 2017

Each grade (A, B, C, D and E) is based on the student's overall performance with reference to a set of pre-determined standards. These standards are defined by the grade descriptors which are included in the syllabus. Grade descriptions:

- relate directly to the syllabus content
- describe the general characteristics of student achievement at each grade
- express, in positive terms, what a student knows, understands and is able to do
- clearly define the level of proficiency for each grade on a continuum of performance
- provide a guide for teachers when developing teaching and assessment programs
- provide improvement targets for students
- provide a guide to parents, employers and post-school education and training providers of the relative achievement of students against defined achievement standards
- are subject to continuing review by the Authority.

Establishing grade cut-offs

To establish grade cut-offs the teacher:

- generates a ranked list of all students based on the weighted mark out of 100 using the school's assessment outline
- compares the work for selected students with the grade descriptions
- identifies from the ranked list a 'gap' in the marks
- examines the work of the students either side of this point
- determines the cut-offs.
- are subject to continuing review by the Authority.

The results must be internally consistent (ie. a student with a higher mark cannot have a lower grade and vice versa) and students with the same mark cannot be assigned different grades.
