NOAH WEST

PERTH MODERN SCHOOL

YEAR 12 SEMESTER 1 2022

[Student Number 28819051]

Explanatory Notes

The information contained in this report is a summary of your child's achievement, attitude, behaviour and effort. Formal reports are provided twice a year at the end of each school semester. This report is one of a number of strategies used by the school to communicate to you about your child's progress.

Perth Modern School caters for academically able students who accelerate by being enrolled in ATAR courses from Year 10.

Course Unit Results

The Western Australian Certificate of Education (WACE) Course units are semester or year length.

- Grades represent student achievement in relation to the difficulty of the unit.
- Marks (if included) for each Course unit will be a unit mark out of 100.

Endorsed Programs

Endorsed programs provide access to areas of learning not covered by WACE courses or VET programs. They are delivered in a variety of settings by schools, workplaces, universities and community organisations. These programs contribute to the WACE as unit equivalents. Students are awarded a result that indicates the level of achievement within the context of the program.

Grades

Grades can be interpreted as follows:

- A - Excellent achievement
- B - High achievement
- C - Satisfactory achievement
- D - Limited achievement
- E - Unsatisfactory achievement
- U - Requirements not completed

Noah is a friendly and curious Chemistry student. This semester, Noah received lower than expected results in his first few assessments, however this has improved across the Semester. Noah particularly struggle with the Batteries Extended Response Task and the Corrosion Investigation. To improve in this style of assessment Noah should ensure he explores all research tasks in greater detail, revise his science inquiry skills, and seeks support from the teacher when there are concepts he is unsure of. Noah's examination showed that overall he has a sound understanding of the concepts covered in Chemistry so far this year. To continue to achieve highly in his future assessments Noah should continue to complete regular revision at home and practice examination style questions under time pressure.

--------------	-------	-----------	--------	--------------

This semester, students in ATAR English have been exploring representations of themes, issues, ideas and concepts through a comparison of texts. They have analysed, compared and composed texts to explore relationships between language, genre and contexts through study of short stories and film. Noah has been an insightful and wonderful contributor in our class this semester. His growth in English this semester has been exponential. Noah has produced routinely strong content that exhibits an informed understanding of course concepts. To improve, Noah should aim to enhance the quality of his essay writing. To do so, he could practise developing clear and controlled theses that are fluently supported with specific and pertinent examples. I advise that he regularly undertake timed practice responses and submit these for feedback to ensure that he is prepared for the rigours of his end-of-year exams. I look forward to witnessing Noah's further growth in Semester Two.

--------------	-------	-----------	--------	--------------

Noah is an extremely polite, friendly and courteous student who performed at a consistently high level throughout Unit 3 Mathematical Methods. He shows great natural ability and enthusiasm for Mathematics, which are shown in his excellent problem solving skills. Whilst I acknowledge that Noah is a very busy person, I believe that Noah needs to stop devoting much of his time to the next upcoming assessment, and methodically working through each subject equally. Noah can be slightly behind schedule and rushes to complete the revision, leaving some minor gaps in his understanding. Noah also needs to understand that there are simple, effective and fast techniques and procedures that should be used to maximise marks in assessments, rather than the sometimes time-consuming and inefficient problem solving techniques he can use.

Consistently	Often	Sometimes	Seldom	Not Assessed
--------------	-------	-----------	--------	--------------

Noah is a hard working student who is able to respond to routine questions with ease. He has consistently applied mathematical concepts and correct techniques to solve familiar problems. He is encouraged to practise unfamiliar questions from revision resources and communicate his reasoning in detail. Noah is to be commended for the constructive manner in which he reflects on his work.

--------------	-------	-----------	--------	--------------

Noah is a positive and conscientious musician whose love of learning is clear through his active participation in all class activities. He has achieved consistently strong results across all areas of the music course. The Extended Responses are an area that Noah could develop in order to improve his results. He has a comprehensive understanding of Music and its place in history, but needs to ensure in his responses that he is specific in the analysis of musical elements, and that he relates his response back to the set questions. Noah is encouraged to plan his responses carefully before starting to write these.

