PERTH MODERN SCHOOL

YEAR 12 SEMESTER 1 2022

[Student Number 28571712]

Explanatory Notes

The information contained in this report is a summary of your child's achievement, attitude, behaviour and effort. Formal reports are provided twice a year at the end of each school semester. This report is one of a number of strategies used by the school to communicate to you about your child's progress.

Perth Modern School caters for academically able students who accelerate by being enrolled in ATAR courses from Year 10.

Course Unit Results

The Western Australian Certificate of Education (WACE) Course units are semester or year length.

- Grades represent student achievement in relation to the difficulty of the unit.
- Marks (if included) for each Course unit will be a unit mark out of 100.

Endorsed Programs

Endorsed programs provide access to areas of learning not covered by WACE courses or VET programs. They are delivered in a variety of settings by schools, workplaces, universities and community organisations. These programs contribute to the WACE as unit equivalents. Students are awarded a result that indicates the level of achievement within the context of the program.

Grades

Grades can be interpreted as follows:

- A - Excellent achievement
- B - High achievement
- C - Satisfactory achievement
- D - Limited achievement
- E - Unsatisfactory achievement
- U - Requirements not completed

CHEMISTRY ATAR YEAR 12 (ATCHE)

School Semester Grade	A	B	C	D	E	School Semester Mark	75	School Examination	72	Consistently	Often	Sometimes	Seldom	Not Assessed
<i>Kiran is a capable and motivated student in Chemistry, showing interest and applying logical thinking skills throughout the topics studied this semester. I have been particularly impressed with his methodical approach to problem solving, and the mature way in which he can prioritise how much time and effort to spend on different aspects of his studies. His performance in assessments has been consistently good over the semester, although his examination did not necessarily show the full depth of his understanding. Careful use of past examination questions will help with his preparedness for assessments, and with plenty of hard work I am confident that Kiran will show his full potential in Semester 2.</i>							Attitude, Behaviour and Effort	Participates fully	✓

ECONOMICS ATAR YEAR 12 (ATECO)

School Semester Grade	A	B	C	D	E	School Semester Mark	71	School Examination	73	Consistently	Often	Sometimes	Seldom	Not Assessed
<i>Kiran is a motivated student who has high expectations in Economics. His achievement over the semester has been inconsistent which has impacted his overall result. Kiran needs to ensure he has a consistent study schedule so that he covers the breadth of all topics, as well as enabling depth in his written analysis. Kiran is able to discuss economic concepts and the relationship between them, in addition to effectively using economic terminology and models to support his responses. With a consistent approach to building up his skills and understanding in economics, Kiran will make improvements in his overall result in Semester 2. I look forward to assisting him with this.</i>							Attitude, Behaviour and Effort	Participates fully	✓

LITERATURE ATAR YEAR 12 (ATLIT)

School Semester Grade	A	B	C	D	E	School Semester Mark	64	School Examination	69	Consistently	Often	Sometimes	Seldom	Not Assessed
<i>In Year 12 Literature this semester, Kiran has studied Modernist poetry and contemporary prose, and has been introduced to a complex drama script, exploring the relationships between context, genre and representation. They have applied themselves to their studies in Literature this semester, and their written and analytical skills are developing well. Their written and analytical skills are developing well, though there is still room for improvement under timed conditions. Kiran's textual analysis will benefit from a focus on developing more coherent arguments, and more careful contextualisation of their points and evidence. They should also spend time two to three hours a week compiling and studying spelling lists, re-reading texts, revising and adding to their notes, rewriting past essays and/or practising writing new answers to a time limit. With effort and regular extra study, Kiran can hopefully begin to achieve the results they deserve.</i>							Attitude, Behaviour and Effort	Participates fully	✓

Kiran is a quietly determined Mathematics student who has an ability to solve complex problems with a minimum of fuss. He has shown himself to be an independent thinker and a very organised young adult. Kiran has a wonderful work ethic, and hardworking attitude, which has ensured that he has made excellent progress this semester, and I have been most impressed with his efforts.

Kiran has completed an admirable semester of work and has achieved very good results. His examination and test scores evidence a diligent revision and preparation process. As part of a future study and revision strategy, Kiran should inspect the syllabus dot-points and compare each one to his performance in past assessments. This should result in a thorough review, highlighting areas of strength and specific opportunities for improvement. This process, together with the completion of as many practice examination papers as possible, will allow Kiran to maximise his performance.

Kiran is a very good student whose motivated approach has yielded excellent results this semester. He is always willing to ask questions to clarify his understanding. Kiran has shown attention to detail and commitment to doing practice problems and this has paid off for him this semester. Success in physics comes from solving problems and Kiran should continue to use all resources to develop his understanding.

Online Literacy and Numeracy Assessment (OLNA) Results

In order to achieve the Western Australian Certificate of Education (WACE), students are required to demonstrate that they have met a minimum standard in literacy (reading and writing) and numeracy. Students can meet these minimum standards either by achieving Band 8 or higher in the NAPLAN reading, writing and numeracy tests in Year 9 or by meeting the minimum standards of the reading, writing and numeracy components of the Online Literacy and Numeracy Assessment (OLNA) from Year 10. Students have up to six opportunities (two per year) from Year 10 through to Year 12 to demonstrate the literacy and numeracy minimum standards.

OLNA Test	Category	Result
Numeracy	Cat 3	Kiran has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN
Reading	Cat 3	Kiran has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN
Writing	Cat 3	Kiran has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN

Attendance Profile

Number of half day absences: Semester 1

Percentage Attendance:

Students have embraced their final year at Perth Modern whole heartedly. The Masquerade Ball was the social event of the year with students looking gorgeous as they danced the night away at Optus Stadium. I congratulate the students on their calm and diligent approach to their studies, and encourage them to keep their goals for the year and future pathways in mind, as they work towards completing their final year of Secondary School. This cohort continue to support each other at every opportunity, and it is a joy to watch them grow into community-minded young adults.

Rotary Four-Way Test Public Speaking Competition

RICHARD HERRMANN, ROTARY SPEAKING COORDINATOR

Seven of our Year 10 students presented speeches to the Rotary Club of Subiaco as part of the organisation's Four-Way Test Public Speaking Competition on Tuesday, 22 September.

This event gave our students an opportunity to speak to prominent members of the community and receive adjudication from two experienced Toastmasters, who shared their expert feedback with our speakers at the conclusion of the evening.

The students delivered most compelling and professional speeches about a fascinating range of topics such as Indigenous incarceration, homelessness, and arrests of whistle-blowers.

The winner of the evening was Huda Zaidi in Year 10, who spoke about the importance of media diversity.

I commend all of the students for the wonderful way in which they represented their school. I also thank our Master of Ceremonies, Wen Zhu in Year 10 as well as our representative from Rotary Subiaco and former principal of Perth Modern School Dr. Robyn White for her support organising the initiative.
