CHEMISTRY ATAR YEAR 12 (ATCHE)

School Semester Grade	A	B	C	D	E	School Semester Mark	86	School Examination	83	Consistently	Often	Sometimes	Seldom	Not Assessed
<i>Michael is an impressive Chemistry student who readily grasps concepts without fuss. His test results throughout the semester have been nothing short of outstanding and his assignment work is meticulously prepared and at the highest standard. I highly commend Michael on achieving an outstanding exam result. He performed strongly in all sections of the paper, with most of his marks being lost through careless errors. In order to perform at a high level in this course, students must be talented problem solvers, and be able to express their understandings of challenging concepts clearly. Michael's aptitude in both of these areas is well-developed. To his credit, Michael is proactive in seeking assistance and he is motivated to master content. I know that Michael will continue to excel as the year progresses and I congratulate him on consistently achieving exceptional results.</i>								Attitude, Behaviour and Effort	Displays a positive work ethic	✓