Consistently	Often	Sometimes	Seldom	Not Assessed
--------------	-------	-----------	--------	--------------

Noah has had an excellent semester in the course. He is willing to contribute frequently to class discussion and seeks clarification on concepts and theories when he feels the need. His record in his assessments reflects this strength, though I would advise him to keep an eye on the clarity of his written work because it can slip and compromise the comprehension of his ideas. With the reasoning component of the course, I would advise Noah to read the questions carefully so as to avoid making unnecessary mistakes.

Consistently	Often	Sometimes	Seldom	Not Assessed
--------------	-------	-----------	--------	--------------

Noah completed an excellent Semester 1 in Physics, passing all of his assessments with marks which were, in some instances, well above the class average. He should use the past ATAR papers provided in order to maintain his revision and preparation for his final examinations. I wish Noah continued success in his remaining assessments.

Dr O. Waters

Online Literacy and Numeracy Assessment (OLNA) Results

In order to achieve the Western Australian Certificate of Education (WACE), students are required to demonstrate that they have met a minimum standard in literacy (reading and writing) and numeracy. Students can meet these minimum standards either by achieving Band 8 or higher in the NAPLAN reading, writing and numeracy tests in Year 9 or by meeting the minimum standards of the reading, writing and numeracy components of the Online Literacy and Numeracy Assessment (OLNA) from Year 10. Students have up to six opportunities (two per year) from Year 10 through to Year 12 to demonstrate the literacy and numeracy minimum standards.

OLNA Test	Category	Result
Numeracy	Cat 3	Noah has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN
Reading	Cat 3	Noah has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN
Writing	Cat 3	Noah has demonstrated the minimum standard by prequalifying through Year 9 NAPLAN

Community Service Program

Hours of service completed: 191.5

Attendance Profile

Number of half day absences: Semester 1 3

Percentage Attendance: 98%

Students have embraced their final year at Perth Modern whole heartedly. The Masquerade Ball was the social event of the year with students looking gorgeous as they danced the night away at Optus Stadium. I congratulate the students on their calm and diligent approach to their studies, and encourage them to keep their goals for the year and future pathways in mind, as they work towards completing their final year of Secondary School. This cohort continue to support each other at every opportunity, and it is a joy to watch them grow into community-minded young adults.

Principal:

Mr M. MacKay

PERTH MODERN SCHOOL

Exceptional schooling. Exceptional students.

RE: Noah West – Engineering Undergraduate Merit Scholarship School of Aerospace, Mechanical, and Mechatronic Engineering

To Whom It May Concern,

I am pleased to write this letter in support of Noah West's application for the Engineering Undergraduate Merit Scholarship from the School of Aerospace, Mechanical and Mechatronic Engineering. Noah is currently a student at Perth Modern School – Western Australia's only fully selective gifted and talented high school. Noah commenced his studies at Perth Modern School as a year 7 student. He is currently completing his Western Australian Certificate of Education and is studying six ATAR subjects – Mathematics Method, Mathematics Specialist, Physics, English, Philosophy and Ethics, and Music. Noah is keen to pursue further studies in mechatronics and computer science.

Academically, Noah has consistently demonstrated strong potential and achievement during his time at Perth Modern School. Noah has excelled at Philosophy and Ethics, having awarded to him the semester one Course Award for the subject, which is award to the highest performing student. Noah is also a member of the school Sphinx Society, for which membership is based on obtaining A grades in five or more subjects per semester. Noah has achieved this for all five of the semesters that he was eligible.

Noah has a strong propensity for leadership, as demonstrated by being:

- A member of the school student council from 2020 – 2022.
- An elected house captain from 2018 – 2019.
- An advocacy captain from 2017 – 2018.
- Responsible for producing the Mufti Day concert as the Head of the Council's Stage and Act's committee 2021, 2022.
- A representative for Perth Modern School and the students of Western Australia at a Youth Leadership conference which was chaired by the WA Premier Mark McGowan 2021.
- A coach for a boys under 14 City Beach basketball Club team 2021.
- A coach for Perth Modern School's lightning carnival basketball A team 2019 – 2020.
- Responsible for coordinating and providing free weekly maths tuition to Year 7 – 11 students 2022.
- A house drama director 2021.
- The Safety Captain of Curtin's First Robotics Competition team, 4788 2021.

Noah is passionately involved in robotics, which is highlighted by:

- His membership and position as one of the four drivers in Curtin's FIRST robotics team, 4788, which has over 40 members.
- Founding of the Perth Modern Robotics Club to promote STEM to middle years students. The two school teams, mentored by Noah, placed 1st and 2nd in the FIRST Lego League regional competition and were award winners in the district nationals. He also entered 8

PERTH MODERN SCHOOL

Exceptional schooling. Exceptional students.

teams into RoboCup, with two teams qualifying for nationals where they will be competing soon. All of this happened in the club's first year.

- Volunteering as a mentor for Curtin STEM Outreach's Robo Academy 2020 – 2022.
- His involvement in the creation of FIRST Recipe Book, a resource for new robotics teams in WA, including schematics of a handful of mechanisms for a successful robot, one of which was entirely designed by Noah.
- His hobby of designing, building, programming, and budgeting his own musical (MIDI) light devices which he uses to create lightshows which he uploads to YouTube.
- His creation of audio reactive devices such as RGB LED lamps that react to music.

Noah is an accomplished mathematician, and has represented Perth Modern School, and Perth in several mathematics competitions. His mathematical achievements include:

- Head of a Perth Modern School team that placed 3rd in Australia in the International Mathematics Modelling Challenge 2022.
- Captain of the Perth Modern's Mathematics A Team – Have Sum Fun interschool competition 2022.
- Representing Perth in the Tournament of Towns twice a year 2020, 2021, 2022.
- Being selected as one of the 17 students around the state to attend The Western Australia Mathematic Summer School 2022.
- Prize certificate in Australian Mathematics Olympiad, top 0.3% 2019.

Noah is a keen public speaker and talented musician as demonstrated by:

- Representing Perth Modern School in debating 2017 – 2019.
- Qualifying for the state round for Model United Nations Security Council 2020.
- Major roles in the production of school musicals Little Shop of Horrors and Grease 2018, 2020 (respectively).
- Participation in three different school choirs, two of which are selective 2018 – 2022.
- Regularly performing on drums and vocals in front of 500 people at St. Josephs Cathedral in Subiaco.
- Participation in the school jazz band as a drummer 2017 – 2022.
- Being a winner of the 2022 Artology composition competition, the prize of which included invitation only workshops with Australia's leading composers in Adelaide and Sydney.
- His dedication to undertake music composition as an added ATAR subject outside of school.
- School music ensembles playing pieces composed by Noah.

Noah is an talented sportsman, who has represented the school at interschool events in a range of areas, including:

- Athletics - 400m and 800m sprints 2020.
- Cross country 2017 – 2022.
- Basketball 2018 – 2021.

PERTH MODERN SCHOOL

Exceptional schooling. Exceptional students.

Noah's involvement in sport extends beyond school, including:

- Playing two Perth Metropolitan Basketball League teams 2020 – 2022.
- Playing for the City Beach Junior Basketball Club 2015 – 2022 (and recipient of team's most improved and best defender awards).
- Being a member of Perth Marathon Club.

As has been captured above, Noah has a very strong focus on the community, logging over 250 hours of community service over the last three years. Whilst Noah has volunteered with a range of organisations, the main ones are Curtin STEM outreach, City Beach Basketball Club, St. Joseph's Parish, and Perth Modern School.

Perth Modern School has no hesitation in supporting Noah West in his application for this prestigious scholarship. Noah is a caring, passionate, and responsible student who has built strong relationships with both his peers and the school's faculty. Noah would be a very worthy recipient of the Engineering Undergraduate Merit Scholarship. I believe that it would be a wise investment for The University of Sydney to award Noah this scholarship, as he has demonstrated his preparedness to utilise his academic abilities and leadership skills to mentor and support others in both the school environment and the broader community. Should you require further information, don't hesitate to ask.

Yours sincerely,

Michelle Edwards
